Antioch couple charged in baby conspiracy

by THOMAS STEVENS
Lakeland Newspapers

An Antioch couple, who allegedly made thousands of dollars in an elaborate baby-selling scheme, was arrested and charged by Lake County Sheriff's Police with theft, attempted theft, conspiracy and illegal placement of a child.

Terry Pounds, 24, and Angela Andrews, 21, became the focal point of a several month, multi-agency investigation coordinated by Illinois Attorney General Roland Burris' office when a Glencoe couple didn't receive the baby the Antioch couple promised them after they gave Pounds and Andrews \$7,000 for the child's prenatal expenses.

According to Burris, Pounds and Andrews took an estimated \$35,000 from

couples who sought a baby through adoption. This two-year scheme, which began with the pregnancy of Andrews' first daughter and continued through a second pregnancy and the birth of a second daughter, preyed on the hopes and dreams of couples who wished to have a baby.

Pounds and Andrews, according to Burris spokesman Charles Cleveland, in each instance told the unsuspecting couple that Andrews was a rape victim and she needed financial help through the birth of

the child, but would then give the child up for adoption to the couple.

That never happened in any of the several cases police uncovered in their investigation that included couples in California, Nevada, New Jersey, Connecticut and several in Illinois.

The youngest of the Antioch couple's children, born on Sept. 11, was given to a couple in San Diego, whose lawyer was able to hold the Antioch couple to their (Continued on Page 7)

ACHS seniors earn recognition

by THOMAS STEVENS
Lakeland Newspapers

Three Antioch Community High School seniors, who now rank among the state's top one percent of high school seniors, will compete for some 6,500

scholarships, worth over \$25 million, this spring.

Christopher Bracey, Rebecca Kaup, and John Harting qualified as a National Merit Semi-finalists after taking the 1991 (Continued on Page 7)

Dist. 34 cited for performance

by THOMAS STEVENS
Lakeland Newspapers

Despite what many community members have said about Antioch schools, Antioch's children are getting a quality education and Antioch School District 34 has the data to prove it.

The Antioch school district received an "extremely good" rating from the Institute for Public Management, a Chicago based independent performance auditing firm, that analyzed the past 12 years of student standardized test scores.

The institute found, according to Superintendent Dr. Donald Skidmore, a strong pattern of student learning performance and improvement. The study stated that during the past decade, the students' national achievement percentiles have increased some 20 percent from the 50th to 70th percentile range.

"They also found that on average, our students grew academically one and one-half years for each year in school," said Dr. Daniel Burke, assistant (Continued on Page 7)

Daredevil Flying

Sid Nelson and his Nelson Special, a 1939 Clipped Wing T-Craft, flies upside down past the crowd at the Lake County Family YMCA AirFest, Sunday, Oct. 4 at the Waukegan Regional Airport. Approximately 8,000 to 10,000 attended the day long AirFest and enjoyed plane rides, spectacular aeronautic acrobatics, a pancake breakfast and much more. Plans for next year's event are already underway.—Photo by Gene Gabry

New senior complex may be ready in '93

FOX LAKE — Leonard Dam and his brother, Dr. William Dam, are hoping for a happy holiday season in 1993. What the Dams will be making merry about is the completion of their new senior housing complex near the intersection Rollins Road and Lilac Avenue. The brothers will break ground for the complex during a noon ceremony Friday, Oct. 16. The projected cost of the complex is \$7.3 million. The money will come in the form of a \$3.6-million mortgage through the McHenry State Bank, \$2.7 million from the sale of federally approved investment tax credits and the balance in investments by the Dam brothers. Senior citizen interest in the five-story, 95,000-square-foot complex is running high.

Citizen's efforts fail for park director

NORTH CHICAGO—Former Foss Park District Director Kenneth Sinclair left his 10-week position this week after

the lack of a quorum prevented the park board from considering rescinding his resignation, Oct. 1. Park commissioners were asked to meet with a citizens group Thursday to hear supporters of Sinclair speak on his behalf. If a voting majority of the commissioners had been present they would also have been asked to accept Sinclair's rescinding of his resignation. Sinclair agreed to recind his resignation following an out-pouring of support from residents. Sinclair's submitted his resignation Sept. 16 to the Foss Park Board after the board rescinded his firing of Juliette Hicks for insubordination, 2-1 with one commissioner passing, Sept. 16. Hicks is the director of the latch key and pre-school programs.

Antioch couple arrested for scam

ANTIOCH—An Antioch couple, who allegedly made thousands of dollars in an elaborate baby-selling scheme, was arrested and charged by Lake County Sheriff's Police with theft, attempted theft, conspiracy and illegal placement of a child. Terry Pounds, 24, and Angela Andrews, 21, became the focal point of a several month, multi-agency investigation coordinated by Illinois Attorney General Roland Burris' office when a Glencoe couple didn't receive the baby the Antioch couple promised them after they gave Pounds and Andrews \$7,000 for the child's prenatal expenses. According to Burris, Pounds and Andrews took an estimated \$35,000 from couples who sought a baby through adoption. This two-year scheme, which began with the pregnancy of Andrews' first daughter and continued through a second pregnancy and the birth of a second daughter, preyed on the hopes and dreams of couples who wished to have a baby. Pounds and Andrews, according to Burris spokesman Charles Cleveland, in each instance told

the unsuspecting couple that Andrews was a rape victim and she needed financial help through the birth of the child, but would then give the child up for adoption to the couple. That never happened in any of the several cases police uncovered in their investigation that included couples in California, Nevada, New Jersey, Connecticut and several in Illinois.

9-mile river trail to open Sunday

HALF DAY—Lake County Forest Preserve officials are unveiling a nine-mile-long nature highway this weekend with the opening of the Des Plaines River Trail's southern section from Libertyville to Lincolnshire. To publicize nature and

recreation activities for area families, the Forest Preserve District will hold a grand opening ceremony Sunday at 1 p.m. at the Half Day Forest Preserve, Shelter A, near Vernon Hills. The forest preserve entrance is on Route 21 two miles south of Route 60. After a ribbon-cutting, residents may participate in a two-mile or four-mile hike. Live folk music and refreshments will be offered. The trail, suited for hiking, running, cross-country skiing, horseback riding and cycling, stretches from the Old School Forest Preserve to Half Day Road in Lincolnshire. It crosses over the river several times and by virtue of overpasses and bridges, never intersects with a roadway. More information is available from the Forest Preserve District at (708) 367-6640.

FREE ESTATE PLANNING SEMINAR

AVOID PROBATE

This informative and entertaining seminar will show you how proper planning can save time and thousands of dollars.

You'll learn how to:

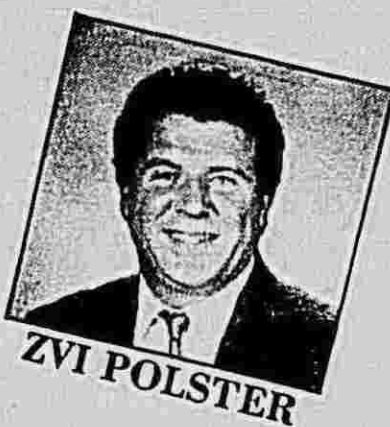

- Minimize estate taxes with an estate plan that includes a LIVING TRUST
- Reduce estate taxes.
- Avoid the lengthy and expensive probate process.
- Maintain privacy and control of your estate.
- Avoid multiple probates if you own property in more than one state.
- Avoid guardianship or "Living Probate."

You should attend this seminar if your estate is in excess of \$50,000, or you are married, or you have minor children, or you own real estate in more than 1 state.

More fires burn homes, kill residents last year

Seven people died in residential fires in Lake County in 1991, and area home fires last year most likely started in the kitchen, according to a study released today by the Kemper National Insurance Companies.

The seven deaths from residential fires was a sharp increase over the three home fire deaths in 1990. There was a total of 546 home fires in the county, and nearly \$7.1 million in damage in 1991. The 567 home fires in 1990 caused damage of \$6.9 million.

The survey also found that 139 of the home fires, approximately 25 percent, began in the kitchen. Bedrooms, with 67 fires, were the second most likely origin

of the fires.

In conjunction with National Fire Prevention Week, which runs through Saturday, Kemper National conducted a survey of Lake County fire departments to determine the leading causes of residential fires. This year, 20 Lake County fire departments responded to the survey.

Electrical equipment malfunctions had caused 119, or 22 percent, of all home fires reported in 1991. By comparison, these malfunctions were the cause of 21 percent of home fires in 1990. Carelessness while cooking, the second leading cause of home fires in 1991, accounted for 104, or 19 percent, of residential fires. In 1990, this also caused

19 percent of all home fires.

The 546 home fires accounted for 25 percent of all fires reported to Lake County fire departments.

One encouraging trend in the fire data was that more of the affected homes had

working smoke alarms. In 1991, 54 percent of homes with fires had functioning smoke alarms, compared to 47 percent in 1990.

Included are figures from the 1991 survey:

City	Fires	Lives lost	Dollar Loss
Antioch	23	0	\$173,450
Bonnie Brook	9	0	\$36,000
Countryside	12	0	\$152,335
Deerfield	15	1	\$106,405
Fox Lake	33	0	\$501,500
Grayslake	17	0	\$232,660
Round Lake	43	0	\$502,015
Gurnee	31	1	\$380,905
Highland Park	26	0	\$950,620
Knollwood	1	0	\$17,925
Lake Bluff	7	1	\$202,450
Lake Forest	28	0	\$107,607
Lake Villa	6	0	\$77,900
Lake Zurich	34	0	\$658,250
Libertyville	19	0	\$96,300
Long Grove	41	0	\$169,550

Spelling bee winners named

The Literacy Volunteers of Lake County conducted its fourth annual spelling bee for adults, Oct. 4 at the

College of Lake County. Thirteen teams entered the vigorously mind-boggling competition and the winners will continue on to the state adult spelling bee championship on Oct. 24 at the Motorola University Museum in Schaumburg.

Winners at this year's competition are:

1. Lake Forest Friends Meeting: "Quaker Spellers"
2. American Association of University Women, Mid Lake County Branch.
3. Altrusa Club of Lake County.

October 9, 1992

After surgery, I was amazed how soon I was back at work.

I kept postponing my operation.

Setting aside three to four weeks to recover seemed almost impossible. Then, I learned about the new Laser Care Center of Lake County at Victory Memorial Hospital.

Since 1987, Victory has performed over 2000 successful procedures and has the most extensive selection of lasers in Lake County. And with laser surgery, I experienced less bleeding, swelling and scarring, had less danger of infection, and a much shorter recovery time.

The entire staff of Victory's Surgery Department was wonderful. I was well-informed about procedures and pain

management, and they even called me at home afterward to see how I was doing. My doctor says Victory has one of the best organized and most efficient surgical units in the area. He was right. I was really impressed with the care I received.

I hope I don't need any more surgery, but if I do, my choice will always be Victory.

For a **FREE** laser or general surgery brochure or referral to a laser specialist or surgeon, call **1-800-THE CHOICE** (1-800-843-2464), 9 am-5pm, Monday-Friday.

A Total Quality Management Organization

ACHS to welcome home its alumni on special weekend

by THOMAS STEVENS
Lakeland Newspapers

They're back!

Yes indeed, it is that time of year ladies and gentlemen. The time of year when cool air, under normal weather patterns, overtakes the last of the summer's heat and blows in a number of former Antioch Community High School students for a brief return to their roots.

Homecoming weekend is here and Sequoit spirit is at an all-time high, despite a varsity football record of 0-5 this year.

"It is amazing what these kids can do," said ACHS Student Council Sponsor Dee Alberts. "Just when it looks like something might not happen, these kids pull it through."

What these young adults did was get Antioch businesses to let them paint the store front windows in the downtown area with a variety of homecoming themes. The students also organized several student school spirit days, including hat day, Chicago pro team dress-up day, theme dress-up day and school colors day.

"The students planned all the activities," said Alberts. "They selected the music for the events and worked within a tight budget."

Also planned for homecoming week was the strange and unpredictable Mr. ACHS contest on Oct. 7 in the south Gym, Friday's pep rally and dance and the official homecoming events on Saturday, which include the parade, football game and dance.

Changes to this year's homecoming format included the formation of a seniors' only homecoming court and the selection of the Homecoming King and Queen at

Antioch Community High School Seniors gathered before the beginning of the school's homecoming festivities this week. The 1992 ACHS Homecoming Court includes, from left to right: Kelly Johns, Eric Newcomb,

Melissa Marsh, Todd Paulus, Melissa Lamb, Keith Hanson, Kati Yukna, Dave Remter, Amanda Wilson, and Larry Janke.—Photo by Thomas Stevens.

Friday afternoon's all-school assembly.

Friday's pep rally, which will happen in two locations, will be free to those who wear school colors and have a student ID, said Alberts. The pep rally dance, located after the rally in the south Gym, will feature the 15 ft video screen and music videos of Entertainment Concepts.

Saturday's events begin with the Homecoming parade through downtown Antioch at 10 a.m., continue with the Varsity Football team's attempt to win its first game of the year at 2 p.m. and concludes with the traditional Homecoming dance from 7 to 11 p.m. in the high school commons area. The cost

of the dance is \$7 for a single student and \$10 for couples.

"The parent support group Sequoit Pride helped out tremendously with the refreshments at the dance," said Alberts. "We hope that every student participates in all of the school homecoming events this weekend."

Tragedy hits chief's son, ACHS grad Todd Kupsak

In the three weeks since a car accident severely injured the son of Vernon Hills Police Chief Gary Kupsak, the Kupsak family's lives have become extremely tied in to the minute-by-minute.

"Everything is premature," Kupsak said. "You get to thinking in just matters of hours. The next decision is, will he eat lunch?"

"We've learned to make all our decisions not very long-range," Kupsak said.

Todd Kupsak, 20, a 1990 Antioch High School graduate, was left paralyzed from the waist down after a Sept. 16 accident. But Todd has been improving this week, Kupsak said. Todd's condition was upgraded out of intensive care last week at the Sioux City, Iowa hospital where he is being treated.

And back on the homefront, a Vernon Hills police organization circled the wagons behind the Kupsak family, establishing a fund to help defray Todd's medical costs. Donations may be made the Todd Kupsak Fund, in care of Vernon Hills Fraternal Order of Police Lodge #34, P.O. Box 132, Vernon Hills 60061. The fund is administered through the First Colonial Bank of Lake County in Vernon Hills.

"We're very gratified and humbled by what the F.O.P. wants to do for us," Kupsak said.

Kupsak said he appreciated the attention given to his family's tragedy but said the

family needed to maintain a level of privacy.

"I don't want this to be a spectacle. It's a private thing," Kup Wayne State's criminal justice program, planned a law-enforcement career, having worked as the Palatine Police Department's community service officer between high school and college, said. "It's just a very difficult time for us."

Todd suffered severe injuries to his neck and spine when the car he was driving rolled over on a gravel road near Wayne, Nebraska, according to Wayne County Sheriff LeRoy Janssen. Police determined the car was travelling too fast for conditions and Todd lost control of the car. Todd and three fellow students of Nebraska's Wayne State College were in the car, owned by the Kupsak family.

The roof caved in, pinning Todd. The other three students were treated and released for only minor injuries.

Chief Kupsak said now the family is waiting to see if Todd's neck will heal without necessitating surgery. Doctors could decide this week whether to transfer Todd to a Chicago-area hospital, Kupsak said.

Todd is a sophomore in Wayne State's law-enforcement studies program. After graduating from Antioch High, Todd worked for a year as a community-relations officer for the Palatine Police Department.

Briefs

Craft Faire

Veterans of Foreign Wars Post 4551 in Antioch will present its annual Christmas Arts and Crafts Faire on Oct. 31 from 9 a.m. to 4 p.m. and Nov. 1 from 11 a.m. to 4 p.m. Refreshment, prizes and baked goods will be available. For more information, call Dorothee Himer at 395-6934.

Help needed

The Single With Children group needs your help. They are a non-profit group with a primary goal to bring single parents together for mutual support. The group meets on Thursdays at 7 p.m. For the location and more information, call 395-3336.

Free check-up

Free blood pressure screenings are offered on the first Wednesday of each month in the Saint Therese Medical Center Lobby, 11 a.m. to 2 p.m. and every Friday at the Saint Therese Area Treatment Satellite, Lake Villa, from noon to 3 p.m.

These screenings include free monitoring and recording of blood pressure. This program is open to the public. For more information, call Saint Therese Ask-A-Nurse at 244-5900.

Let's talk

Single with Children? So are we! Let's talk about it. S.W.C. is a support group for single parents and meets Thursdays at 7 p.m. in the area. Come join us! For location, call 395-3336.

Octoberfest

The Antioch Golf Club is sponsoring a three-person scramble tournament on Oct. 17 at the club. The event is open to all players in two, gross and net, divisions. The fee

is \$30 per player, which includes greensfee, prizes and lunch. Entry deadline is Oct. 7. For more information, call the Antioch Golf Club at 395-4800.

Red Ribbon Day

The Parent Network Group at Antioch Community High School will sponsor "Red Ribbon Day" on Oct. 24, in conjunction with Antioch's Post Prom festivities. The volunteers will be on the streets seeking donations for their red ribbons. Please be sure to put your red ribbon on your car mirror to remind everyone to stay drug free and to not drink and drive. All monies raised will be used for our 3rd annual Homecoming activity for Antioch students. Please help us make our effort a success.

Celebrity Auction

The Student Assistant Program at Antioch Community High School will sponsor a Celebrity Auction on Nov. 7 at the school. Place your bid on an autographed 90210 script written by Arron Spelling, an Oprah Winfrey autographed T-shirt, a Hank Williams mug, Gabrielle Carter's 90210 fan club membership, and too many more to mention. Help them help our kids stay drug free. For more information, call 395-1421.

Fall Bazaar

The women of the United Methodist Church of Antioch will hold their annual Fall Bazaar and Luncheon on Oct. 10 from 9 a.m. until 2 p.m. at the church. The bazaar features a variety of crafts, jewelry, homemade items, Christmas and other holiday decorations, home baked goods, plants and a White Elephants. A delicious beef ragout luncheon with dessert and beverage at \$5 per plate, \$3 for children under age 11, will be held from 11 a.m. to 1 p.m.

Rescue service travels to Florida for animals

Craig and Cheryl Tisdale and Kathleen Piasecki, licensed investigators with "Animal Rescue Service," a humane society and disaster team based out of Wauconda, were asked to travel to Florida to assist in caring for horses that were victims of Hurricane Andrew.

A number of horses had been killed and many had to be destroyed. Those found

"Ken and I will always remain a little changed from this hurricane, but for those who felt the full ranging blast of Andrew will be changed forever."

— Kathleen Piasecki

wandering unclaimed, injured and ill were taken to Tropical Park race track in Miami which had been set up as a hospital.

Piasecki's brother, Ken Minahan, a resident of Miami, had evacuated inland, after using his home's closet doors to nail over windows for protection.

"I would have liked to give Ken a big hug, as he was a survivor of Andrew, but he had left for Memphis for a blues festival," said Piasecki. "His home in Miami Beach went unscathed, only his car received minor damage.

"He'd been spared, but for others, it hadn't been so," she added.

Piasecki, Craig and Cheryl arrived Sept. 4. They witnessed the aftermath of Andrew's rage in the hardest hit area, Homestead.

Hurricane Andrew had ripped and tore, uprooted and ground up everything in its 50 mile path, according to Piasecki.

"The hurricane left people and animals alike homeless, helpless and suffering," she said. "Death was all around, wild and domestic animals scattered about, and then there were the people."

Piasecki pondered what would come next. People were left without food, water, electricity and any form of communication. There was not any help for medical needs, no shelters available from the 90 degree heat or flies and mosquitos until help came. The people could not help themselves, Piasecki said.

It was difficult to find their way around, Piasecki said, as all road signs including the tollway, along with overhead lights, telephone poles and vegetation, were damaged or gone.

Despite the mass destruction, Piasecki said her group saw messages of hope springing from devastated homes.

"Painted on one house was, 'Thank you Lord for sparing lives,' " she said. "On another was, 'OK God, you've got our attention, now what?'"

Along with the messages came care and concern from survivors and a show of patriotism, according to Piasecki.

"A small American flag was raised out of the rubble from one house," she said. "And I remember the tender-hearted ladies that came to give carrots to the injured horses at the hospital, where we spent time cleaning, dressing and bandaging wounds along with assisting the

veterinarians."

Piasecki said for two full days she had not heard a bird sing. On Sunday, Sept. 6, she heard one "chattering."

"He was chattering near a group of us, he seemed so alone, I felt he was near us for companionship," she said. "Yet there is one, there will be another."

For Piasecki, the damage was real, and it hit close to home because her brother was a survivor. Because of that, their lives will never be the same.

"Ken and I will always remain a little changed from this hurricane," she said. "But for those who felt the full ranging blast of Andrew will be changed forever."

One of the horses that Piasecki and her group helped care for in Florida. The horse sustained a head injury from Hurricane Andrew in early September.

Lindenhurst Police seek a few good young men

by THOMAS STEVENS
Lakeland Newspapers

Several young men are wanted by the Lindenhurst Police Department, but its not for what you might think.

The department seeks high school aged men to play in the Lindenhurst Basketball League on Friday nights at B.J. Hooper School beginning Oct. 30.

"This is the third year we've sponsored this," said Police Chief Richard Jablonski. "This is one of the numerous programs we've set up to show our commitment to the community."

According to Jablonski, last year's league had six teams, numbering 50 kids coached by police officers and community volunteers,

and a full season that lasted well into February.

"This is really a popular program that could be even more popular this year," said Jablonski.

Tryouts for the league are scheduled for Oct. 16 and 23 at 7 p.m. at B.J. Hooper School in Lindenhurst and applications for the league are available at the Lindenhurst police Department or at the Linden Barber Shop, located in the plaza.

All high school aged boys, who are not on their high school basketball teams, are eligible.

More help

Bill Hentschel, president of the Antioch Senior Council, presented Antioch Rescue Squad Lt. Tim Osmond a check for \$500 to help support the volunteer squad, as Senior Center Coordinator Paul Howard looks on. Area seniors donated the money to help pay for needed items for the all volunteer force.—Photo by Thomas Stevens.

Strang Funeral Home of Antioch

Antioch's Youlden yodels to national spotlight, fame

by LIZ SCHMEHL
(708)395-5380
AARP

Charley Youlden, the popular yodeler with the AARP All Stars Band of Antioch has reached the pinnacle of fame. He recently appeared on the Jim Stafford Show in Branson, Mo.

Branson is considered the new country and western capitol. Charley performed before a large audience who were visiting Branson from various parts of the country and he was a big hit.

The Antioch Chapter of AARP meets at the Antioch Senior Center and the opening meeting of the year was in September. Marge LaParr, president, welcomed many AARP members at this first meeting.

AARP will be hosting a white elephant sale at the center on October 13 and a Halloween Hobo Lunch Party on October 27. The cost of the Halloween luncheon is only \$1.60. The

members of the AARP All Stars Band have a lot of fun rehearsing and performing locally. They are always looking for new members. So, if you sing, dance or play a musical instrument and are in the market for a lot of fun, why not join the All Stars. One of the requirements to be a member of the band is you must also be a member of AARP.

Stay-well wish

What a way to start the school year, with emergency surgery. On Friday, Sept. 18, eleven year-old Tony Bryson was taken to the hospital for emergency appendectomy.

However, all turned out well and Tony was released from the hospital three days later for further recover at home. Tony is the seventh grade at Grass Lake School and his mom says he will soon be up and about as good as new. Take care Tony and get totally well soon.

Our lady

Now that Camp Crayon has reopened for the 1992-93 sessions, I will occasionally have cute little children related stories to share with you once again.

This story revolves around little Kaite Turner. This is her third year in the

our precious lady-NEVER! Craft fair

The Oakland Grade School PTO will be sponsoring a gigantic Craft Fair and Bake Sale on Saturday, Nov. 21 from 9 a.m. to 4 p.m. at Oakland Grade School located at Deep Lake Rd. and Grass Lake Rd.

Hometown Goodies

program and over the years the staff at Camp Crayon began to refer to her as "Kaite Our Lady." Before returning for the fall session she told her mom that she wondered if the teachers would still call her this.

As she walked in that first day and I saw her special, familiar face in the crowd of many new children I exclaimed "I know you. You are 'Kaite Our lady'." She glanced at her pretty mom, secure in the fact that she was not forgotten after our long four month recess. Forget you, Kaite Turner,

Fifty crafters will be on hand to sell their beautiful wares. There will also be face painting, delicious homemade bake goods, many raffles and a delicious luncheon available. There are still a few craft spaces left and if you are interested in selling your beautiful wares at Oakland's Craft Fair contact Patti Brooke at 395-2158 or Kim Martin at 838-6781 for information.

Community service

As a service to the community, the Lake County Health Department will be on hand at the Anti-

och VFW Hall the third Wednesday of each month administering low-cost inoculations. The VFW is located on North Ave. and various inoculations will be given for only \$4 each. This will be done between the hours of 9 and 11 a.m. The VFW is donating the use of the hall to make this service available and the Ladies' Auxiliary will be on hand to register people for the inoculations.

Thank you

Thanks to my great family and good friends, my 49th birthday was celebrated in style-three times. First a lunch date with my hubby, then a dinner outing with friends, and then a delicious dinner party hosted by my daughter, Barbara Filips, and son-in-law, Dan Filips. Thanks everyone, it was fun and memorable. I'd also like to thank Julie and Sara Groh for singing "The Birthday Song" especially for me, it certainly added to the festivities.

Theatre time

The following six productions will be presented at the PM&L Theatre for the 1992-93 season. October-"Anything Goes," December-"A Christmas Carol," February-"Something's Afoot," April/May-"Same Time Next Year," June-"Let's Get a Divorce," July/August-"Best Little Whorehouse in Texas." For information or reservations call 395-3055 or 395-3433.

Last reminder

Don't forget the craft fair being sponsored by the Antioch High School Student Assistance Program on Saturday, Oct. 24.

Remember Halloween is just around the corner. Drive extra careful that day as many little ghosts and goblins will be out and about collecting all that delicious sugary trick or treat candy. Also keep calling in those tidbits and when you do remember to 'Ask for the Lizard.' Till then, take care and be happy!

Merit

(Continued from Page 1)

Preliminary Scholastic Aptitude test/National Merit Scholarship Qualifying Test as juniors.

Bracey, of Lindenhurst, is the son of Mr. and Mrs. Walter Bracey. Kaup, of Lake Villa, is the daughter of Melva Olsen and Jerry Kaup, of Evanston. Harting, of Lindenhurst, is the son of Mr. and Mrs. Raymond Harting.

To qualify as a finalist, the trio must have an outstanding academic record, be endorsed and recommended by ACHS Principal Michael Radakovich, and submit SAT scores that confirm their previous test scores. Other information collected on the application form includes information about students' educational interests and goals, as well as participation and leadership in school and community activities.

According to Elaine Detweiler, the National Merit Scholarship public information director, about 90 percent of

the semi-finalists will become National Merit Scholars.

The semi-finalist can win one of three categories of scholarships. The first type is one of the 2,000, \$2,000 National Merit scholarships offered to each finalist.

Next are the 1,300 corporation, foundation and other business organization scholarships that will be offered to children of specific companies or foundations that meet the sponsor's preferential criteria.

Finally, more than 3,200 Merit Scholarships, which are funded by universities and colleges. These scholarships will be given to those students who will be attending the institutions providing the scholarship.

The National Merit Scholarship Corporation is a privately financed, non-profit organization that receives grants from some 600 independent sponsors to underwrite scholarships awarded through the Merit Program.

Student of the month

The Exchange Club of Antioch is proud to announce the winner of the September Student of the Month Award. Senior Todd Paulus, of Lake Villa has been selected for his activities in his church, community, and school, which include the National Honor Society, Alpha, Peer Advisors, ACE, Prince of Peace Youth Group, Who's Who in American High Schools, and various sports. Paulus received a framed certificate and a check for \$50 for being named Student of the Month. Presenting the award to Paulus is Ardeen Harris, president of the Antioch Exchange Club. Also pictured are Paulus' parents John and Mary Ellen Paulus.

Dist. 34

(Continued from Page 1)

superintendent. "This was the highest level observed by the institute the study said."

The institute evaluates school's standardized achievement test scores in a standard analytical format utilizing a database containing the performance patterns of hundreds of schools and districts nationwide.

"We were compared to schools throughout the country with similar school size, social and economic factors," said Burke. "What is amazing about this achievement is that today's child is harder to teach and keep interested in school than those kids who were here just 12 years ago."

Antioch District 34's performance impressed even the independent institute's managing director, who oversees numerous school studies annually.

"This is one of the most impressive

patterns of performance improvement observed in more than 20 years of analyzing schools and districts across the country," said Fredric Genck.

Baby

(Continued from Page 1)

adoption agreement. The San Diego couple paid \$8,577 to Pounds and Andrews for prenatal expenses.

The couple's oldest child, who was offered for adoption to several couples but never surrendered, was placed into the custody of the Illinois Department of Children and Family Services last week.

The State of Illinois makes it illegal to sell a baby, because one does not own another person, however the adopting couple can help pay for any prenatal care or other expenses the mother may need to ensure a healthy baby.

Sequoits fall to mighty Stevenson

The Antioch varsity volleyball team's vision of a North Suburban Conference title darkened some Wednesday after the team dropped straight games to rival Stevenson 15-7, 15-6.

The Patriots improved their record to 22-4, (6-0) while Antioch slipped to 16-5, (3-3).

"We are in the middle of the pack now," said Antioch Coach Gwen Varney of the NSC race.

Varney added that the team didn't play as badly as the scores indicated. "We need to play better defense and stop teams from making runs at us like Stephenson did," said

Varney.

The Sequoits play a non-conference game at St. Viator Wednesday before coming home to face rival Warren on the Sequoit's home floor on Oct. 16.

Promotion

Robert Dubek, a 1976 graduate of Antioch Community High School, was promoted to the rank of major in the U.S. Air Force last month. He attended Kansas State University on an Air Force ROTC scholarship, graduating in 1980 with a bachelor's degree in mathematics and computer science.

Ex-Bulls coach thrills ACHS students at fall assembly

by THOMAS STEVENS
Lakeland Newspapers

Turner Sports Announcer and former Bulls Coach Doug Collins spent an evening at Antioch Community High School speaking to ACHS student athletes and their parents earlier this school year.

Collins, who will be in his fourth NBA season with TNT this fall, used his talent and background to motivate some of the area's top athletes to make mature choices and to strive for excellence.

Antioch Family Sports Center owners Glenn and Mary Kay Tointon funded the Collins presentation, along with providing a signed basketball and official ACHS school jacket for a raffle.

"We hope that other local businesses get involved with the high school as we

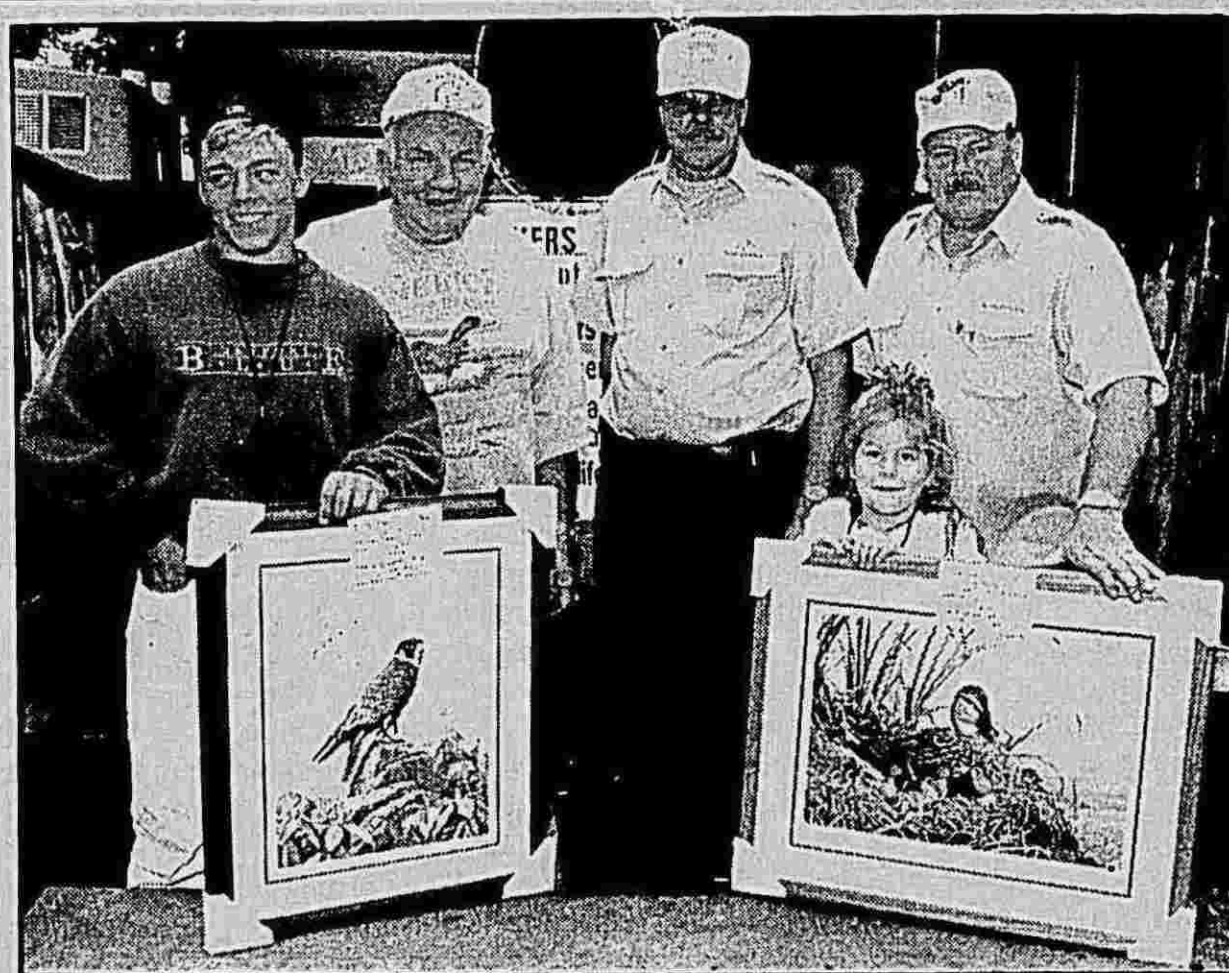

have," said Tionton in a phone interview. Collins was praised after his speech for his unique style of motivation for the student/athletes.

"He really is a very motivating speaker," said Assistant Principal Steve Wapon. "He talked about staying chemical-free and staying in school."

After his speech, Collins signed a basketball, which was raffled off and won by ACHS student Dan Nelson. The official jacket was won by ACHS student Heather Burke.

Collins was nominated in 1988, his first year at TNT, for a Sports Emmy Award and is now considered one the best basketball announcers in the game today.

An Illinois native, Collins graduated from Illinois State University and has a degree in secondary education.

Green Wing winners

Winners of the 1992 Green Wing raffle, held recently near Deer Lake during the annual Green Wing outing. Sequoits drop to 0-5 at Rockford

The Antioch Sequoit varsity football team 0-5 (0-4) dropped its fifth straight football game this season when they lost to Rockford Auburn 28-8 last Friday night.

Auburn (2-3) rocketed to a 20-0 halftime lead, with all scores coming on rushing touchdowns. Auburn quarterback Bobby Parham scored on runs of 50 and 2 yards. The other Auburn score was a 10-yard touchdown from running back Robert

Jones.

Antioch's lone score came in the third quarter when Mike Stephenson scored a two-yard touchdown. Sequoit receiver Tom Furlan caught the two-yard conversion pass from Eric Newcomb.

Antioch hopes to rebound and win its first game of the season Saturday against the speedy North Chicago Warhawks 2-3 (1-3) in the school's homecoming game at 2 p.m.

Wedding

Bartell-Rockow

Christine D. Bartell and William J. Rockow both of Grayslake were married at the Church of the Annunciation in Gurnee on September 12. Rev. Richard Wagner officiated the double ring ceremony.

The bride is the daughter of Diane and Thomas Bartell of Antioch. She is employed at Imperial Stamp and Engraving.

The groom is the son of Judy and Royal Rockow of Gurnee. He is employed at Royal Fabricators.

Sheryl Gordon was maid of honor. Bridesmaids were Carrie Detterbeck,

Nancy Carroll and Debbie Munch. Chloe Rockow was the miniature bride and Heather Carroll and Kristen Munch were flower girls.

Bret Rockow and Bart Rockow were the best men. Scott Bartell and Rob Powers were groomsmen. Ushers were Bryan Meisinger and Tom Schroeder. Ring bearer was Billy Rockow.

A reception for the newlywed couple was held at the Diplomat in Gurnee. A honeymoon trip to Jamaica at Sandals, Dunns River was taken.

The couple have made their home in Grayslake.

Duffer awards

The State Bank of Antioch Women's Tuesday Golf League's season ended with the winners receiving photo frames from State Bank officer Florence Babusek. Pictured, left to right, are: Nancy Zitkus (1st, A), Marge Warner (2nd, D), Fran Priory (2nd, C), Lorraine Hitchon (1st, B), Betty Schneider (Most improved), Jan Hagstrom (1st, D), June Hols (1st, C), and Irene Tesesi, (2nd, B). Not pictured: Elfrieda Hansen (2nd, A). The theme for the annual awards banquet, which was held at the Bonnie Brook Country Club, was Hawaiian and prize for the best costume went to Kay Costoff.

New Arrivals

David Michael Belcher

Extras Are Important

Hello, this is in regards to what's going on with the city schools dropping all their extra-curricular activities. If it is happening there, it's not going to be long until it is all around us. I don't know who we have to get in touch with, but I believe that all of us--parents, grandparents, you and I--have to do something. We do need sports and band to keep these young adults interested in school. I'm sure some of them still get into trouble, but not as many as if they had nothing to keep them occupied. I also read about people wondering why they have ceramic and art classes and why not drop those. Well, everyone is not a computer whiz. Those classes could help these students find some type of employment in the future. These children are our future. No one likes higher taxes, but didn't someone pay taxes for us or our children? Referendums are needed.

For Handicapped Only

Hello. This is for those that pay no attention to those little signs that look like wheelchairs in a field of blue. Those are for handicapped people; those are designated parking spaces for the handicapped. Anyone understand that? Anyone? Everyone seems to ignore it, accept those that are courteous and thoughtful and understanding of certain difficulties people in wheelchairs or with handicaps have in moving around. Let's try just a little bit of courtesy here and make it one of those priorities--if you don't need them, don't use those parking spaces. O.K.? If that doesn't work, how about the old trick Mom used to use when you made those funny faces, stretched your face out of whack and your mother looked at you and said, "You keep that up, and your face is going to stay like that." Hey, park in that space, and you may end up needing it.

Customer Service And TCI

I have a gripe. My gripe is about TCI Cable. I've been reading about everyone else complaining it in the papers. I would like to agree with everyone and comment about how wonderful it was to try watching our Bears game on Sunday and to have the cable out for three hours, and then to call about the cable being out and getting a rude female employee on the phone. I think people who have TCI Cable and have the same problem should, first of all, do like the majority of other people do and get your cable hooked up for free so, at least, you won't be paying outrageous prices for no service. Also, I'd like to know what the village people who we vote into office are doing about these complaints.

Vote Them Out

Proposed Grant Township recreation center: this is just what this area needs, another recreation center. The big spending officials of Grant Township can't seem to get the message that the people they represent do not want this facility. Unfortunately, it is in the mind of a few individuals to spend our hard-earned taxpaying dollars. If they don't get the message, maybe they will on Nov. 3. Otherwise, maybe next March we ought to just vote them all out of office, and get in some new, young-thinking people. Thank you for the opportunity of voicing my opinion.

It's Against The Law

I see Chief Viet of Round Lake Park still has not got a front plate on the squad, and there are a few other squads in the area that are running around with no plate on the front of them, as well as many other vehicles. It is against the law, and I don't see the law being enforced. It's a wonder Hainesville isn't after that one, with all their money-grubbing ways of trying to get money.

Increase Impact Fees

I'd like to comment on the Oct. 2 Letter to the Editor

written by Gayle Gloede, candidate for the Lake County Board, District 11. She is right on the head, except that she is saying that the developer impact fees are too low. I feel that they should be higher. The main reason the developers are up here in Lake County is that they literally got pushed out of DuPage County because of the high impact fees, per house. I understand that in DuPage County the impact fees were around \$17,000 per house. Here, in Grayslake, they're saying the impact fees are \$3,600 per home. In the San Diego area, where my parents live, the impact fee is \$25,000 per house. How do you expect the retired people in Lake County and the younger generation, like myself, to keep up with the taxes if the developers keep coming in with nickel-and-dime impact fees? There is no way that we can keep affording new schools, new roads, new sewers unless we, as a community demand increased impact fees on new development. Thank you.

Smile For Camera

Hi, I live in the Fox Lake area. I'm a little sick of looking at the Fox Lake Press and seeing pictures of our "police department" not smiling, giving young kids the impression that they are bad guys. Come on guys, let's see some smiles on those faces.

Look At The Potholes

I'm calling from Round Lake Beach again. This time I would like to complain about my street. I live in the 1400 block of June Way Terrace. All these highways

are being built just two blocks from me, and my street is full of potholes. Come on, Mr. Mayor, take a ride down my street and see all the potholes. Is this what my taxes are paying for?

Pennies Pledged

In response to Got a Penny?, I have \$10 worth of pennies to donate to your college dream. You sound like a very special person; certainly very resourceful. If you get a post-office box and publish it in Lipservice, I pledge \$10, with one string attached. You must give an honest follow-up to all of us who pledge you money. You must let us know how much you received and what college you plan to attend. You must then promise yourself, and your supporters, to make the best of your education by getting decent grades. Good luck to you, and I'll be looking for that post-office box number. From Antioch.

We Like The Fields

The person who is complaining about housing going up on Tiffany and North Avenue, and would prefer a K-Mart, Venture or Target must be living on the other side of town. Those of us who live in that area don't want anything there; we like the fields. Good-by.

Hainesville Tickets OK

Hi, this is in regards to the person who wrote in about
(Continued on page 16)

"It was 2 a.m. and my daughter had a 103° fever, I called ASK-A-NURSE."

"As a new mom, I need reassurance about the best way to care for my daughter. It's a relief to know that Saint Therese can help answer health care questions day or night. Thank you Saint Therese for this wonderful and much-needed service."

--Sue Basinger and her daughter of Lindenhurst

Abbott good news

Abbott Laboratories expansion plans provide good news for everyone.

When all was said and done, cooperation and friendship won out over concessions and tax incentives in assuring Abbott Laboratories that Lake County is the place for the big pharmaceutical company's next wave of expansion.

Economic good news was hailed on all sides as Abbott unfolded plans to develop a 360 acre site at North Chicago for a 600,000 square foot office-research center and acquire approximately 1,000 acres at Rte. 173 and I-94 for a future headquarters center.

Why company officials let it be known that they were looking at other locations, including one right across the stateline in Kenosha County, wasn't made clear, but they sure got the attention of elected officials, including Gov. Jim Edgar who spearheaded formulation of a \$25 million road package for widening Buckley Rd. and installing an interchange at Rte. 137 that was an integral part of

Abbott growth plans. The county also will provide sewer and water for the future headquarters site at Old Mill Creek when the time comes to build, probably sometime in the next 10 years.

In an era when governments are wont to "give away the farm" to lure or retain job-creating manufacturing concerns, nothing was "given away" to make sure the Abbott jobs stayed in Lake County. The road work would have been done anyway. We happen to think that's the way it should be.

North Chicago, Libertyville High and Green Oaks elementary schools will be direct beneficiaries from new tax dollars resulting in expansion of Abbott Park. Eventually Antioch High and Millburn Grade School will benefit from the new headquarters building evaluation. Highway changes will be designed to provide space for North Chicago's proposed west side fire station.

Abbott growth in Lake County is a win-win proposition for everyone. Yes, the growth plans are good news for everyone.

Letters to the Editor

No Republican poll

Editor:

It has come to my attention that a reporter from your paper, Joe Soulak, has reported on two separate occasions, that Republicans have conducted a poll which found the race between Phil Crane and his opponent to be "a virtual dead heat."

On Oct. 1, Mr. Soulak flatly stated that the "Republican National Congressional Campaign Committee" conducted the poll. Mr. Soulak was apparently attempting to refer to the National Republican Congressional Committee (NRCC), which I chair. It is my understanding that Mr. Soulak did not bother to check with Phil Crane's staff prior to his recent article that the NRCC has not conducted such a poll.

Apparently, Mr. Soulak does not hear very well. As chairman of the NRCC I can categorically inform your readers that the NRCC has NOT done a single poll regarding Phil Crane in this election cycle. Mr. Soulak's continued assertion that we have is, shall I charitably say, misrepresenting the truth.

Congressional Committee

Christians 'not welcome'

Editor:

In our country, the public school system was set up to be run by local government, expressly so that the people that were using the system and paying for the system would have direct control over the system.

The superintendent and a few others in our school would like to deny that fact. They even go so far as to say that Christians do not have the right to be on the school board. Perhaps they would like to censor Christians in this Christian based society. But the constitution expressly forbids them from doing so.

We have that right; unlike many communist countries, in which the teachers are the direct hand of the state in the promotion of state propaganda and teaching contempt of anyone, including parents, not in total agreement with the state. Those countries being atheistic in their views, ours being based on Christian principles.

Since our request to remove teachings that openly ridicule and condemn not only Christians, but all parents and other authority figures, we have been repeatedly made the object of ridicule and contempt by some of the teachers and now the superintendent of our school.

This inexcusable behavior clearly em-

phasizes the need to remove these attitudes from being taught at our school. If a teacher states that what he/she teaches does not affect the student, why are they teaching? If you teach a student trash, he will learn trash. If you teach a student high standards, that is what he will learn. With the multitude of literature out there, we, as parents and members of the taxpaying community have the right to expect only the highest standards to be taught. We also have the right to be treated with respect by those we employ to teach our youths.

Mary Kotarba

Serving the people

Editor:

Suzi Schmidt, Republican on the Lake County Board, did not check the political wind (15 months ago) on the "high tension power line" issue to determine if she should help her constituents. She began assisting the citizens way before it was deemed a political issue by a narrow minded local politician.

Democratic State Rep. John Matejevitch, (now in the new defined 59th District) came to the aid of citizens-outside of his own voting area. Matejevitch cannot gain a single vote for the folks he has helped, but he selflessly responded to the needs of the people. Republican State Rep. Bob Churchill of the 61st District (the area affected by the power line issue) joined forces with Matjevitch and eliminated any politicalization of this serious issue. Bob Churchill and John Matejevitch are jointly sponsoring an Illinois house bill to put a moratorium into effect on the installation of high tension power lines. Bob is a strong advocate for the safety of children, and he believes if we are to err, it should be on the side of caution.

With strong efforts by Republican State Senator Adeline Geo-Karis, Matejevitch and Churchill joined Geo-Karis and called for special public hearings with the ICC and Commonwealth Edison so the public could express their concerns on the powerline issue. Republican Congressman Phil Crane provided information on existing congressional house bills that require further studies on EMFs and also a house bill that seeks a long, and short term moratorium, on the installation of high tension power lines. The congress of the U.S. is asking for such a bill until the Federal Government studies on EMF exposure are complete. (One such bill is HB 3953).

Phil Crane, Bob Churchill, Geo-Karis

Viewpoint

Clinton era in U.S. about to unfold

by BILL SCHROEDER

Despite a murky horizon, I'm trying to think about what it would be like to have a Democrat in the White House.

Could the republic survive with Mario Cuomo sitting on the Supreme Court? How would the military function with a gay as Sec. of Defense or chairman of the Joint Chiefs of Staff? Will abortion clinics be provided for every neighborhood and hamlet? What kind of cabinet member will Murphy Brown (Candice Bergen) be?

Judging reports from some quarters, things won't be the same with Gov. Bill Clinton taking up residence on Pennsylvania Ave.

Goodbye grandmotherly Barbara and First Dog Millie. Hello Hillary and meetings of the trial lawyers in the Blue Room.

Despite all the negatives attached to "Slick Willie" Clinton, Illinois residents might be at greater peril when Sister Sly joins Senator Bow Tie in our Washington delegation. I shudder at the thought of

and Matejevitch have all become legal interveners for the upcoming legal proceedings that will be held sometime in February or March of 1993. Suzi Schmidt and these four individuals have worked hard for their constituency on this particular issue. Although incumbents, they obviously believe that government is still for the people.

Lake Villa

Donation confusion

Editor:

In my commentary regarding the dangers of incineration, published Sept. 18, I stated that Waste Management, Inc. had contributed \$8,000 to IRATE, a taxpayer monitoring group in Libertyville. I mistakenly assumed that IRATE and "Taxpayers For Good Government" were the same organization. I have been informed that they are not.

The \$8,000 contribution made by Waste Management, Inc. was to "Taxpayers For Good Government." This contribution comes at a time when SWALCO (Solid Waste Agency of Lake Co.) may soon be moving toward the selection of a site for an incinerator or landfill that will require county approval. Waste Management's funding has been allocated by "Taxpayers For Good Government" toward some campaign costs of county board candidates favorable to Waste Management's interests, as reported in the Daily Herald, Aug. 1, 1992 issue.

Waste Management's \$8,000 contribution did not go to IRATE.

Mundelein

Label misleading

Editor:

President Bush has the understanding and experience to lead us into the world economy. The President supports taxpayers and businesses by calling for removal of unnecessary regulations, legal reform to discourage frivolous suits, a capital gains cut that can benefit everyone from stockholders to homeowners, a permanent R&D tax credit to maintain our technological edge and enterprise zones to spur development in depressed areas.

By contrast, every evaluation of Mr.

Carol Moseley Braun's reputation as being so liberal she'll make Paul Simon appear conservative.

Moseley Braun as a state representative from ultra-liberal Hyde Park never saw a tax increase she didn't like. The record shows that during one stretch in Springfield she voted for 13 of 14 tax increases. Moseley Braun regularly tangled with timid leaders in her own party. Basking in the celebrity of being the Senate's first black female member, Moseley Braun can reach for new heights of audacity in the legislative process, meaning Americans will pay a heavy price for her trail breaking.

Fellow voters, think about the future. At times like this, the picture gets pretty ugly when you consider what mischief the above happy trio can begot. And I haven't the stomach to take a fresh look at what Uncle Rosty will be up to during another term.

What about jobs? Oh, piffle! Jobs are for poor folks.

Clinton's economic plan agrees that he supports higher taxes, more spending, and greater government in business decisions. His training and health plans may sound good, but at what cost? Who will pay? Obviously, we taxpayers will ultimately. In addition, Mr. Gore's voting record is rated by at least two non-partisan tax watchdog groups as being very taxpayer unfriendly. In fact, Gore is rated more unfriendly to the taxpayer than the lone Socialist in Congress.

To call the Democratic ticket "moderate" is misleading. The philosophy that higher taxes and spending with more government to solve our problems is alive and well. President Bush believes that freeing us of government intervention coupled with incentives for individual creativity will unleash our great American spirit so that every citizen can have the opportunity to be a success of their own definition.

Quality candidate

Editor:

On Nov. 3, we have an opportunity to elect an outstanding person to the U of I board. Her name is Gayl Pyatt. She has the qualifications to provide excellent service to the university and to all Illinois residents. And her dedication and commitment to the office of U of I trustee are highly commendable.

Gayl has already served the university well. She is a member of its alumni association, having served on its board of directors and on the Urbana-Champaign Campus Alumni Council. In addition, she is a member of the board and executive committee of the U of I Foundation, plus the U of I President's Council. She has served the state as a public member of the Illinois Board of Higher Education, which coordinates and sets policy for higher education.

An attorney with offices in Pickneyville, Gayl is married to Dick Pyatt, a prominent Southern Illinois businessman. They live in Pyatt's Station, a spot on the map south of Pickneyville in Perry County. Her son, Jonathan, is a U of I student.

Incineration peril evidence mounting

by CHRIS GEISELHART

Diagnosis: Second City-itis.

Symptoms: Comparison of local Chicagoland issues to "progress" in New York City; feelings of insecurity in regard to decision-making and trend-setting.

Most recent outbreak: Sept. 4, editorial titled "Watch the Big Apple." It extols the future benefits of a Wheelabrator Technologies incinerator in New York City and implies that Lake County would do well to place burning garbage ahead of recycling and landfilling.

Commentary

Treatment: Liberal applications of information based on documented reports from around the nation, compiled by the publication "Waste Not" and listed below:

(1) Would Lake County want to do business with a company in which Waste Management Incorporated (WMI) has a 55 percent controlling interest? WMI and/or its many branches and divisions has a history of criminal cases around the country. These include a \$1,000,000 fine in a criminal antitrust case in California for often "predatory below-cost garbage collection rates in order to eliminate competition."

(2) Waste Management settled a federal class action price-fixing conspiracy lawsuit for \$19.5 million (1990). Browning-Ferris Industries was also charged with anti-trust conspiracy.

(3) Chemical Waste Management (a

subsidiary) paid a \$3.75 million fine for "numerous violations at their Chicago hazardous waste incinerator." Another fine was levied by Illinois for "operating the incinerator for four days without a stack gas hydrocarbon monitor and...burning waste faster than permitted."

(4) Seven out of 10 Wheelabrator communities surveyed in a 1989 eastern USA study experienced far lower payments or subsidies than originally projected; far higher fees than Wheelabrator promised and municipal planners had projected; contract often forced the municipality to "absorb very large capital costs not contained in the original contract;" host communities earned much less than promised when trash volume proved to be less than expected; communities, rather than Wheelabrator, were to absorb the loss where electric rates drop.

(5) OSHA fined Wheelabrator Technologies \$9,000 for a "willful safety violation...which contributed to the death" of an employee who fell 32 feet off a crane catwalk at its 1,200 ton per day incinerator in Saugus, MA (1990).

(6) In 1990, Saugus, MA was involved in a "major tax dispute over \$1.3 million in back taxes that Saugus claimed was owed by the Wheelabrator incinerator there."

(7) Claremont, NH, Wheelabrator incinerator had to import one-third of the garbage it burned in its incinerator, planning to add new towns to the district as successful recycling reduced the fuel for the burn. In addition, imported waste had

a tipping fee of \$57.50 per ton while towns in the project paid fees of \$75.38 a ton.

(8) The Claremont facility's two burners violated carbon monoxide emissions limits 72 and 52 times during the first quarter of 1990. Wheelabrator also agreed to pay an \$8,000 fine for failing to file environmental reports on time to the federal government. There is a detailed, documented list (attached) of air pollution control problems dating from April 1987 to February 1990.

(9) Wheelabrator's 500 ton per day incinerator in Concord, NH, was recorded as having exceeded sulfur dioxide emissions, a primary cause of acid rain, for hundreds of hours in early 1990.

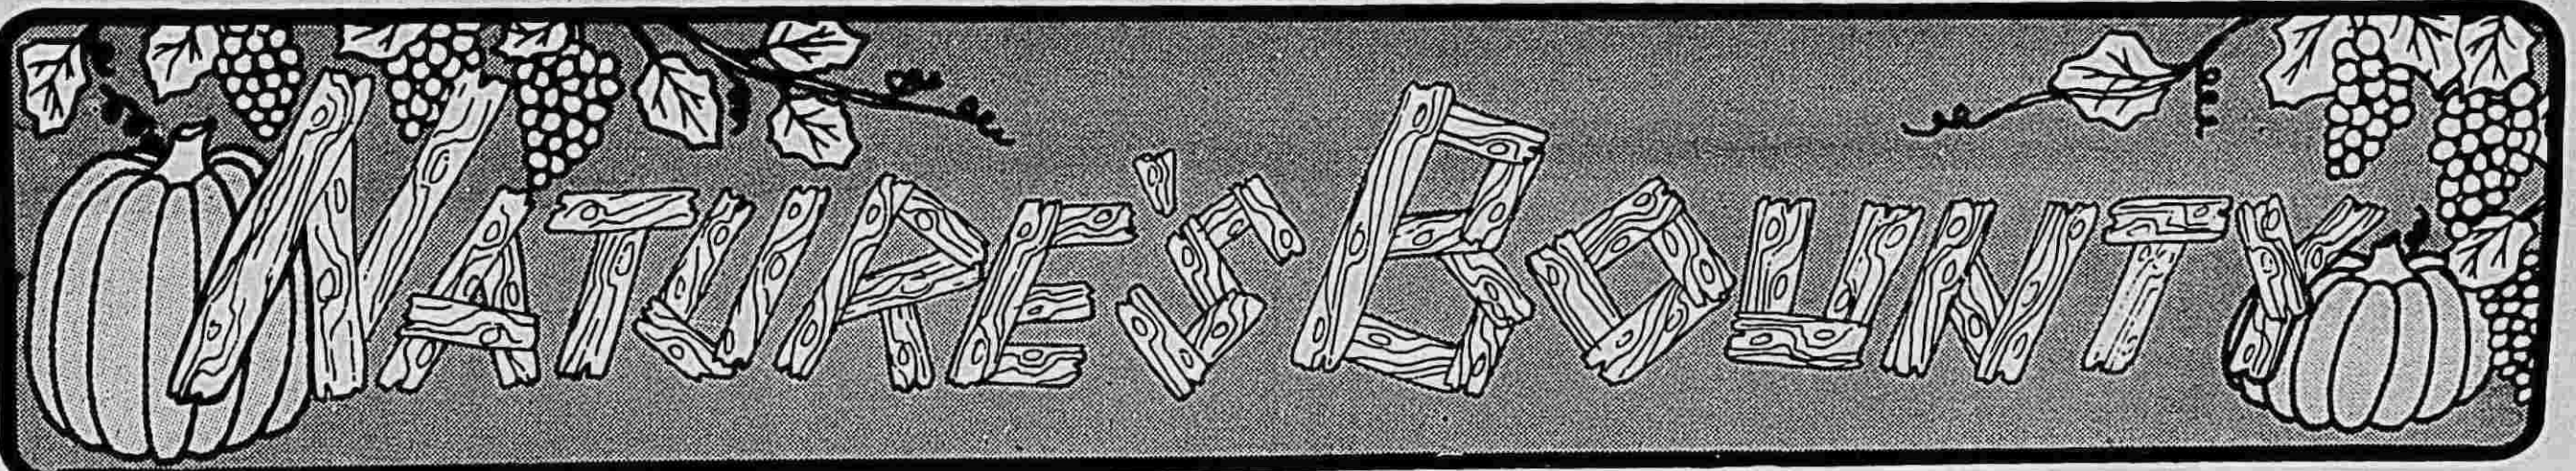

(10) Gloucester County, NJ, fined Wheelabrator's incinerator \$110,000 for more than 30 carbon monoxide or oxygen violations in November '91.

(11) The proposed New York City Wheelabrator incinerator flies in the face

of a major report by the Comptroller of New York City, Elizabeth Holtzman, who concludes that incineration is "environmentally hazardous and bad for the health of New York residents; it will not save nearly as much scarce landfill space...nor would it save much more than a program based on 50 percent recycling would save; and it will cost much more than...projected. Incinerating solid waste on a larger scale would make it harder for the City to meet those (air quality standards for ozone, carbon dioxide, and inhalable particulates) federal requirements. Adverse public health effects can be expected..."

Prognosis: "He who does not learn from the past is condemned to repeat it."

Editor's note: Chris Geiselhart is a solid waste disposal activist and a member of Citizens of Lake County for Environmental Action Reform (CLEAR). She is a resident of Libertyville.

Ham Loaf

- 1 1/2 pounds ground ham
- 1 pound ground pork
- 1/4 tsp. pepper
- 1/4 tsp. salt
- 2 eggs, beaten
- 1 cup milk
- 1 cup cracker crumbs

Mix all ingredients well and shape into a loaf. Bake two hours (or less) at 350 degrees. During baking, baste frequently with the following basting sauce.

Basting Sauce

- 1/2 cup brown sugar
- 1/2 cup boiling water
- 1 Tbls. prepared mustard
- 1/2 cup mild vinegar

Stir ingredients together and cook for five minutes.

Oatmeal Cake

- 1 cup oatmeal
- 1 1/4 cup boiling water
- 1/2 cup margarine
- 1 cup brown sugar
- 1 cup white sugar

Soak oatmeal in boiling water, let stand 20 minutes. Cream margarine, brown sugar, white sugar and eggs. Sift flour, cinnamon baking soda and salt together. Add oats and sifted flour mixture to creamed mixture. Stir until well blended. Pour into greased 9x13 pan. Bake at 350 degrees for 35 minutes.

Icing

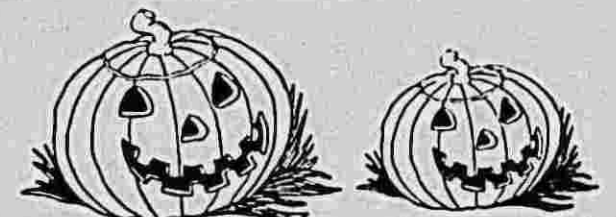

- 1 stick margarine
- 3/4 cup brown sugar

- 2 eggs, beaten
- 1 1/3 cup flour
- 1/2 tsp. cinnamon
- 1 tsp. baking soda
- 1/2 tsp. salt

- 1/4 milk
- 1 tsp. vanilla
- 1 cup chopped nuts
- 1 cup coconut

Melt margarine, brown sugar and milk. Bring to a boil, remove from heat. Add vanilla, nuts and coconut. Stir together and spread on cake. Place under broiler until nuts are brown.

S&L scandal from here to D.C.

WHITE HOUSE LINK

Libertyville zealot Tim Anderson last week was featured on a 12-hour National Public Radio special about the savings and loan scandal. It was part of the New York outlet's annual pledge campaign.

His one-hour telephone interview linked the debacle all the way from Libertyville to the White House.

A bank expert in his own right, Anderson's pride was hurt when a venerable hometown institution collapsed in 1988 from the weight of out-of-state investments that went bad. Six directors are being sued for \$20 million, thanks in part to Anderson's prodding. Most of them are living a life of leisure outside Illinois.

But the scandal is larger than Libertyville, Anderson said. There are five similar failures in the 10th Congressional Dist. of Illinois. The state, itself, is number three in losses behind Texas and California.

Some of the national players are Sect. of Agriculture Ed Madigan, a one-time director of the failed Olympia Savings and Loan; Congressman Henry Hyde involved with the insolvent Clyde Federal and Secretary of Veterans Affairs Edwin Derwinski, who was involved with the now defunct United Savings of America. The total loss: \$1.4 billion.

Who's going to clean up the mess and bail out the taxpayers paying for this?

TAXPAYERS' FRIEND

Two press releases tell that one of our favorite congressmen has been honored for being a friend of the taxpayers.

The Council for Citizens Against Government Waste, calls him a 'Superhero.' That's because he voted 100 percent of the time in the past year to reduce or eliminate government waste and

cut costs to taxpayers.

And for the 11th time the Watchdogs of the Treasury gave him their Golden Bulldog Award. That's for voting to restrain government spending.

You mean Phil Crane (R-Arlington Heights) received these again?

Nope. The winner and new champ is none other than John Porter (R-Wilmette).

Surprised?

In all fairness, Crane did get his 15th "Bulldog" this year.

POLL INVALID

Congressman Phil Crane's 8th Dist. campaign office says my item about three polls showing his Democratic opponent, Shelia Smith, either tied or out front are flat out wrong.

Crane's staff said no poll was conducted.

In addition to two of her own, Smith's staff said an August GOP poll was conducted by Linda DiVall and paid for by the Republican National Congressional Campaign Committee. "It was either a (President George) Bush or senatorial candidate (Rich) Williamson poll with Crane questions piggy backed. This is a common polling practice. Crane was told of the results, but disregarded them," the Smith office said.

But there was no Crane poll per se. For saying there was I apologize.

LOOK WHO'S 50

Larry Leafblad, Dist. 6 County Board member, is having a birthday bash. It's not just any old birthday. But a 50th.

For the occasion he has reserved the Milwaukee Roadhouse in Libertyville from 4 to 7 p.m. on Sunday, Oct. 18.

The food is free, so the first drink and music called a Karaoke Singalong. Larry

is lining up some high-caliber talent to lead the less vocal of us. Clerk of Circuit Courts Sally Coffelt will do a stint at the microphone. So will lots of others.

Oh yes, it's after the Bears game earlier that afternoon. So celebrate or commiserate.

Tickets are \$10 each from Leaf at (708) 223-2086. "It'll be the most fun you can have with your clothes on," he promises.

COMING EVENTS

**** Friday, Oct. 9—Cocktail reception for Republican U.S. Senate candidate Rich Williamson, Country Squire Restaurant, Grayslake, 5 to 8 p.m. For tickets contact Steve Simonian at (708) 249-8220. **** Saturday, Oct.

10—Rally for 10th Dist. Congressman John Porter, Half Day Forest Preserve, hot dogs, brats, beer, For \$10 tickets call (708) 948-1212. **** Tuesday, Oct.

13—Women for Rich Williamson, breakfast with Kansas U.S. Sen. Nancy Kasenbaum as special guest, Country Squire, Grayslake, 8:30 a.m. for \$15 tickets call (708) 680-6680. ****

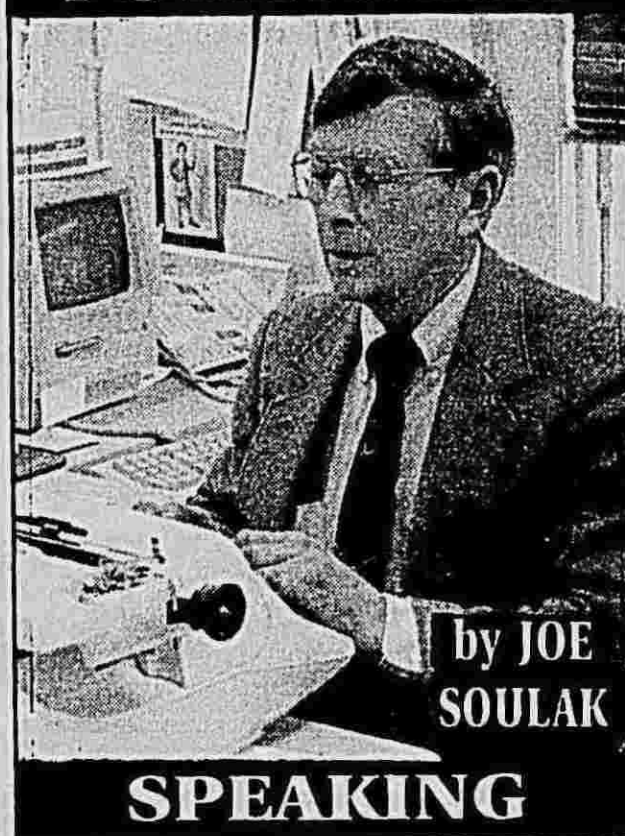

Thursday, Oct. 15—Reception for Dist. 18 GOP County Board candidate Pam Newton, Cuneo Museum and Gardens, Vernon Hills. For \$25 tickets call (708) 913-6868. **** Friday,

Oct. 16—Old fashioned candidates' box lunch rally by 10th Dist. Republican Women's Club. 11:30 a.m. to 1:30 p.m. at Sandner residence, Lake Bluff. For reservations call (708) 234-4777 or (708) 615-9034. **** Friday, Oct. 16—

Some charges dropped for ex-animal paramedic

by DAN BERNARD
Lakeland Newspapers

An animal paramedic stripped of his license declared a partial legal victory last week, as a Lake County Circuit Court dismissed half of the charges against the man for violating animal-care laws.

But Russell Rose of Highland Park and his wife Vicki still face charges of sheltering animals after Rose's permit expired. The Roses are scheduled to go to trial Nov. 16 before Lake County Circuit Court Judge Michael Fritz.

Rose said he feels confident he and his wife

will be cleared of the remaining charges, which stem from an May 1992 incident when Rose transported a deer and raccoon in his van without the proper animal-possession permits. Rose had been a licensed animal-rescue worker, but the state denied his license reapplication in April.

Rose claims area residents continued to drop off injured animals at his house after the license denial. A state official ordered Rose to release the animals at his home, but Rose drove the deer to Lambs Farm in Libertyville and released the

raccoon at a Mettawa forest preserve. Vicki Rose was not present during the incident, Russell says.

"It boils down to which is the greater wrong," Rose

said, "to take these animals to safety or to leave them to die on our doorstep."

Last week, a county circuit court judge dismissed charges relating to

violations of application procedures and an October 1991 incident when Rose was accused of neglecting a squirrel in his care.

Depke named vice chair

Lake County Board Chairman Robert Depke has been named vice chair of the National Association of Counties Transportation Steering Committee.

NACo's 12 steering committees form the policy making arm of county government. Each committee is composed of approximately 50 to 60 county officials who meet during they year to examine issues critical to local

government.

Their recommendations on county legislative goals are presented to the nation's county officials at NACo's annual conference. If approved, the recommendations become part of the American County Platform which is the basis of NACo's efforts in representing counties to Congress and the White House.

Absentee voting is Oct. 13

Absentee voting begins Tuesday, Oct. 13 at various township and municipal offices. Voters who will be out of the county on election day can obtain absentee ballots at the following township and municipal offices:

Township Offices:

Antioch, Avon, Benton, Cuba, Deerfield, Elia, Freemont, Grant, Lake Villa, Libertyville, Shields, Vernon, Warren, Wauconda, West Deerfield and Zion.

Municipal Offices:

Buffalo Grove, Hawthorn Woods, Lake Forest, Libertyville, Mundelein and North Chicago.

These offices have ballots for the voters in their district only. Voting at these offices will conclude at the close of business on Nov. 2.

Absentee ballots can also be obtained by mail of calling the absentee voting division at 360-5912.

Education's best honored at annual convention

Nearly 300 individuals including Lake County residents who have made exemplary contributions to public and private schools in Illinois were honored by the State Board of Education at the 19th annual Those Who Excel/Illinois Teacher of the Year awards program banquet on Oct. 2.

Of the 290 awards given at the banquet, 50 individuals received the top prize, the Award of Excellence. The 128 runners-up received the Award of Merit, and 112 individuals received the Award of Recognition. In addition, the State board has honored 59 individuals with Honorable Mentions that are mailed directly to the recipient's schools and presented locally.

"Public recognition of these people can only begin to show how much the schools and all of society appreciate their efforts," Leininger said. "Their personal commitment to children and education should serve as an example for us all."

"Regardless of the award they receive, these people deserve our thanks and admiration for helping build strong schools for our communities and state," he said.

A list of this year's Those Who Excel winners include:

Ann A. Boone, student support personnel, Libertyville High School, merit award. William H. Chapin, classroom teacher, Warren Twp. High School Dist. 121, excellence award. Donald L. Gossett, school administrator, Libertyville CHSD No. 128, excellence award. Kearstie B. Grenier, parent/community member,

Libertyville Elementary School Dist. 170, merit award.

Nancy A. Hornung, educational service personnel, Libertyville High School,

merit award. Margaret A. McGann, classroom teacher, Libertyville Elementary School Dist. 70, merit award. John P. Schockmel, school admin-

istrator, Mundelein High School, merit award. Gloria Scott, education service personnel, Adlai E. Stevenson High School, merit award.

Kathy S. Skamra, classroom teacher, Grayslake CCSD No. 46, recognition award. Jean M. Sweeney, educational service personnel, Libertyville Elemen-

tary School Dist. 70, recognition award. Marion I. Ulrich, educational service personnel, Mundelein High School, recognition award.

how bad Hainesville is on writing speeding tickets. Well, I applaud our officers and what we've done in Hainesville. I feel that this person doesn't know what he's talking about. Sounds like he got a ticket. If he doesn't want to drive through Hainesville, that's fine. Just skip us.

Hainesville Won't Miss You

Hello, this in regards to the person who got a speeding ticket driving through Hainesville. Don't speed--don't get ticketed. It's that simple. I could say the same thing about Round Lake and Grayslake officers. They are only out for the money. It seems to me that the caller received a ticket and was guilty. By the way, Hainesville is pretty much crime free. Can you say the same thing about Round Lake and Grayslake?

Bad Television II

In response to "Bad Television." I am in agreement with you and I have done something about the programs on television that affect our children. Complaining to the stations will not help; they won't listen to reason. But the companies that pay for television programming do care what we think. It makes no sense for them to spend precious dollars to offend their customers. If we write or call the companies who put commercials on these shows and tell them that we will not buy their products, then something will get done. Little Caesar's have taken their ads off these shows because of the complaints. If you want to know who the companies are, write to: Focus on The Family, Colorado Springs, Colo. 80995 or call them (719) 531-5181. Please get active, thank you.

No Tickets Here

Hi. I'm calling from Round Lake Park and live three minutes from Hainesville. I'm always hearing people complain about Hainesville and speeding tickets. I go through Hainesville six days a week. If you don't want to get a ticket, all you have to do is go the speed limit. I don't see what the big deal is.

Modern Day Miracle

We are living through a modern day miracle, right within our own Grant Township. We are promised a sprawling new township office complex, sports and recreational center, a new school building and renovation of all existing school buildings without any tax increase. Ha, ha!

Rush, Rush, Rush!

Hi. I just read an article in the Lake Zurich Enterprise (in Lipservice) on Page 26, Oct. 2. The article is called "Rush Hour." I want to tell you how satisfied I am with that little short article. That's the truth. This guy is on from 11 a.m. to 2 p.m. on 890 AM on the radio station. I just wanted to say how much I like the show, too. I think everyone should watch it at 10 p.m. on Channel 66. Thanks.

Educational Television?

This is in response to "Bad Television." Yes, you are prude. Sooner or later you kids need to know about sex and condoms. What better way to do it than through comedy and your favorite characters on television. You can't keep them in the dark forever. Wake up, it's the '90s. To grow up in this day and age, you need to be educated, even if it's about things you're uncomfortable with. I think television is great for doing this.

Be Happy As You Are

I'm calling in response to "Got a Penny?" I'm a 32 year old Grayslake resident who goes to College of Lake County. I think that person should be happy that her parents can afford to send them to CLC. I am tired of hearing people always downing CLC. I think CLC is a good college and it stands in very good standings. That's all I have to say.

Waiting Game

Hi. I just read the article about burying the cable and the woman who is having a problem with TCI Cable. She is the one who had cable installed but TCI never buried her cable. I had a similar problem here. What we did was went to the office and waited until someone came to the premises. And that was the end of that.

Stop Complaining

I live in Ingleside and I'm sick and tired of reading about people who are upset with TCI Cable. If you don't like it, get rid of it. We don't have cable, and that's for the

best. If you got a problem, get rid of it. If the Bears' game is missing for an hour, too bad. You chose it; you live with it.

Stuck With It

I'm from Round Lake Beach and I want to tell you that I like your Lipservice column. It's nice to see that other people have the same type of problems we have. TCI Cable is the perfect example. You had quite a few articles in there. It's really terrible that we don't have another cable company that we can go to. We're stuck with one. They broke up the telephone company because they said we were getting poor service. Now we're even getting worse service with the phone company. I'd like to see them break up the cable company so we can get some decent service. We're all tired of all the outages and excuses, if we are able to get through to the office. Cable company, get with it! We're tired of getting crummy service for what we are paying.

Where's Your Tax Form?

I'm calling about senior citizen discounts. I'm in favor of them too as long as every senior citizen would bring a copy of their tax return into the restaurant or store that they patronize. What I would like to see is discounts given to seniors with an annual income of \$25,000 or less. I know a lot of seniors who are living high on the hog. I am a young man in my 30s and I'm not going to have anything left. I would like to see these people get

a break, provided they need it. We all have to sacrifice. I'm tired of seeing these people getting rich and going on trips. And there's not going to be anything left for us.

Pretty Shopping Center?

I live off of North Avenue and cheered the person who called in and said "shame, shame" on more possible housing. I agree. I don't feel that we need any more housing going up right now. Then I almost fell off my seat when they turned around when they said that a good use for that land would be a shopping center. That's that last thing I want in my backyard. When was the last time anyone passed by a discount store and thought how beautiful it was? Are they crazy to think that it would be nice to have one of these in town. I consider them an eyesore, a traffic generator and something that would have more minuses than positive things to offer a town like Antioch. Antioch would lose another bit of its characteristics that make it a beautiful place to live. I enjoy the open land and wildlife it draws, and cry when I see another part of it developed. If you want a Kmart, move to one of those congested suburbs.

Appreciate Parents

I'm calling on "Got a Penny?" I would like to commend this person for putting education high on their value list. I would be more than willing to send them a penny, a quarter, or even a dollar to help them with their education. But it sounded like they didn't like CLC (Continued on page 26)

Texas Brand beefs up in snack industry

by GREG MILLER
Lakeland Newspapers

They haven't had their iron in the fire for very long, but Bruce Faudel and Frank Yaconetti have put their brand — Texas Brand, that is — on the meat-snack industry stampede.

Bruce and Frank were liquor salesmen looking for a way to augment their incomes. Bruce had an uncle in the meat business in Texas, so the pair started buying products from that uncle and reselling them along their liquor routes.

"We were always looking for some-

thing to sell on the side," Bruce said. "We started by selling out of the trunks of our cars."

They came up with their own spice recipe for bulk beef jerky, which became the foundation Texas Brand offering. In 1985, Bruce and Frank formed F&Y Enterprises in Wauconda.

"It got so big we couldn't sell liquor anymore," Frank said.

In a little less than seven years, the company has grown to include 60 items with over 100 distributors in 46 states, Canada, Korea and Japan.

Texas Brand's several styles of beef jerky are still produced in Texas, while the sausage sticks — which come in an array of flavors — are made locally.

Bruce and Frank said the biggest reason for F&Y's success has been quality: Texas Brand products not only taste good, they reflect the needs of a health-conscious society. Texas Brand snacks are not filler-laden junk foods.

Where's the beef? It's prime-cut center round steak. Out of every 10 pounds of steak, only two pounds end up in the product. The process of natural hickory smoking, marinating and finish drying takes seven days.

"Everything's of the highest quality," Bruce said. "It's something you'd take home for your family to eat."

The sausage sticks — except for the Beef 'N' Pepper snack — contain the same high-grade beef, plus quality pork. Special

The crew at F&Y Enterprises includes, from left to right, Tina Yaconetti, Cheri Faudel, Bruce Faudel, Karen Heaney, Joe Dinet, Elaine Mehner, Frank Yaconetti and Vikki Cajthaml. — Photo by Greg Miller

recipes give each stick — like the Teriyaki, for example — a distinctive flavor.

But no matter how good the meat is, some people don't eat beef or pork. That's why Frank and Bruce came up with the Turkey Steak snack a year ago and just last month — Turkey Jerky.

"There's an increasing demand for products that contain no red meat," Bruce said.

You'll find Texas Brand products in a lot of places, but the growth of the meat-snack industry is directly related to the booming mini-mart or convenience-store industry.

The big kid on the meat-snack block is Goodmark, maker of the Slim Jim. Goodmark grossed \$151 million last year.

"This industry is growing at a rate of 43 percent a year," Bruce said.

F&Y Enterprises also serves as a local

distributor for Goodmark, but Bruce said Texas Brand outsells Slim Jim 8-1 from F&Y racks. He said the familiar Slim Jim brand name helps draw attention to the Texas Brand.

"It rubs off on your product," Bruce said.

Bruce and Frank design their own packaging. F&Y was the first company to package the meat and the cheese separately in a combo snack. That eliminated flavor-bleeding.

F&Y is doing its best to compete when it costs at least \$15,000 generate a new product.

F&Y continues to expand by putting profits back into the company. Frank and Bruce began with investments of \$500 each, and so far, they've been able to expand without going into serious debt.

Both men said they're prime examples of how opportunity still knocks.

"It can be done," Frank said. "It's out there. The only hurdle we had was hard work and a lot of hours."

"It's kind of a Cinderella story," Bruce said. "From the trunk of the car to where we are today — it's the American way."

F&Y is currently investigating a chance to distribute Texas Brand in Poland.

Frank and Bruce aren't the only pages in F&Y's success story. Also involved in the business are Frank's daughter, Tina Yaconetti; and his sister, Elaine Mehner. On Bruce's side, there's his daughter, Cheri Faudel; his fiancée, Karen Heaney; Karen's sister, Vikki Cajthaml; and Joe Dinet, a family friend. Bruce's son, Bill, is a high school student but finds the time to help out in the business.

For more information, call 526-0620. F&Y Enterprises is located at 1205 Karl Court, Wauconda.

Business Briefs

SCORE to offer small business workshop

Grayslake—The Services Corps of Retired Executives (SCORE), in cooperation with the Regional Small Business Development Center at the College of Lake County, will conduct a small business workshop from 8:30 a.m. to 3 p.m. Oct. 28 at CLC. The seminar is open to small business owners and operators and persons interested in starting a small business. The workshop will provide information about the financial responsibilities of a successful small business operation. Topics discussed will include business management, financial basics, marketing, record keeping, taxes and legal aspects of business. The cost is \$25. For information and registration call 223-3633.

Name one of top 500 leaders

Barrington—Delta Renovations of Barrington has been named one of the top 500 leaders in the remodeling

industry by "Qualified Remodeler" magazine. It is the only northwestern Illinois firm give that distinction.

The list is composed of a diverse group of remodeling professionals throughout the country. The magazine solicits entries from qualified remodeling and rehab firms. A distinguished panel of industry leaders choose the top 500.

Delta Renovations, headquartered at 515 W. Old Northwest Hwy. in Barrington, specialized in custom home remodeling, including additions and kitchen and bath projects.

CLC to conduct target business workshop

Grayslake—Effective marketing strategies for selling business products and services will be discussed at a "Target Marketing" workshop at the College of Lake County on Oct. 26. The session will be held from 6:30 to 10 p.m. in Room C-002 on the Grayslake campus. The fee is \$35. To register call 223-3633.

What municipal bond fund's maturity really means

by TERRANCE GAERTNER

In today's low interest rate environment, former money market and certificate of deposit investors are being lured by the higher yields offered by a variety of longer term fixed income securities. These range from longer term foreign government securities funds to long term municipal bonds funds or unit investment trusts.

People who traditionally invest in money market funds and

short term certificates of deposit do so for two reasons: liquidity and safety of principal.

It is important that in-

This Way to Wealth

vestors understand the fundamental dynamics of the yield curve. When there is a "positive" or "normal" yield curve, such as we have today, in order to increase your yield, you must go out further in maturity (ie: 30 year government bonds) and/or reduce the credit quality (ie: high yield bond funds).

With today's normal

yield curve, there is an inverse relationship between changes in interest rates and the changes in the value of fixed income securities. When interest rates go down, the value of longer term fixed income securities will go up and when interest rates go back up, the value of longer term fixed income securities will go down.

This would result in a loss of principal if the security were to be liquidated. The further out of the maturity ladder you go, the more sensitive the investment will be to interest rate changes.

Several examples will illustrate this point. The principal of a very short term investment such as a money market fund will

generally not be effected at all by fluctuations in interest rates. Instead, the yield will fluctuate. As you go out on the maturity scale and if interest rates raise, you can expect your principal to change as follows:

Maturity	Increase in interest rate	Decrease in principal if liquidated
5 years	1 percent	1 to 5 percent
10 years	1 percent	3 to 4 percent
30 years	1 percent	8 to 9 percent

With interest rates being at a 20 year low, I recommend that investors look to high quality bonds such as a highly rated municipal bond fund, that has an average maturity of 4 to 5 years. This investment will earn you approximately 80 percent of the yield of a 30 year bond

while only picking up 20 percent of a 30 year bond's interest rate risk.

One municipal bond fund that we use with our clients looks particularly attractive today. It yields 5.3 percent tax free with an av-

erage maturity of only 4.9 years. That is a taxable equivalent yield of 7.7 percent if you are in the 31 percent marginal tax bracket.

So what is the bottom line to all of this? Do not merely shop for the highest yield without understanding the consequences of extend-

ing your investment's maturity. As with all of your financial matters, you should make an informed decision.

Terrance R. Gaertner, a Certified Financial Planner and Certified Public Accountant, is president of Chicago Financial Advisors, Inc., Chicago, a financial planning company for individuals and business. Renee Ward

West Trails resident Renee Ward of Grayslake, posted August sales in excess of \$589,000 to push her over 1.25 million in 1992 sales. Ward, who is a licensed broker, has been active in real estate in Lake County since 1979. She is currently exclusive agent for Deeppoint Trails Subdivision in Hainesville.

Pam Hideriotis

Pam Hideriotis lead the Century 21 Kreuser and Seiler Libertyville office in unit sales, dollar volume and listings for the month of August. Hideriotis entered the business in 1986 and has been a top producer ever since. She and her husband, Jim, live in Antioch.

Joe Wischart

Veteran Realtor Joe Wischart passed the million mark in sales in August. This is his third straight year of million plus production. Wischart is a broker and assistant manager and relocation coordinator for the firm. He and his wife, Susan, live in Lake Barrington Shores.

Lisa Schoene

Dr. Lisa M. Schoene is a podiatrist in the Medical Arts building in Gurnee. Dr. Schoene graduated from the State University of New York at Stony Brook in 1986 and completed her medical training at Dr. William M. Scholl College of Podiatric Medicine in 1990.

She did her residency training in podiatric medicine and surgery at the VA Medical Center in North Chicago. Dr. Schoene is currently pursuing certification as an athletic trainer. Recently she was appointed as the podiatrist for DePaul Univ. athletics program and is a trainer/podiatrist for the Chicago Panthers semi-pro football team as well as various other athletic teams and clubs. She is a member of the National Exchange Club, attends the local Gurnee Businessman's meetings, and has given lectures and screenings at the Gurnee Park District.

Georges St. Laurent

Baxter's board of director elected Georges St. Laurent Jr. a director of the company, increasing the size of the board to 18 members. St. Laurent is chairman and chief executive officer of Western Bank, the largest independent bank in Oregon. He is an entrepreneur who has been active in numerous businesses over more than 20 years. In addition to Western Bank, St. Laurent also heads St. Laurent Realty, Inc., and Wildmere Industrial Properties, Inc., both located in Longwood, Fla.; St. Laurent Land and Cattle Co., and Snowy Butte Aviation, Inc., of Eagle Point, Oregon; and Consolidated Forest Products, Inc., of Perry, Fla. St. Laurent holds a bachelor's degree in economics from Yale Univ and a master's in business administration from Harvard Univ.

Registration campaign

More than 350 Abbott Laboratories employees registered to vote when the company conducted a registration campaign for Lake County residents. The Abbott employees were registered by a group of 19 of their co-workers who volunteered to serve as deputy registrars.

State Bank of Antioch NO-FEE HOME EQUITY Installment Loan

Our No-Fee Home Equity Installment loan lets you borrow \$5000-\$25,000 for any worthwhile purpose with low financing at 8.90% (Annual Percentage Rate) for up to 60 months.

There are times when everyone needs to borrow a larger amount of cash. If you own a home and need to borrow money, the equity in your property makes it easy to get cash ... and you may be able to deduct the interest on the money you borrow. (Consult your tax accountant.)

Offer expires 11-30-92 and applies only to cash advance on a new or existing installment loan. Not applicable to our Equity Classic line of credit.

Simply contact a Consumer Lending Officer in Antioch or Lindenhurst.

You may need cash for:

- Major repairs
- Medical/Dental bills
- School expenses
- New car or van
- Winter vacation
- Snowmobile
- Insurance
- Debt consolidation

WHERE TO EAT OUT

Sail Inn now offering sumptuous lunch feast

Sail Inn in Fox Lake is now offering a lunch-time all-you-can eat feast.

For just \$5.50, you can get your fill of delicious sandwiches, salads, chicken, steak, fish and pasta.

"We'll have something different every day," said Dee Capparelli, who co-owns Sail Inn with her husband, Tom.

Another new offering will be the nightly "Bowl of Pasta" for just \$5.95. This feature will include homemade Italian bread and salad.

While Italian food is Sail Inn's bread and butter, delicious appetizers, seafood, steaks and sandwiches are also prepared to please.

The Capparellis are especially proud of their revamped banquet facility, which has a new bar and accommodates up to 200 people. The banquet facility — which overlooks the lake — is ready for any special occasion.

Don and Laurie, a tuneful twosome, is providing the entertainment on Friday and Saturday nights from 8 until closing.

They play favorites from the '60s, '70s and '80s.

The Capparellis opened Sail Inn (formerly Andre's on the Bay) at 510 S. Park Ave. this summer. The Capparellis' reputation for the best in Italian and American food preceded them. They owned and operated the enormously popular Ristorante Positano in Prospect Hts. for the last 6 1/2 years.

"First-time customers turned into regulars. We were written up regularly in all the newspapers and magazines," said Tom, a former Chicago policeman.

A big reason for their success has been chef John Herrera, who also made the move to Sail Inn.

Easily accessible by boat at Meyers Bay on Pistakee Lake, Sail Inn has 20 slips for boats up to 35 feet.

Sail Inn is open Tuesday through Sunday from 11 a.m. until closing.

For more information on the day's featured offerings, or to make banquet reservations, call (708) 587-2222.

Road construction forces more gridlock next year

Like death and taxes, road construction will be prevalent and ominous in 1993. The Illinois Department of Transportation announced its plans for \$1.5 billion in road work for the upcoming year, and, as expected, vehicular travel in Lake County will be maddening at times.

Fiscal year 1993 is the fourth year of IDOT's \$5.8-billion, five-year highway improvement program, and funded by the six-cent per gallon gasoline tax instituted in the late 1980s.

Overall, 1,076 miles of highways and 592 bridges will be constructed or improved through the 1993 program, including rehabilitation of 1,056 miles of existing highways and 578 bridges.

Additionally, the program will allow IDOT to construct 14 new bridges and 20 miles of new arterial highways.

Lake County residents, clamoring for better roads but still unwilling to wait in gridlock, have more waiting to look forward to when the proposals turn into visible work next year.

IDOT's proposals for next year include: U.S. Route 12 From Miller Road in Lake Zurich to Long Grove Road in Deer Park;

Signal Timing and Progression; Cost \$550,000.

U.S. Route 12 at Plum Road (Interconnect with Lake Cook Road) in Deer Park; Install Signals; Cost \$75,000.

U.S. Route 45, Illinois Route 60 and Illinois Route 83 Triangle; Signal Timing and Progression; Cost \$210,000.

Illinois Route 22 Bridge Over Interstate 94; Bridge Widening and Intersection Reconstruction; Cost \$2.1 million.

Illinois Route 22 at Ridge Road in Highland Park; Intersection Reconstruction; \$2 Million.

Illinois Route 43 From Greenwood Avenue to Longellow in Deerfield; Signal Timing and Progression; Cost \$190,000.

Illinois Route 59 at Rollins Road and Metra in Fox Lake; Bridge Replacement; Cost \$4.4 Million.

Illinois Route 83 at Petite Lake Road in Lake Villa; Installation of Signals; Cost \$78,000.

Illinois Route 120, West of Darrell Road in Lakemoor to Illinois Route 60; Creation of Additional 2.29 Miles of Lanes; Cost \$9.5 million.

Illinois Route 120, West of Darrell Road in Lakemoor to Illinois Route 60;

Utility Adjustment; Cost \$215,000

Illinois Route 132, From Illinois Route 59 to Illinois Route 83 in Lake Villa; 2.5 Miles of Resurfacing; Cost \$365,000.

Illinois Route 173 From U.S. Route 45 to West of Hunt Club Road; 3.6 Miles of Resurfacing; Cost \$300,000.

Illinois Route 176 from Larkdale Right of Way to U.S. Route 12; Widening, Resurfacing, Installation of Signals and Left Turn Lanes; Cost \$869,000.

State Engineering Projects

Illinois Route 21 From Washington Street to Illinois Route 120; Preliminary Engineering; Cost \$410,000.

Illinois Route 53 From Illinois Route 120 to Lake Cook Road; Preliminary Engineering; Cost \$1.5 Million.

Illinois Route 132 Over DesPlaines River, East of Illinois Route 21; Preliminary Engineering; Cost \$80,000.

Local Construction Projects

Sylvan Woods Road From Trevor Creek, One Mile North of Antioch; Bridge Replacement; Cost \$248,000.

Atkinson Road From Washington Street to Brae Loch Road in Grayslake; Widening and Resurfacing; Cost \$1.3 million.

Valley Park Drive to Golf Road in Libertyville; Reconstruction of .41 Miles; Cost \$279,000.

Bacon Road and Illinois Route 120 in Round Lake, Intersection Improvement; Cost \$70,000.

Hart Road From Fairfield Road to Illinois Route in Round Lake Beach; .60 Miles of Reconstruction; Cost \$244,000.

Woodland Drive From Lotus Drive to Cedar Lake Road in Round Lake Beach; .78 Miles of Widening and Resurfacing; Cost \$780,000.

Pet Of The Week

Dusty

Terrific mutt looking for new home

Dusty is a 50 pound black and grey, neutered male. This shaggy-coated, "Benji-type," two-year-old lovable mutt terrier mix is a perfect family dog. In fact, this outstanding dog is a personal favorite of everyone on the staff at Orphans.

Why? Because Dusty is an exceptionally well-behaved dog who defines the term good-mannered, and he walks like a gentleman on a leash. He also listens well and has a calm, affectionate personality. Like most terriers, Dusty is also naturally protective, very playful, smart and adores chil-

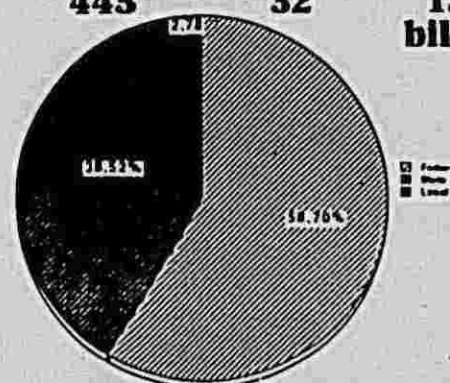

dren. Dogs as terrific as our Dusty don't come along every day! Dusty is in Cage 43.

Orphans of the Storm is located at 2200 Riverwoods Rd. in Deerfield. Hours are 11 a.m. to 5 p.m. seven days a week. Call 945-0235 for further information.

YMCA AirFest lures thousands

You couldn't have planned it any better. The weather, the crowd and the entertainment exceeded everyone's expectations and helped make the Lake County Family YMCA AirFest a little stronger for the future.

The Lake County Family YMCA AirFest flew into Waukegan Oct. 4, bedazzling and wowing the

crowds at the Waukegan Regional Air-port.

Phillip Baaske, president of the Lake County Family YMCA and AirFest chairman, was more than pleased with the turnout.

"I was hoping for at least 5,000. From what I was told, I guess we had somewhere between 8,000 to 10,000 attend," Baaske said.

The Lake County Family

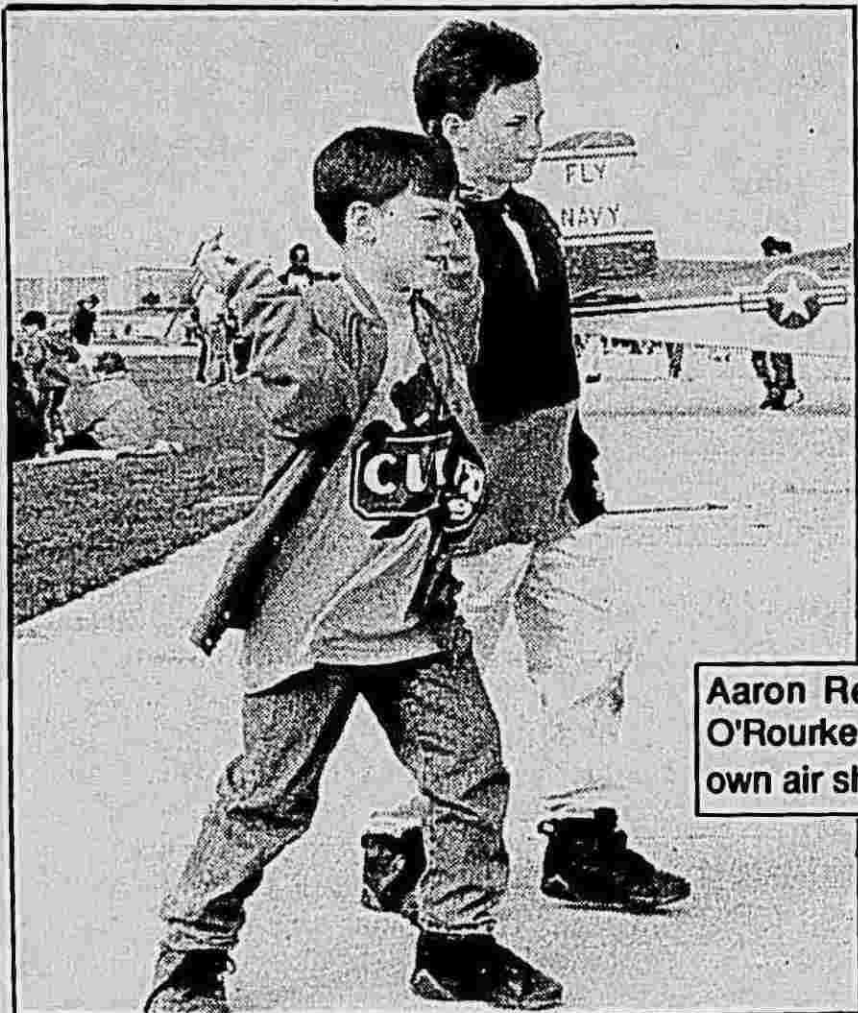

YMCA AirFest, the first airshow in the area since the early 1980s, was deemed a success and proved to be a precursor of things to come.

"We're looking at a much bigger show next year. We're having another meeting soon to critique this past show and examine ways to improve for next year's show."

The AirFest began with an early morning pancake

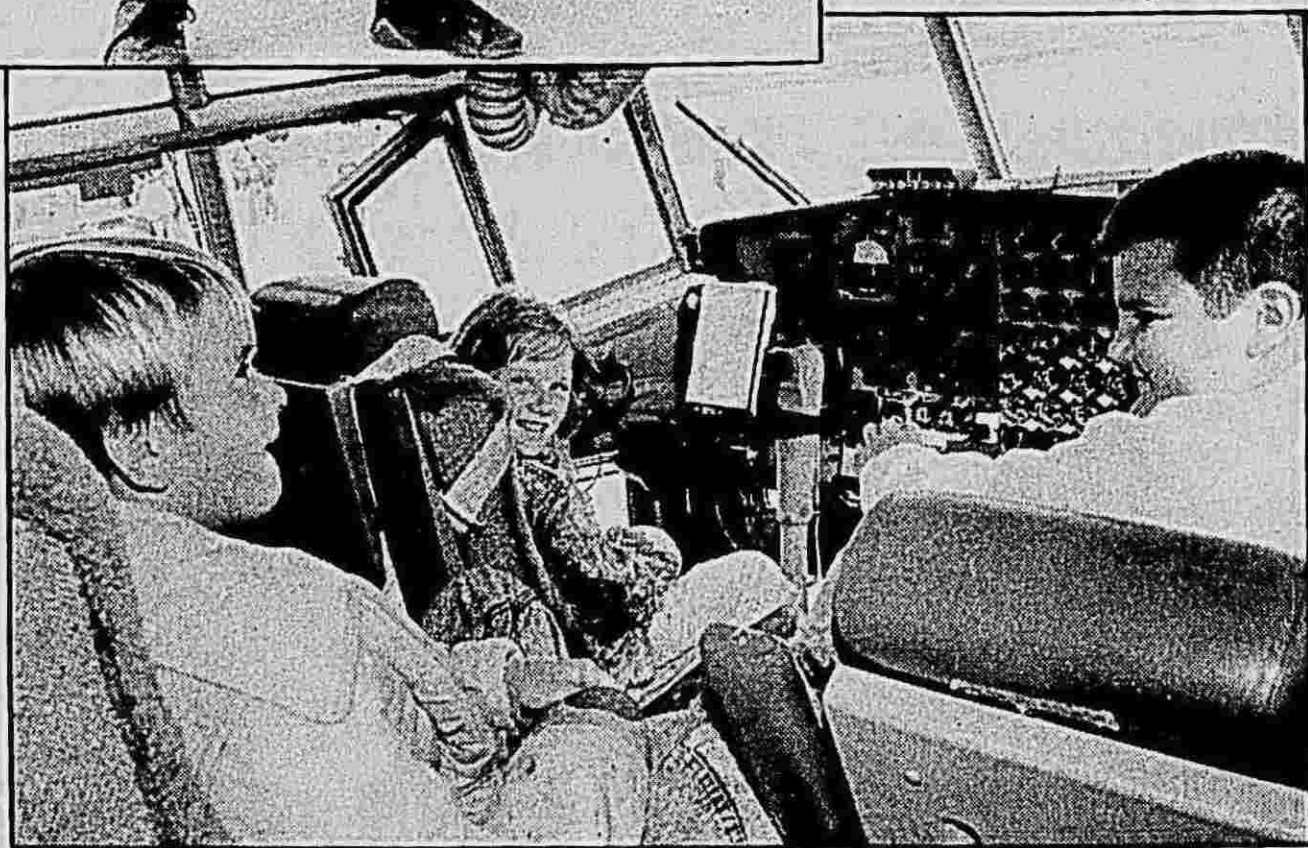

breakfast, warming the crowd in the chilly mid-50 degree temperatures. The breakfast was followed by fly-ins and fly-byes by corporate, military and private planes.

Plane rides and the static display were well attended said Baaske, and the Dave Dacy and Friends Airshow followed. The airshow was undoubtedly the highlight of the day.

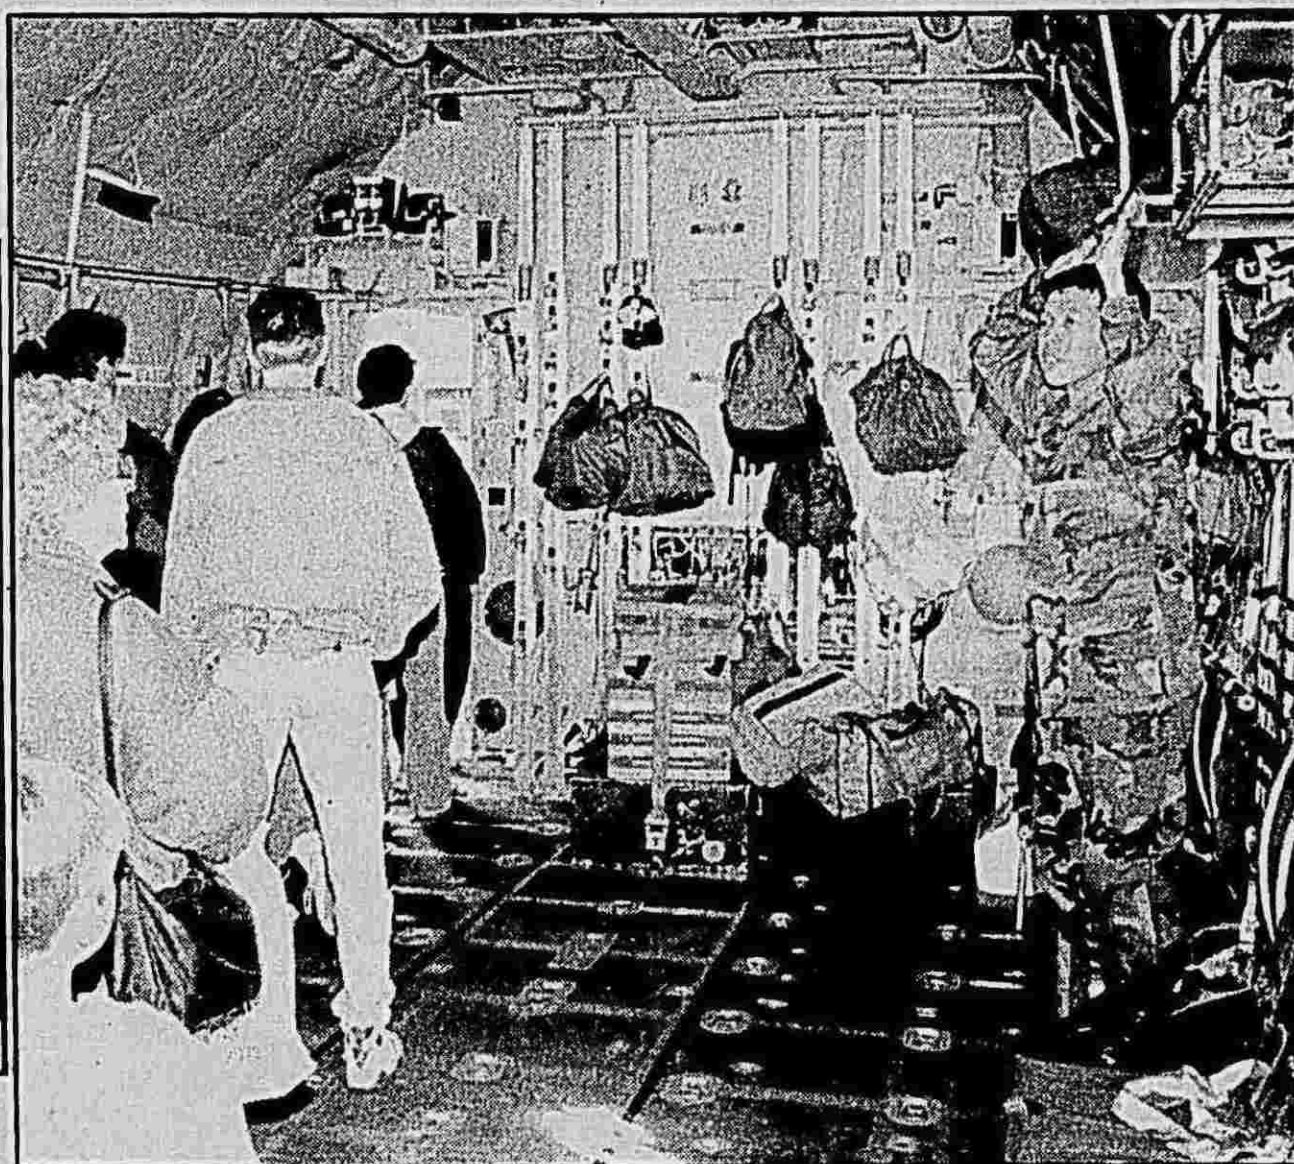

Aaron Reckling of Zion and Collin O'Rourke of Waukegan put on their own air show with their toy gliders.

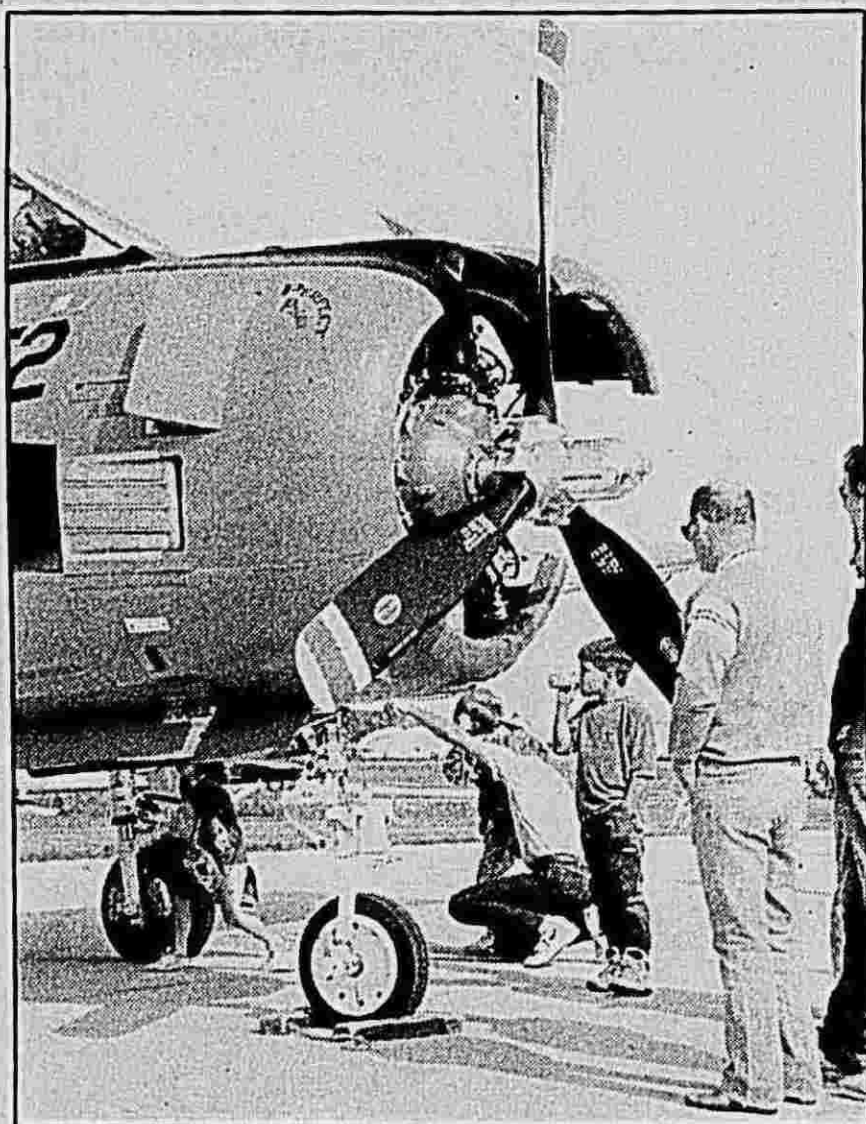

— Photos by
Gene Gabry

Michael Ozark of Gurnee, sister Cathy and Kevin Kuebler of Waukegan examine the cockpit of the military C-130.

Inside the C-130, airshow enthusiasts view what the military has seen for years.

Airshow enthusiasts examine the propeller of the P-51 Mustang, one of the greatest attractions of the AirFest.

Why don't kids come with owner's manuals!

A parent's guide to surviving their teenager's adolescence.

October 21, 1992 7-8 p.m.

Presented by:

John Jochem, Psy.D.

Program Director, Adult Psychiatry

Saint Therese Medical Center

If it seems that taking care of your child became more stressful when the teenage years arrived, you are not alone. Many parents are bewildered by the changes which occur in their children during adolescence and have trouble distinguishing between normal, expectable changes in behavior and more serious behavioral or mood problems. This presentation will cover the following areas:

- What is "normal behavior" for adolescents?
- Why do so many teenagers have so much trouble following basic rules?
- What roles do developmental issues and self-esteem play in the behavioral problems of adolescents?
- What are "family dynamics" and how might they affect the behavior of a teenager?
- How do you tell whether a teenager is "going through a phase" versus having more serious problems?
- What can parents do to improve communication with an adolescent child?

Dr. Jochem is Program Director of Adult Psychiatry at Saint Therese Medical Center, and is also affiliated with Lake Cook Psychologists.

For more information or to register, call ASK-A-NURSE® at 244-5900.

Home owners ask common furnace questions

Fall season is here once again in all its glory. Leaves are turning bright color, cooler weather is moving in, and comfortable old sweaters are being pulled from the closet for bundling up when the wind picks up soon. These are just a few recollections that make living in the Midwest pleasant, our changing seasons. And as we all know, these changes outside mean it's time for changes inside too.

That includes shutting down your air-conditioning system and starting up your heating system once again. This article is written to help all Lake County home owners have a safe and efficient season.

Q: How often should we have our furnace cleaned and checked?

A: A "clean and check" should be done at least every other year by an experienced heating contractor, and a visual in-

spection by the home owner each time the filter is changed.

Q: Exactly what is a "clean and check?"

A: The name "clean and check" describes a routine service performed by qualified heating and air-conditioning contractors for any heating or air-conditioning system, both commercial and residential. The purpose of this service is to assess the condition of your system, make necessary minor adjustments, clean, and guarantee the safety and efficiency of the system for the upcoming season. This service is sometimes referred to as "20 point check" etc.

Q: How long does the average furnace last?

A: That's a tricky one. Basically it's similar to an automobile, the more timely maintenance you do the longer the life expectancy is. The key here is doing good, sound, maintenance when it's

needed. And of course hiring reputable and experience contractors. To answer the question directly through the regional average life expectancy is about 17 years.

Q: What is carbon monoxide and how does it affect me?

A: Carbon monoxide is one of approximately 20 different gasses that are produced when your furnace is operating normally (higher levels are recorded from inefficient and older furnaces). This lethal gas is odorless, colorless and most importantly potentially deadly. Toxic levels of carbon monoxide are achieved as your furnace operates and leaks the gas into your home, many times undetected. Leaks are most commonly caused by furnaces which are in need of repair or have been neglected. Also from bad connections to the chimney, faulty repairs and other places too numerous to list here.

Some known symptoms to detect this include headaches when your in the building, or upon arising in the morning. Burning sensations in the nose or taste in the mouth.

Q: How often should I change my furnace filters?

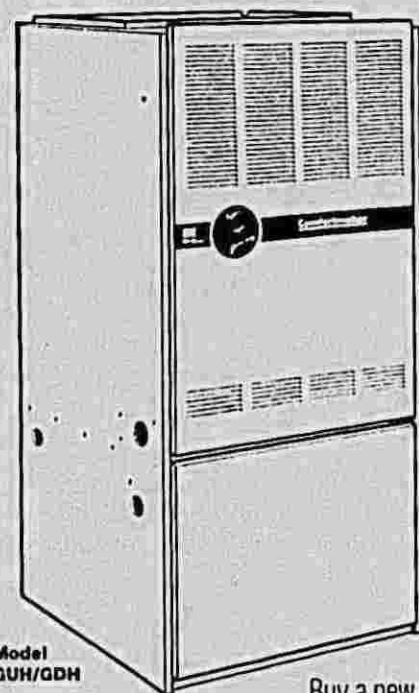

A: Most customers

don't know that filter manufacturers do have recommendations for "change outs" of filters. Usually the .79 cent filter you got at the local discount will last for about two weeks in the cooling season and most times three weeks in the heating season. The rule of thumb is "change out" when you

pay out, to the utility company that is! Some filters can last as long as a year or more. About 90 percent of all emergency furnace "change outs" are due to dust and dirt.

Editor's note: Questions and answers courtesy of Russ Sahagian, Fairfield Building Services.

An alternative to skylight sheds light on homes, offices

The SunPipe, a new alternative to skylights, can bring amazing amounts of natural daylight into homes and offices at a fraction of what a professionally installed skylight costs.

The SunPipe is an aluminum pipe, 13 inches in diameter for residential use, 21 inches for industrial or commercial use, that's lined with a highly reflective silver film. Entering from a spot on the roof, light intensified by the film moves down the tube, filling the room or rooms below much more evenly than conventional skylights can. Used correctly, the SunPipe can help to illuminate otherwise dark, windowless spaces.

"Most people think we're using fiber optics," said Greg Miller, who with his uncle Loran Miller of Glenview, created SunPipe, "but fiber optics don't work unless you have direct sunlight. The SunPipe works on cloudy days. Even then you can get some very substantial

illumination.

The SunPipe is easy to install. The average installation takes around three hours. There's no need to cut roof joists or rafters, and no framing is necessary. It won't leak, and is one-half to one-

eighth the price of a "welled" skylight installed.

For more information on SunPipe contact Greg Miller at 272-6977, or write the SunPipe Company, P.O. Box 2223, Northbrook, IL 60065.

Features and Benefits

1. Simple to install

- 3 hour job
- no cutting of joists or rafters/no framing

2. Won't leak

- Standard flashing and storm collar mean no leaks when properly installed.

3. Inexpensive

- 1/2 to 1/8 the price of a "welled" skylight installed

4. Greater area lighting

- diffuses light uniformly floor to ceiling.

5. No direct sunrays

- no solar heat gain
- no color fading or bleaching

6. No adverse effect on heating and cooling

- actually pays for itself when used instead of a skylight.

7. 1500+ watts* on sunny days

- 200 to 900+ watts on cloudy days

*incandescent lighting equivalence

8. Totally energy-free

- leave electric lights off on sunny and partly cloudy days.

(Continued from page 16)

very much or it wasn't much of a school to go to. I just wanted to say that I attended CLC and it is a respectable school, and one they'll get a very good education from. They should appreciate that their parents can at least afford to send them to CLC. I would be more than willing to send that person to another college once they get out of CLC.

Willing To Help

I would like to say I support the person who called in about "Bad Television." Tell me where to write and where to send my money. I'm willing to do it.

What About Us?

This is in response to the Lincolnshire resident who wants Route 22 widened, and anyone who is against it is insane. Yes, there is a problem. But is that person keeping in mind of all the residents who have lived there for more than 50 years and will get their homes and businesses taken away? Now that they're going to get booted out, traffic problem or not, it doesn't seem fair.

Got Away With Warning

I just got my latest copy of Fox Lake Press. And in Lipservice I read a complaint about the Hainesville Police Department. Just last month I was driving through Hainesville and was stopped by a police officer for speeding. And I couldn't disagree with him because I probably was speeding. He treated me very courteously, and checked my driver's license, insurance papers and let me go with a warning. So I can't complain about the police in Hainesville.

Life's Not Easy

I'd like to respond to the "Got a Penny?" scam. I happen to be a 19 year old CLC student. I went to NIU for a semester, but due to family illness and money difficulties. I had to return home. I am now taking full load at CLC and working at the college until 9 p.m. each night. It's not easy, but neither is life. Get used to it.

Public College Is Fine

This is in respond to "Got a Penny?" in Lipservice. Did you ever think about settling for a public college? You can get just as much out of it if you try. Every year more academic grants are given out than athletic scholarships. So quit your whining and take what you can get.

Who Does He Know?

For the gentleman who said that he called cable and had a person at his door within two hours. I'd like to know who he knows and TCI. I recently called for a cable problem and was given a date one week from the day I called by a rude person on the phone and was told that if it was not a cable-related problem, I would be billed \$25 for a house call. It was cable related, but I got nothing for the time I watched snow on my television.

Stop In Two Years

This is in response to the person who wanted a stoplight at Gilmer and Midlothian. I talked to IDOT a few weeks ago and they said that there will be a light installed in 1994. So does that help us who have to go through there every day and sit there for 30 minutes behind 100 cars? I think that someone should collect a buck from every person that drives through there and maybe we could get a stoplight here now.

More Lipservice, Please

I just love Lipservice and wish it took up 20 pages of your paper. Hey, guess what? God is still reigning over the world. You ask why is the world messed up. Because people choose not to serve Him, but to serve themselves. And that is bad. We should wise up. We better turn around and look up to Christ and ask Him to come into your heart.

Bad News, Bears Fans

Well, here we are again. I'm ready to enjoy the few hours of relaxation I have in my busy week, and once again, old reliable goes off right before the Bears' game. I've had my cable out more than I've had it on. I've never seen a refund. What does it take to reimburse you for the time you're not getting service. I've been sitting here for an hour and 10 minutes, looking at snow on my television screen, and I'm sure that won't be reflected on my bill. This is the worst cable company I've ever had. I'm calling from Round Lake.

Any Guarantees?

I'm calling in response to "Pro-Lifer Stands Up." I will not have an abortion and will give my baby up to a pro-lifer. But can they guarantee me that my child will never go without food, clothing, shelter, proper health care, that my child will never be hit, neglected, abused. Can they guarantee me that? I don't think so. So I will make the choice that is right for me.

Here's A Penny

I don't think that it's fair to say that today all colleges want is an athlete, and that is all they are willing to pay for. For the student who wants a penny. Are you a straight A student? Maybe you're not an athlete. But you could have been a straight A student and gotten an academic scholarship. Maybe you don't want to go to college that bad, but if you do, I will send you a penny.

Premier Zapped

Of all the times that my cable has gone out, and all the problems I've ever had, and all the times I've had to wait on hold, I've always made sure they gave me credit — even if my cable was off for 10 minutes. I do want to say that I have never been more ticked off when the premier of "Murphy Brown" was on, and the cable went out at 8:06 and went on at 8:56. I wonder what that was. I wonder if the Republicans had paid a lot of money to take that off the air.

No Nurses!?

I'm an angry parent of children in a Round Lake School. It's alarming to know that our Round Lake School District has no nurses on duty. There has been a few incidents at one school with hurt children and no one (Continued on page 53)

Detecting it early could save your life.

Detected early, treated correctly and monitored aggressively, breast cancer can be cured. More women than ever before are living life to the fullest following a successful battle against breast cancer. Early detection is key to success.

North Point Medical Dental Center, an affiliate of Cancer Treatment Centers of America® — a national leader in comprehensive cancer treatment — is a leader in cancer prevention and early detection.

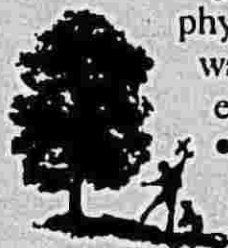

Our outpatient screening program can detect breast cancer early when the disease is most treatable.

North Point's comprehensive breast screening services include:

- An examination by a woman physician who specializes in breast

cancer detection and treatment.

- A mammogram properly interpreted by a skilled physician. Mammograms are designed to detect abnormalities too small to see or feel. A baseline mammogram is highly recommended to identify problems which may develop.
- A practical demonstration by a physician or nurse on the correct way to perform breast self examination.
- Nutritional assessment and dietary recommendations to reduce your breast cancer risk.
- A library with videotapes, books and other resources about breast cancer prevention, detection and treatment.
- Second opinion counseling for patients seeking further evaluation of a previously diagnosed problem.

\$45 Mammogram Special
During National Breast
Cancer Awareness
Month in October
Call 708.872.8982

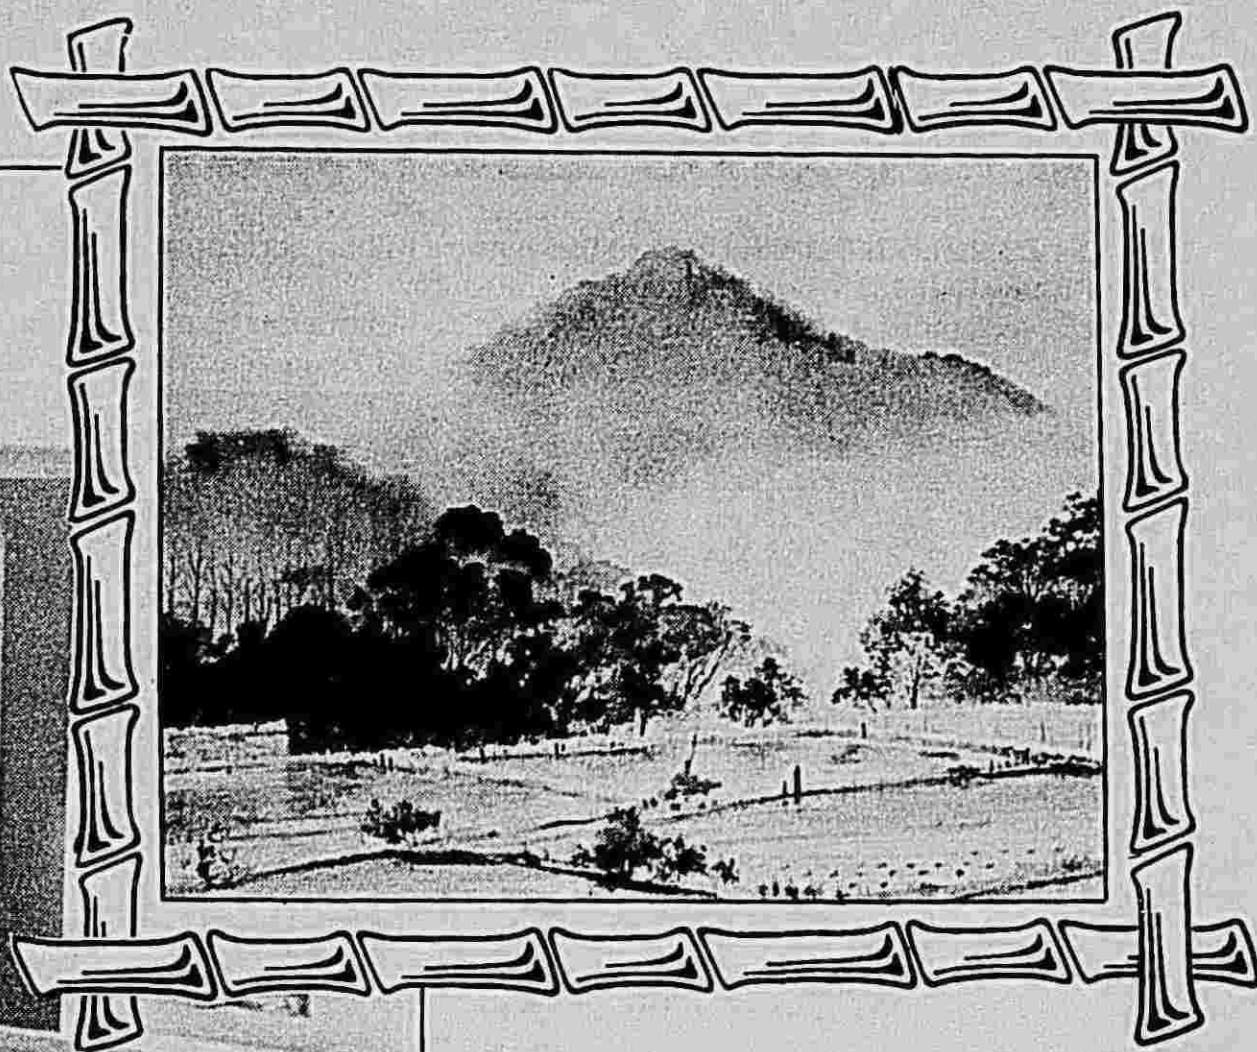

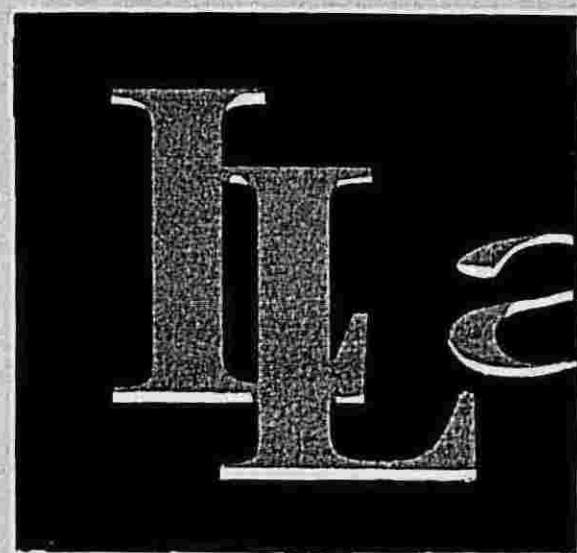

Call North Point Medical Dental Center today to make an appointment for a mammogram for only \$45 during October. The cost includes the radiologist interpretation fee.

Mammograms are available at our Zion location and at our mobile unit which travels throughout Lake and Kenosha counties. Please ask for specific mobile unit locations when you call to make an appointment.

Other cancer screening services (described at left) are available, but not included with the \$45 mammogram special.

Left, Janice Garvin Matsumoto demonstrates Sumi-e painting. Above, a painting by Hiroko Tsuge, founder of the Yokohama International Sumi-e Association. Below, a painting by Matsumoto, whose favorite subject is horses. Sumi-e artists will exhibit their works at the Japan Information Center, 737 N. Michigan, Chicago, through Oct. 13. For information call (312)280-0430.

A stroke of rebellion touches traditional Japanese art form

Students of Oriental arts from martial arts to calligraphy usually learn by strict and precise imitation of the masters. Traditionally, this is also true of Sumi-e (soo-me-yay), Japanese ink painting.

In Sumi-e painting, the artist uses an inkstone to grind the inkstick with water. The brushes are arranged in a neat row. The strokes are precise. In the traditional style of teaching Sumi-e, painters first learn to copy the strokes of their teacher. Technique is more important than originality.

But at the Yokohama International Sumi-e Association, students are learning to take a freer, approach to painting, one which allows an individual more personal expression.

This Western approach to painting is being taught by Tatsuki Mori, a Japanese illustrator and graphic artist. "He believes that it's better for each person to look at

by CLAUDIA M. LENART

an object and draw what he experiences," said Janice Garvin Matsumoto, student at the International Sumi-e Association and a Libertyville High School graduate. This makes Mori's style of teaching unique among Japanese arts.

Matsumoto along with 20 of her fellow students and two of her teachers, are exhibiting their work at the Japanese Consulate at 737 N. Michigan in Chicago.

Matsumoto, 31, moved to Japan after graduating from Illinois State University in 1984 with degrees in French and Marketing. "I didn't really want to use French or marketing so I applied to teach English to adults at the YMCA."

Matsumoto has been with the YMCA since and now serves as international coordinator for the Yokohama YMCA where she arranges opportunities for the people of the city to experience different cultures. In her leisure time, Matsumoto delves into the art of Sumi-e.

Matsumoto began her adventure with Japanese art studying calligraphy and life drawing in the city of Kyushu. When she moved to Yokohama, she couldn't find a teacher in those disciplines, but heard about the International Sumi-e Association. That was three years ago.

Matsumoto's favorite painting subject is horses. Her fascination with horses began when she was a beginning Sumi-e student. In the first lessons, students progress from flowers to apples and

grapes to landscapes.

In the apples and grapes lesson, Matsumoto was in a bad mood. She wasn't inspired by apples and grapes, so she was doodling horses. "Mori-sensei (teacher) came over, saw the horses and said 'Do a horse picture, Janice.'"

That episode exemplifies the difference between Mori and other Sumi-e teachers. Others may have insisted, Matsumoto get down to drawing apples and grapes.

"When he (Mori) paints it's like magic when a picture appears from his brush."

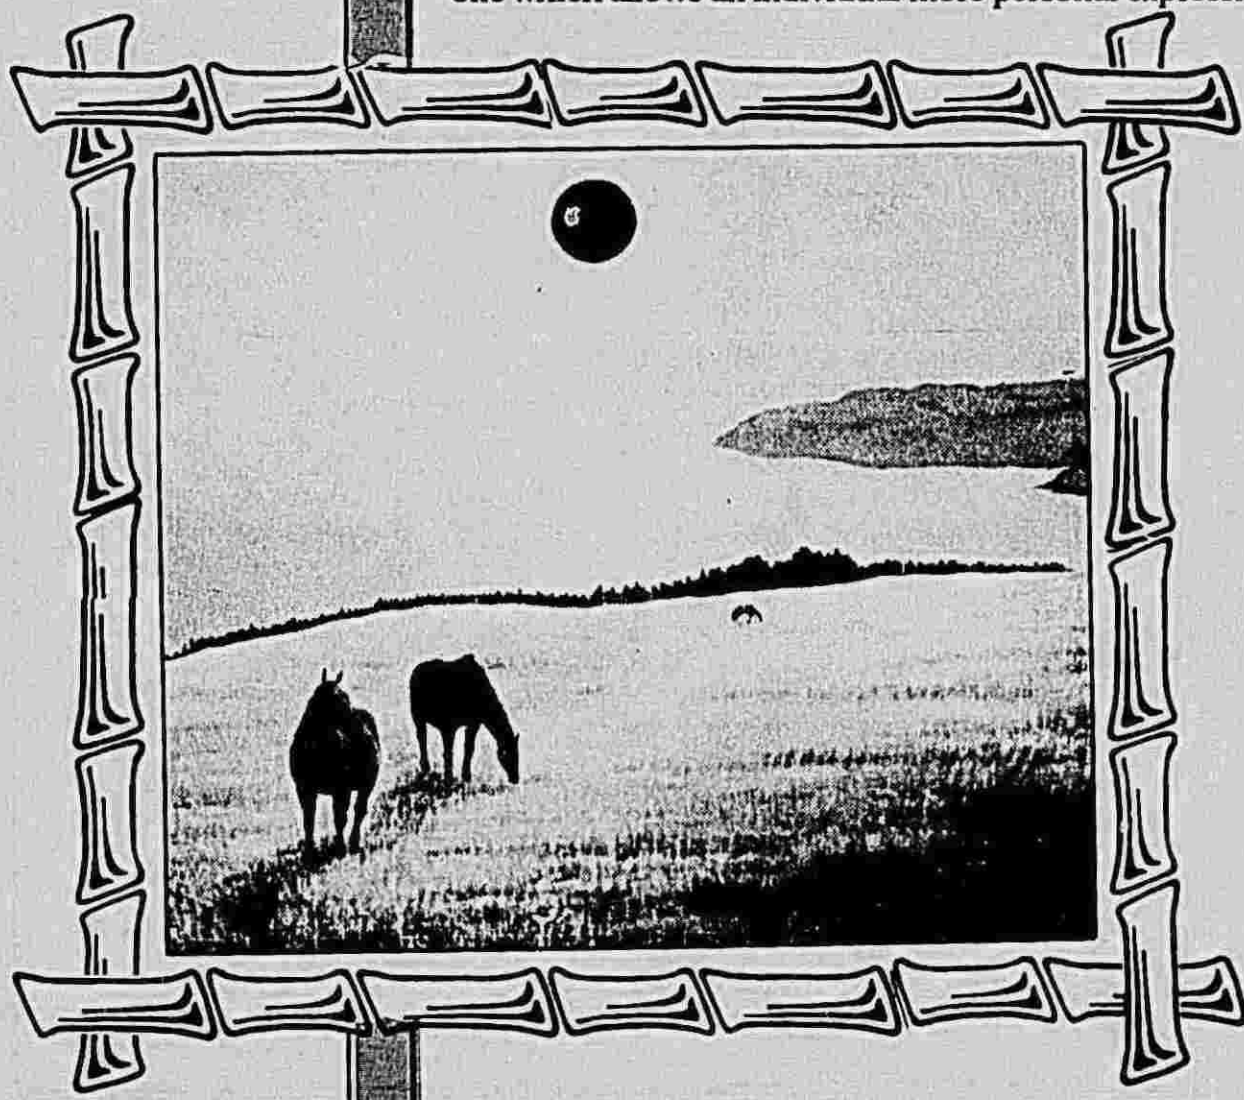

Janice Garvin Matsumoto

The International Sumi-e Association was founded five years ago by Hiroko Tsuge who had learned Sumi-e in the traditional manner. Tsuge saw greeting cards designed by Mori. She liked what she saw and asked Mori to teach for a six-month stay at the Association. According to Matsumoto, "Every one was so enthusiastic about him that he couldn't quit."

"When he (Mori) paints it's like magic when a picture appears from his brush," said Matsumoto.

Both Tsuge and Mori hope to spread Sumi-e throughout the world. To this end, they have sought out foreign students. Of the 30 members of the Association, 10 are foreign and hail from places including England, Holland, the Philippines and Australia.

The Sumi-e exhibition will be at the Japanese Consulate through Tuesday, Oct. 13. The consulate is closed on Saturday, Sunday and Monday.

Kidz Fare

Papai Players present 'Babar the Elephant'

'Babar the Elephant,' a fun-filled musical adventure will be performed by the Papai Players at Cutting Hall, 150 Wood St., Palatine, through Nov. 7.

In this fast-paced musical children will follow Babar's adventures as he travels to the circus and to school. The script was written by Jane Kenas and Kevin Peterson with musical arrangements by Ronald Combs.

"Babar the Elephant" is appropriate for children, pre-school to sixth grade. Performances will be held Oct. 10, 12, 17, 24, 31 and Nov. 7 at 10:30 a.m. and Oct. 7, 21 and Nov. 6 at 10 a.m. Tickets are \$5. Reservations are required by calling 359-9556.

"The Velveteen Rabbit," the College of Lake County's fall children's theatre production will open Friday, Oct. 9 at the CLC campus, 19351 W. Washington St.

The play written by James Still and directed by CLC theatre instructor Robert J. Coscarelli, will take a nostalgic journey back to a toy chest where fantasy adventures and mystical toy magic teach a four-year-old and his beloved companion the true meaning of friendship.

Performances of "The Velveteen Rabbit" will be held in building 5 at the CLC campus on Oct. 9, 10 a.m. and 1 p.m.; Oct. 10, 2 and 7:30 p.m.; and Oct. 11 at 2 p.m. The play will be performed at 2 p.m., Oct. 17, at Mundelein High School; 2 p.m., Oct. 18 at Lake Zurich High School and 2 p.m., Oct. 24 at Stevenson High School.

Tickets are \$7 general admission and \$5 for CLC students, alumni and children. For reservations call the box office at 223-6601, ext. 2300.—by **CLAUDIA M. LENART**

Babar the Elephant, played by Edward Kerros, kicks up his heels with Ringmaster Kevin Peterson, in a fun filled tap dancing routine at the circus.

Day-Long Stress Management Workshop

October 17, 1992

Professional Office Building, 1st Floor Classroom
Saint Therese Medical Center

Who doesn't have stress these days? With today's hectic lifestyles we all sometimes feel overwhelmed and "stressed-out," although there are specific strategies that can help reduce stress and tension. Come and treat yourself to a day-long series of presentations by a team of professionals who can help you learn new ways to manage your stress. You'll be glad you did!

This **Stress Management Workshop** is sponsored by the North Shore Depressive Association and Saint Therese Medical Center.

A \$10 fee for participation will be collected on the day of the event, payable by cash or check.

- Agenda:**
- | | |
|------------|---|
| 8:45 a.m. | Coffee and Rolls |
| 9:00 a.m. | Introduction and Welcome
John Jochem, Psy.D., Saint Therese Medical Center
Duane Shaneyfelt, Ph.D., North Shore Depressive Assoc. |

Karnes Music

Presents

Bob Hacker
In Concert

FRIDAY OCT. 9
7:00 p.m.

He will provide us with an evening of music as part of our Vernon Hills GRAND OPENING!

Bob Hacker, a native of Chattanooga, TN, has been in the music business as a writer, entertainer, teacher, and clinician for over thirty years. His love for people and music become quite apparent, whether you are with him in a one-on-one situation or part of an audience. He prefers the word "get-together" to describe what some might call a "concert."

When asked about the new electric keyboards with all the automatic features, he says "I think it's great! Today, people have an option. They can either hire a Dixieland band, an eighteen piece dance band, a country band, etc. to play any time night or day or they can own an electronic keyboard."

Everywhere Bob plays, he brings the house down, the audience to its feet, and the Sheriff for a raid. Feet stomp, hands clap, Bob sings... and a good time is had by all! Bob and his wife, Judy, have four children (and one grandchild) and make their home in Baton Rouge, Louisiana.

Horoscope

ARIES (March 21-April 19) You are most "rammy" this week, and you do whatever it takes to get what you want. Be ready for it all. Be warned — all this could cost you, as you find out this weekend. Boy, oh boy, are you exhausted! A stunning week comes to a slow fizz.

TAURUS (April 20-May 20) Think, think, think before you take action this week. You are a dynamite keg waiting to be lit. (You could be triggered very easily.) You're amazing to watch as you race through work, errands and wildness. Watch expenses in this carefree mood.

GEMINI (May 21-June 20) Whoopee is the key word this week. You soar as the week begins, and though there could be a momentary lull midweek, your charisma peaks later on. Go for what you want, whatever that looks like. Be prepared to indulge and be indulged all weekend long.

CANCER (June 21-July 22) All eyes are on you this week. Your performance at work brings you cheers. Friends surround you and desire you. The drums beat for you, and you get what you want. You may be on overload, but you do manage to indulge in your winnings all weekend long.

LEO (July 23-August 22) The key to your week is your creative, high-voltage imagination. Just let it go and discover solutions, ideas and excitement. You receive kudos at work, if you are responsible. Count on an early weekend when you get what you want.

VIRGO (August 23-September 22) You're into being a duo this week, be it with love, money or business. You've got a touch of magic working for you. Your ideas perk and you surprise others as you take action. Let everyone know you are a force to be dealt with.

LIBRA (Sept. 23-Oct. 22) **PLAY** passive this week; let others **PLAY** dominant. You know you hold the trump card. Get all the information you can though, before you play it. Get ready for escape and excitement this weekend.

SCORPIO (October 23-November 21) You can be trusted to get the job done this week. Plunge into work and get your just rewards. If single, you may find a new playmate to ogle by the weekend. Over the weekend, plan on a romantic dinner for two. Need we spell it out?

SAGITTARIUS (November 22-December 21) You bring the spirit of the weekend with you to work this week — if you show up. Work hard and quickly, and by week's end, you're back to being the party animal again. You can't help it, what with all the invites.

CAPRICORN (December 22-January 19) All the better to keep certain matters close to the chest right now. You appear mysterious and even more intriguing to a loved one. The need to exercise your libido is high all week. Max out this weekend. So many want you — consider cloning yourself.

AQUARIUS (January 20-February 18) You swing from high to low to high again. You are dealing with concerns that are extremely personal this week. You lighten up and roll into a wild weekend. Your specialties are play and friendship.

PISCES (February 19-March 20) You do exemplify your sign this week, though you could find yourself trying to swim in more than one direction at the same time. Much is going on, yet you are off doing some real soul-searching. Count on a quiet weekend as you blend your two sides.

Wheel World

Crystal serves more pathos

Billy Crystal

Billy Crystal has been one of our favorite funny-men since we first saw him in TV's "Soap."

We laughed at him on "Saturday Night Live," he had us in hysterics in "City Slickers," we loved him in "When Harry Met Sally" and he has made the usually boring Academy Awards a joy to watch.

Now he comes forth with a new film that he has written, directed and is starring in, "Mr. Saturday Night."

Crystal's character of Buddy is a composite of most Jewish stand-up comedians, the likes of Henny Youngman, "Uncle Miltie," and Alan King, although he doesn't make it as big as they did.

We see an awful lot of King in Buddy. Maybe that's because Crystal has been often associated with the older comedian on and off stage.

The expanded Buddy has two hours of film time to deliver a lot of funny one-liners while presenting a backstage character that would definitely not be up for any nice guy awards. Because of the authenticity of the relationship of the jokes with the era they are being told in, many are too dated to be funny—"Take my wife please!"

We like Crystal — we didn't like Buddy.

Buddy insults without being warmly insulting like Don Rickles is. Buddy is also less than a good human being as seen in his relationship with his parents and brother and manager, well played by David Paymer.

"Mr. Saturday Night," which goes from Buddy's debut into show-funny-business through the next 50 years-until he is an old man who looks much older because of Crystal's makeup than he should chronologically be, is a good example of the fine line between comedy and tragedy.

Crystal does a great job of making a clown into a very tragic person which is why we feel that this work of Crystal's is more of an analogy of human behavior with laughable sidelights.

Crystal, his staff and the rest of the cast get plaudits for accuracy in reproducing everything that goes into 40 years of living, from changing fashions, to changing entertainment, to changing life styles.

Crystal has succeeded in turning out a well-written, well-directed, well-acted movie that made us sad instead of glad, a surprising gift from one of the funniest men in the business today. We give "Saturday" four out of five stars for accomplishment, but alas only 3 stars for entertainment. Billy, we expected to - and wanted to - laugh much more! —by GLORIA DAVIS

Dorian Gray sells his soul for life

Critics Choice

Dorian Gray's terrible secret is that he sold his soul for a life of carefree indulgence and perpetual youth.

But Gray must share his quarters with a life-size portrait of himself, one that grows uglier with each new episode of debauchery. It's a tough tradeoff, and eventually enough to drive him mad.

Oscar Wilde's 19th Century novel, adapted for the stage by Paul Edwards, includes much of the writer's colorful and occasionally witty phraseology. As presented at Chicago's Wisdom Bridge Theater, it's a masterly bit of stagecraft directed by Terry McCabe.

Mark Truitt is a dashing yet wanton narcissist Dorian Gray, who buys into his friend Lord Henry Wotton's (Kevin Gudahl) philosophy that "the only way to get rid of temptation is to yield to it."

Gunnar Brandson plays the "real" Dorian, a picture come to life. His frequent confrontations with the unchanging Dorian Gray, calling him to account for his actions, always lead to volcanic eruptions—and fascinating dialogue.

A small but polished supporting cast carries its weight.

"The Picture of Dorian Gray" would be even better with fewer breaks through the "fourth wall" as characters move in and out of their roles to read passages from the novel. The play runs through Nov. 8.—by TOM WITOM

Mark Truitt, left, in "The Picture of Dorian Gray" with Harry Althaus and Kevin Gudahl.

Club Med on Paradise Island The name says it all

by JIM WARNKEN, PRESIDENT
NORTH STAR TRAVEL, INC.

Whistles at 9 a.m. Everyone down to the beach for volleyball. This is the picture that may come to mind when you think of an all inclusive Caribbean resort. This is not Club Med.

Some vacationers prefer to have their days planned out for them. I do not. So when I was offered a chance to visit Club Med on Paradise Island, I envisioned a list of daily activities in which I would be expected to participate. Boy, was I wrong!

This is not to say there is nothing to do at Club Med. Quite the contrary. During my three day stay I took golf lessons and sailing lessons. I took a boat trip to a small island and went snorkeling on a beautiful reef. (By the way, those disposable underwater cameras work great. Stop in and I'll show you my pictures). I ran out of time before I could take tennis lessons complete with video playback to improve your game.

The beauty of Club Med is that everything is there for you, but you plan your day. If you feel like taking windsurfing lessons, just be at the beach house at 10:30 a.m. or 3:30 p.m. Want to learn how to sail a Hobie Cat, that's at 10 a.m. and 3 p.m. The snorkeling boat leaves the dock at 11 a.m. and 4 p.m. with lessons in the pool one hour before.

The activities are there, but you are not pushed into "enjoying" yourself. If you just want to lay on the beach, that's just fine. And what a beach it is. Club Med is located right on the best beach in all the Bahamas.

This resort, or village as it is called, was once three separate Georgian mansions, two of which now house restaurants for those preferring more intimate dining than that offered in the Main Harbor restaurant. Reservations are required, but all is included in your package price.

The food? Fine wines, caviar and international cuisine prepared by top French chefs. What more can I say?

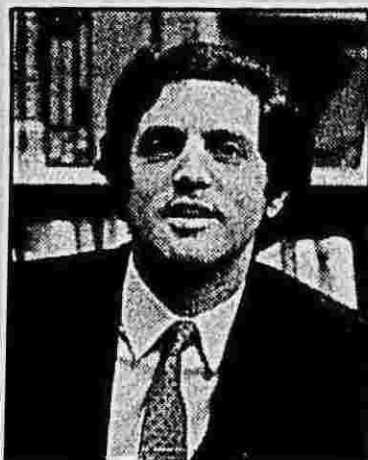

Strolling through the acres' landscaped gardens shaded by palm trees makes you think this to be a perfect resort for honeymooners. In fact, this Club Med is very popular as a honeymoon destination and offers special packages for newlyweds.

For the sports minded who still want a relaxing vacation, Club Med is the place.

Obituaries

Robert J. Smith Jr.

Age 62, a resident of Glendale Arizona and a former resident of West Lake County IL., for over 27 years, died on Sept. 19-1992, at the Phoenix Veterans Administration Hospital.

He was born on November 27, 1929 at Chicago Illinois.

Mr. Smith served in the U.S. Army During the Korean Conflict, and was a former member of the Fox Lake American Legion Post 703, and a present member of the American Legion Post #29, in Glendale Arizona.

He was also a longtime member of the Chain of Lakes Power Squadron.

Survivors include his wife Shirley J. Smith nee Bunting, with whom he was united in marriage on August 7, 1952. 1 daughter Michele (Gary) Mathia of Round Lake Beach, IL. 2 sons Robert Jr. (Betty) Smith of Fox Lake, Kevin (Terri) Smith of Spring Grove IL. 4 Grandchildren. Kai-Lee and Katie Mathia and Bradley and Bryan Smith. 2 sisters. Kay Munden and Ruth Smith, other relatives survive.

Memorial services were conducted on Sept. 23-1992 in Arizona with interment following in the National Cemetery with full military honors.

Howard Shepard

Age 60, died at Hamilton County Hospital in Webster City Iowa on Tuesday, September 29, 1992. His body was cremated and a memorial mass was held at St. Thomas Aquinas Catholic Church in Webster City, Iowa on Thursday, October 1 at 5 pm.

He was born August 29, 1932 in Waukegan, He graduated from high school in Lee's Summit, Missouri. He attended Kansas City Junior College and transferred to the University of Missouri School of Mines majoring in Mechanical Engineering. He was employed as a Draftsman in Kansas City and was later employed in Woodstock, Illinois. In 1958 he joined the family owned newspaper in Antioch where he eventually became Managing Editor. He was active in the Antioch Lions Club and was a member of the Volunteer Antioch Rescue Squad. In 1966 he moved to Webster City and was employed in design and drafting at Beam Industries. In 1967 he married Judith Linder at White Bear Lake Minnesota. In 1968 he was employed as a buyer at Franklin Manufacturing (Frigidaire) in Webster City. In 1971 of purchasing in 1984 and Director of Purchasing in 1991. In February 1992 he was promoted to the Corporate Level in Purchasing at Frigidaire.

He is survived by his wife Judy, his daughter Molly Shepard of Webster City, a brother Walter Shepard of Antioch, one sister Mary Terry of Clearwater, FL, 8 nieces and nephews.

Memorials may be given to the Frigidaire Purchasing Scholarship Fund or to the Hamilton County Hospice program. Mrs. Shepard's address is 1012 South St., Webster City Iowa 50595.

Judith A. Haley

Age 54 of Melbourne, FL, formerly of Rochelle, and most recently of Elk Grove, Illinois passed away on Sept. 30, 1992.

Judith was born May 12, 1938 to Monroe and Evelyn McDowell, and married Ronald Haley, on July 3, 1968. He preceded her in death on August 11, 1984.

Survivors include her mother Evelyn McDowell of Antioch, 2 sons, Richard (Robyn) Wells of Elk Grove, Royal Jr. of Polo, AL, and 2 daughters, Cynthia (Vern) McGuire of Mt. Morris, IL, and Susan Wells of Schaumburg IL. 3 sisters, Sherry (Elmer) Olson, of Antioch. Penny (George) Ragan of Highland CA, and Gail Pryor of Fox Lake, IL; 24 grandchildren, 1 great granddaughter.

She was preceded in death by her father, and her brother Robert McDowell.

Private services were held for the immediate family. Judith donated her body to cancer research. Memorials can be made your local Hospice Program in memory of Judith Haley.

How To Survive The Job Search

By Nancy Sakol

Q: Dear...Search, I recently experienced a lay-off from a company
that I had been employed with for the past 6 years. 8 persons,
including myself were laid off at the same time due to cut backs
throughout the company. While I know that I will find something else
in my field of data entry, my biggest concern is my loss of insurance
benefits. A friend of mine has told me that I entitled to something
called a Cobra program. My employer had not mentioned this and I
am not quite sure what it is. D. B. - Lindenhurst

A: Dear D. B. Without knowing about the corporation you worked for, on
a more general note I can tell you that back in 1986 legislation was passed
that companies with more than 20 employees were required to continue
health coverage on employees that were terminated or left their
employment for other reasons. Understand however that your former
employer is required to keep you on their policy but not pay your
premiums. If you feel you qualify for this or are not quite sure if you do, I
would contact your former employer in either case and ask!!! Don't forget
to find out what you will have to pay for this insurance. Once you find out,
you may want to shop around and see perhaps you can get coverage for
less on your own rather than on a corporate or group policy. I hope this
eases your mind a bit.

Q: Dear...Search, I recently had 5 hours worth of interviews in 2
consecutive days with a local company for a position as
secretary/bookkeeper to the president. While I must say I was intrigued
with this position at first, toward the end of the second interview I
began to notice the person interviewing me was saying some very
nasty things about all the other people who worked for him in the past
and their short term employment with him. I did accept the position
with this company and have been here for just short of 2 weeks and
now realize that this was a mistake. I am being treated very poorly by
the president of this company as well as by his office manager. There
is obviously more to this story than met the eye in an interview with
these people. I am basically writing this to get it off my chest. Please
make your readers aware that when an interviewer speaks bad of their
former employees, trust the fact that upon your leaving they will
speak ill of you too. Thanks for listening. J.S. - Mundelein

A: Dear J.S. Chalk that one up to experience!
The same rule applies to going on an interview and speaking ill of
your former employer. The person interviewing you will always think
you will speak bad of them upon your departure. Thanks for your
input.

Note: Nancy Sakol is a licensed personnel professional and
President of Superior Personnel in Gurnee.
Letters can be sent to Nancy c/o Lakeland Newspapers,

NOTICE OF SPECIAL COMMISSIONER'S SALE
OUR FILE NO. 23952

(IT IS ADVISED THAT INTERESTED PARTIES CONSULT THEIR OWN ATTORNEYS BEFORE BIDDING AT FORECLOSURE SALES)

Public Notice is hereby given pursuant to a Judgement entered in the above entitled cause on July 10, 1992.

I, Max Tyson, Special Commissioner for this court will on November 16, 1992 at the hour of 9:30 A.M. at the front door of the Lake County Courthouse, Illinois, sell to the highest bidder for cash, the following described premises:

272 Oak Bluff Ct., Wauconda, IL 60084

The improvements on the property consists of condominium, aluminum siding, two story with an attached garage.

Sale terms: 10% down by certified funds, balance within 24 hours, certified funds. No refunds. The sale shall be subject to general taxes and to special assessments.

The property will NOT be open for inspection.

The judgment amount was \$104,297.34.

Upon the sale being made the purchaser will receive a Certificate of sale which will entitle the purchaser to a deed on a specified date unless the property is redeemed according to law.

For information call the Sales Officer at Plaintiff's Attorney, Fisher and Fisher, 30 North LaSalle, Chicago, Illinois. (312) 372-4784 from 1:00 p.m. to 3:00 p.m., however under Illinois law, the Sales Officer is not required to provide additional information other than that set forth in this notice.

NOTICE OF SPECIAL COMMISSIONER'S SALE
OUR FILE NO. 23761

(IT IS ADVISED THAT INTERESTED PARTIES CONSULT THEIR OWN ATTORNEYS BEFORE BIDDING AT FORECLOSURE SALES)

Public Notice is hereby given pursuant to a Judgement entered in the above entitled cause on June 19, 1992.

I, Thomas Geraghty, Special commissioner for this court will on November 11, 1992 at the hour of 1:30 p.m. at the front door of the Lake County Courthouse, 18 N. County Street, Waukegan, Illinois, sell to the highest bidder for cash, the following described premises:

505 Normandie Lane, Round Lake Beach, IL 60073

The improvements on the property consists of a single family, one story dwelling, without a garage.

Sale Terms: 10% down by certified funds, balance within 24 hours, certified funds. No refunds. The sale shall be subject to general taxes and to special assessments.

The property will NOT be open for inspection.

The judgment amount was \$76,897.63.

Upon the sale being made the purchaser will receive a Certificate of sale which will entitle the purchaser to a deed on a specified date unless the property is redeemed according to law.

For information call the Sales Officer at Plaintiff's Attorney, Fisher and Fisher, 30 North LaSalle, Chicago, Illinois. (312) 372-4784 from 1:00 p.m. to 3:00 p.m., however under Illinois law, the Sales Officer is not required to provide additional information other than that set forth in this notice.

Where To Worship

Wildwood

The Wildwood Presbyterian Church, 33428 N. Sears Blvd, Wildwood worships at 10 a.m. each Sunday. Child care is available. Sunday School for all ages begins at 9 a.m. "WildFaith" the youth fellowships for junior and senior highs meets from 5 to 7 p.m. on Sunday evenings. "Weeknight at Wildwood" is Wednesday from 6 to 7:15 p.m. Call 223-0073 for information.

Libertyville

The Libertyville United Methodist Church Women's Assn. is holding its Country Christmas Bazaar on Friday, Oct. 23 from 11 a.m. to 9 p.m. and on Saturday, Oct. 24 from 10 a.m. to 3 p.m. The bazaar features a variety of unique crafts, a silent auction, gifts and food booths, a Harvest luncheon on Friday and chili supper on Friday night. The church is located at the intersection of Church and Brainerd, which is one block west of Milwaukee Ave., three blocks north of Rte. 176 in Libertyville. For further information call 362-2112.

Millburn

Millburn Congregational United Church of Christ, Grass Lake Rd. and Rte. 45, will honor Marguerite Messersmith's many contributions to the church and community and marks the 50th anniversary of Lauren and Marguerite Messersmith coming to Millburn Church on Oct. 11. The celebration begins with worship at 10 a.m. For information call 356-5237.

Kenosha

The Adult Religious Education Committee of Bradford Community Church Unitarian Universalists, located at Kemper Center Chapel, 6501 Third Ave., Kenosha, Wis. presents a book discussion based on "The Good Society."-Ethical Politics: the needs of today's "hungry" America. The discussion will be held Saturday, Oct. 10 at 7 p.m. Call (414)694-2126 for details. Also, Sunday, Oct. 11 presents "Interweave, Creating a New Vision."

Tragedy shapes priorities for this Warren lineman

by STEVE PETERSON
Lakeland Newspapers

Football season was still five weeks away when Jake Reichert and a group of his friends traveled to Milwaukee.

But what was planned a fun summertime excursion north turned tragic. A passenger, Dennis Reich, in the automobile driven by Reichert, died after the July 6 accident. Reichert was transported to St. Therese Medical Center. Wearing No. 78 was not on his mind.

"Football has been my life. I have played for seven years," Reichert said. "I just got back to practice last week. I wasn't practicing, but I was running and lifting the whole time I was out," Reichert said.

The six-foot-three inch, 225 pound defensive lineman reported back to the team Oct. 1, completing enough of his rehabilitation work to play. "I had to do lower back rehab. I did not think I would ever be able to play again," the 16-year old said.

But the story turned brighter this Homecoming day, an 18-0 win over Mundelein. Reichert not only got to play, but started as disciplinary problems forced

lineup changes.

With Warren ahead 2-0 on a safety Mundelein tried a quick-kick by Steve Schueler on a third and 22 play. Reichert teamed up with Andy Akyol to block the ill-fated attempt. That led to two fourth quarter scores, a Mark Leginski 10 yard

Overtime

pass to Brandon Schild and a short pass to Bob Olson which he turned in for a 32-yard score.

"We did not get him off medical to Oct. 1. He worked with us, practiced with us, did everything necessary except the contact," Warren Coach Reggie Hughes said.

"I would hope the incident makes him appreciate everything more. The fact that hey, everything is riding in all the right directions, then one brief moment. Potentially, it could have changed his future because he could have been eliminated from football in whole. Boy, doesn't that change your lifestyle. All of a sudden, football is not that important. A

lot of things are not that important," Hughes continued.

The Warren coaching staff saw the talents of Reichert as early as last year. He was called up to the varsity as a sophomore for the post-season playoffs. "I saw him as a starter this year. I'll take him and we will try and push toward next year. I hope he would put a lot more value in everything in his life — everything. The things you used to take for granted really become paramount," Hughes said.

What happened?

When last week started, the area boasted three, count em, three unbeaten teams. Now there are none. Joliet Catholic (26-7 winners over Carmel), Marian Central (37-29 winners over Wauconda) and Lake Forest (41-0 winners over Libertyville) took care of all that. So, the top five starts with the hottest team: Stevenson, winners of four straight at 4-1 followed by Carmel, Libertyville, Warren and Lake Zurich.

Repeat?

If the Johnsburg-Round Lake game is anything like last year, Round Lake High will not be a good place for blood pressure checks on Oct. 9. The Skyhawks beat the Panthers 34-32 for the first time as Matt Christman scored with 10 seconds left.

From the going-down-with-the ship department:

This award clearly goes to Grayslake quarterback Jason Lake. Lake, a junior, found three Johnsburg defenders trying to bring him down but several times managed to tuck the football in and run for yards or get off throws. "I don't know if it is so much ability as it is desire. The kid tries so hard to make a play happen. He's hard to bring down when he runs the ball," Coach Bill Johnson said.

Lake completed two touchdown passes to Bob Witt, one for 69-yards, to provide the Rams highlights in a 46-13 Homecoming loss to Johnsburg.

Rams' spikers team to beat in NWSC volleyball race

Grayslake High's girls volleyball team used an overpowering second game to finish the second-third of the Northwest Suburban Conference season the same result as the first, improving to a perfect 10-0.

Wauconda gave the Rams a run for the money in the first game, losing 15-11. The second game was all Grayslake in a 15-6 win.

"It was teamwork. We just started clicking. We started talking some more," Grayslake's Julie Davis said.

Davis had three kills and 24 assists. Deb Giannakakis and Allison Waldenstrom led the way in serving with 10 and nine points, respectively as the Rams moved to 16-2 overall.

"We have a tendency to only play only one game in a match very well. If we could play two games in a match very well. If we could play two games in a match as well as we play the best game of the match, we can be much more competitive. We have four losses lost 16-14 or 15-13 in the third game," Wauconda Coach Tracey Wolff said.

The Bulldogs, 4-7 in the NWSC, were successful in a strategy move designed to take away Grayslake's net play.

"This was a tougher match than the scores indicated. They were well-prepared for us," Grayslake Coach Dan Stacey said.

"Natalie Ward — we put her on the outside to let her be a hitter. She is really come around as a hitter. We moved her back to a blocking position and told her to go wherever Waldenstrom we wanted her to be right on it. That was intimidating," Wolff said.

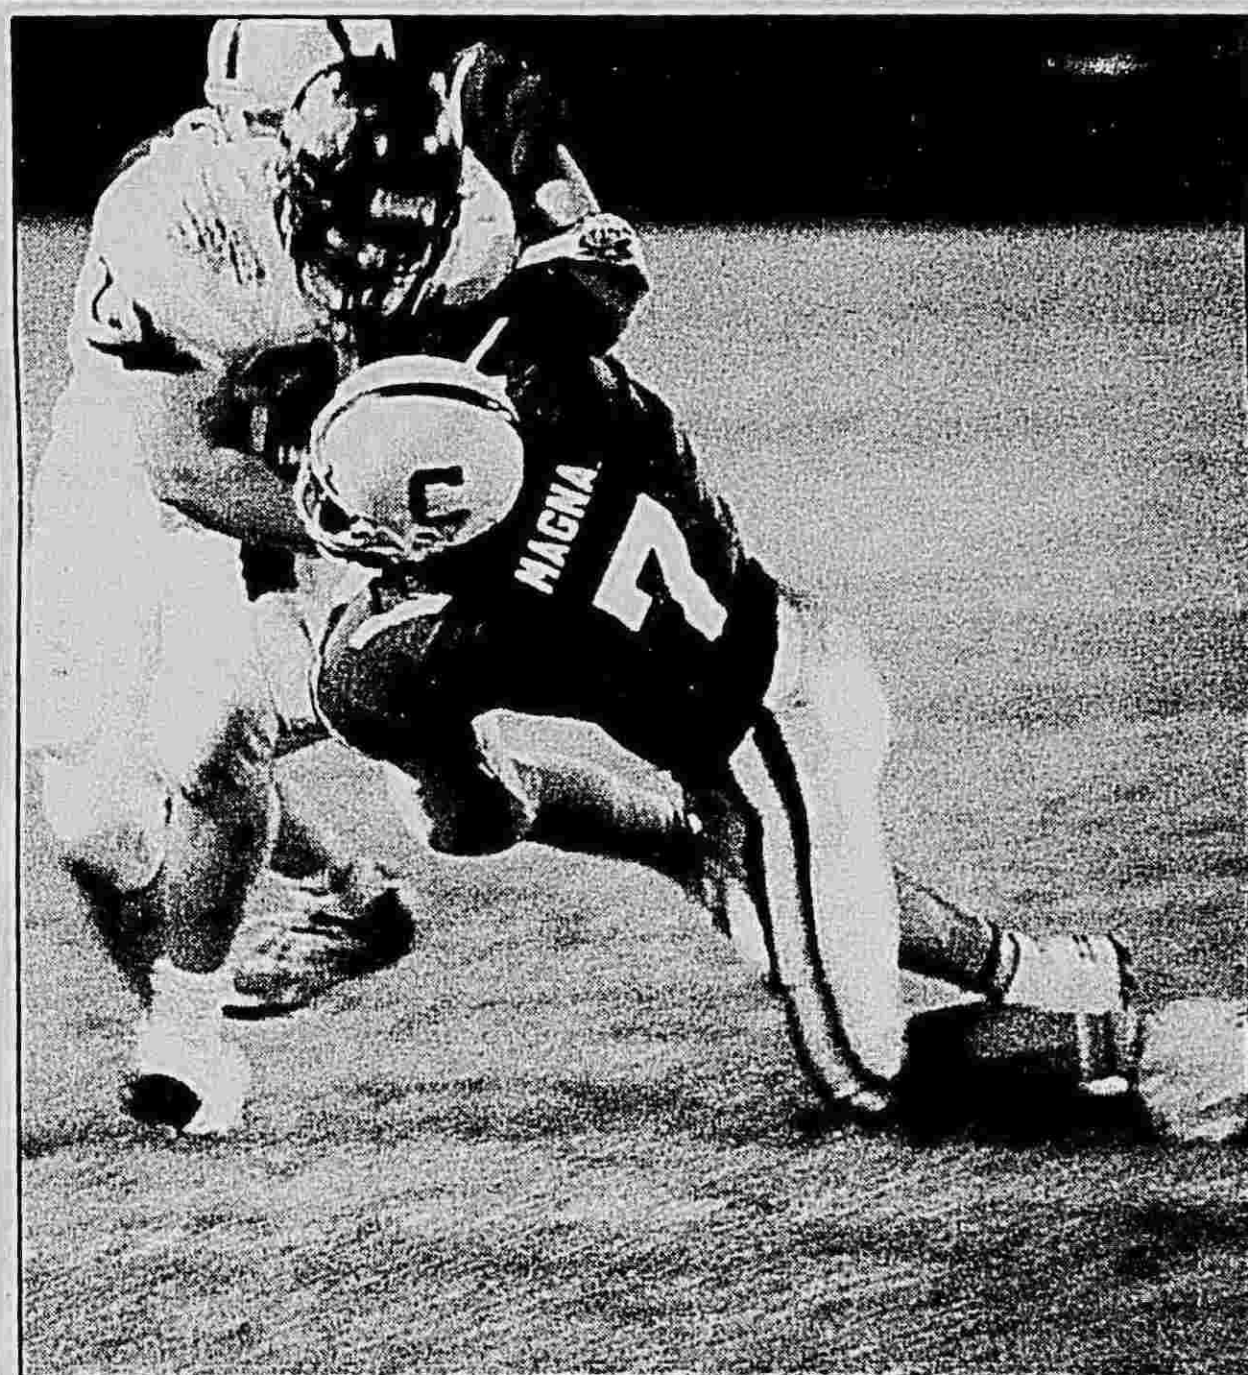

Waldenstrom, who was named Homecoming queen two days earlier, was not about to be stopped. She had four straight aces in the second game as Grayslake increased the lead to 6-2.

"Allison knows where to place the ball. She is such a smart player," Stacey said. "The girls are real confident. They know what they have to do. They know if the score is tied, they have to put the ball in play. They know each other's moves and who will take what ball. I was concerned with our intensity. Maybe we are getting a little too cocky."

Grayslake hosts Johnsburg Oct. 13 while Wauconda is at Marian Central Oct. 15.

"Our adjustments were very effective. If we could correct our serving reception and serves we do miss have been in most glaring spots and we have to be able to serve under pressure," Wolff said.

Kristin Wisniewski, a senior, continues to be the leader in hits for the Bulldogs. Julie Lambert has been contributing key blocks and Jenny Kirk has been a key setter.

No more progress

Carmel's Rudy Magna strives to bring down a Joliet Catholic runner. Hilltoppers gave the Corsairs the first loss of the season in 26-7 win. Carmel is at Marist Oct. 9.—Photo by Gene Gabry.

Grant, Round Lake set for second league tests

by GREG MILLER
Lakeland Newspapers

Round Lake will try to stay on a roll, while Grant will attempt to put on the brakes in a pair of Northwest Suburban Conference games this week.

The Panthers (2-3) won their second straight by beating the Bulldogs 25-14 last week. Grant (2-3) has lost two in a row.

Round Lake has a little score — or a small margin — to settle with visiting Johnsburg Friday night. Last year, the Skyhawks' Matt Christman scored on the final play of the game to upend the Panthers 34-32.

"It should be a great game — another barn-burner," Round Lake head coach Mike Dunn said. "We both play real

tough non-conference opponents. We've won two in a row and we're starting to put the pieces together. And we're getting healthy."

Johnsburg (2-3) whipped Grayslake 46-13 last week.

"They (the Skyhawks) throw the ball very well," Dunn said. "They run a lot of unique formations and they're the best bootleg team we've seen this season."

Saturday, Grant will visit the other Bulldogs on the block — Wauconda. Marian Central handed Wauconda (4-1) its first loss 37-29 last week.

"They (Wauconda) have one of the best quarterbacks in the league in (Byron) Johnson," Grant head coach Mark Barczak said. "They're really explosive. Even

though they got beat, they still threw up 29 points. It's going to be a challenge."

The Round Lake-Grant contest quickly turned into a real challenge for the Panthers when the Bulldogs jumped up 14-0 in the first quarter. Lou Notriano ran back the opening kickoff 95 yards for a touchdown, and quarterback Shawn Powers (13 of 26 for 172 yards) followed with a 4-yard TD run.

Offensively, the rest of the game belonged to the Panthers. Harry Gibson scored on runs of 1 and 5 yards, Luke Tesch scored on a 41-yard scamper and Vinnie Lira caught a 31-yard TD pass from Robert Swanson.

The 5-foot-10, 170-pound Lira finished with 113 yards rushing and had a 61-yard

punt return called back, and Dunn said he was just as valuable on the other side of the ball.

"It was probably the most complete football game any kid has played for me in 25 years," Dunn said. "He never comes off the field. He plays hurt. He's as valuable on defense as offense. I think he's the best player in our league."

Grant's Tim Culotta caught six passes for 106 yards against the Panthers.

"The last two weeks, we've lost two heartbreakers," Barczak said. "We made some mistakes, and they have a good ball club and they took advantage of them."

Barczak said sometimes adrenaline isn't enough. "Because we're a younger team, we're playing on a lot of emotion."

Vikings know the mission: beat Express by 14 points

by STEVE PETERSON
Lakeland Newspapers

The number 14 has served at least one Chicago athlete quite well, thank you. Banks was No. 14 as he endured the heart of Cub fans for decades.

When it comes to semi-pro football, the No. 14 represents the difference between playing out the string or staying in the post-season hunt for the Lake County Vikings.

"We have to beat Milwaukee by 14 or more points," Vikings Coach Russ Kraly said.

Kraly was speaking moments after the Vikes (3-5) were bombed by national power Racine 68-0.

The Milwaukee game will be the final home game of the year, at 6 p.m. at Round Lake High.

Doing most of the damage

for Racine was No. 29 — Darnell Marshall. The second-year wide receiver out of Carroll College scored five touchdowns.

"The whole team played great. After practice, myself and Mike Tweet try to race each other back to the locker room," Marshall said. This night in Racine, it would have taken a Raider to flag down Marshall as he scored on an 84-yard punt return, runs of 76 and 74 yards, a 13-yard pass and a 10-yard run.

"He has more speed than our collective team. You can't play against that kind of speed. If you let him get into the open, he's gone."

The Raiders have allowed just 15 points this year but it looked like the Vikes were going to add to that. Walter Tesch returned to the team to quarterback and

threw a 40-yard strike to Rick Starosta. The Vikes brought the ball to the Racine one, but two key penalties pushed them back and Tom Vergis missed a field goal. Vergis had had a field goal in a 14-3 loss to Palos-Orland Park Force and an extra point in the previous week's win over Gary.

"We had a couple of good things here and there, but we could not get anything together. Little things cost us," Kraly said.

"Against a team like this, you cannot. The Raiders were poised to take control early, but the Vikes stopped them on the short-yardage plays. The Raiders were upset that they could not play fellow ranked Palos last week due to field conditions. In the Midwest Football League, it is not nice to have upset Raiders.

Wildcats defense looking to shut down hot Patriots

Libertyville's defense will be the main factor in determining whether the Wildcats emerge with a win or not in their 1 p.m. game against Stevenson Oct. 10.

Defense was not a major factor in Libertyville's 41-0 loss to Lake Forest, according to Head Coach Dale Christensen. The loss was Libertyville's first of the year.

"We didn't move the ball offensively, we lost the edge up front," Christensen said. "I felt our defense was good enough to win."

With Stevenson's "smash-mouth" offense,

Christensen said the Wildcats will have to come off the ball defensively. The Patriots (4-1, 4-0) come into the game riding on a four-game win streak after a 29-6 win over Zion-Benton.

"They have to attack right now and then pursue," he said. "We will have to have a team pursuit. That's what happened with the offensive line with Lake Forest. They have a finesse type offense with the option that makes it tough to defend."

Despite the defensive difficulty, the Wildcats created five turnovers for Lake Forest, and that "isn't easy

to do with a team like Lake Forest."

The key turnover Libertyville had was near the end of the third quarter. The Wildcats were in the endzone a number of times "but we couldn't convert," Christensen said. It was a decisive turnover, we would have been 21-7 at that time."

Earlier in the game, junior quarterback Andrew Robertson connected with senior Jon Kazmierski on a 35-yard pass to set up for a field goal, but the kick was just wide. The score would've been 7-3.

Carmel looking to regroup

After the 26-7 loss Carmel suffered last week, the Cosairs will regroup and travel to Marist for an 8 p.m. conference start on Oct. 9.

Because offense took part of the blame for the loss, according to Head Coach Michael Fitzgibbons, the Corsairs have been working on offense this week to strengthen their defense.

"The defense is predicated on the offense and the offense shut us down," he said.

As a team, Carmel's offensive yards totalled minus 11, while Joliet Catholic acquired 381 total yards.

Early in the third quarter, after the Hilltoppers' Mike Larsen ran 60-yards on Joliet Catholic's first score and rushed one-yard for

their second, Carmel's Dan Medina recovered a fumble on the Hilltoppers' 12-yard line which began a three-play touchdown score by junior quarterback Tony Longmire to up the score to 13-7.

Knights upset in playoff

When the Lake County Knights recall their first semi-pro season, a re-occurring theme may be heard. "We were never really out of any game," Coach Tom Nelson said.

The Knights picked a bad time to start a new mode, as they lost 22-6 to the Chicago Chargers. The loss ends the Knights first season at 3-5. The Knights

had beaten the Chargers.

"If we would have played half as well as we did against the Untouchables (an 18-13 loss), we would have won," Nelson said.

Ex-Vikings quarterback Sam Toia threw two touchdown passes, both to Tony Derka as the 3-6 team moves on.

Rodney Coleman, as has been his custom, provided

the Knights with the highlight, a 93 yard third quarter kickoff return. He followed his blocking and simply outran the defense," Nelson said.

But by then, the Chargers were up 22-0.

Nelson saw several positives as the first year drew to a close at Gately Stadium in Chicago.

Wauconda defense stung, aiming to regain its form

The Wauconda Bulldogs may still be figuring out the registration numbers of those football arials flying over Wauconda High.

Was it a 747 maybe? A Concord? No, actually the 21 strikes came from the arm of Marian Central quarterback Dirk Stanger. Ten of those strikes hit the target and the end result was 182 MC yards and a 37-29 win.

"He is a good quarterback. We knew that all along. We wanted to cover deep and not go after him. That was one of the keys to the game," Wauconda Coach Bob Kasper said.

The Bulldogs, although slipping to 4-1 overall, 0-1 in the NWSC, are still in a

good position as they prepare to battle Grant (2-3, 0-1) Oct. 10 at 1 p.m. in the Homecoming game. "Grant is greatly improved. They (first-year coach Mark Barczak) have made changes with a different attitude," Kasper said of the Bulldogs from Fox Lake. "Our goal is to be in the playoffs and we are not going to pack it in after one loss."

Wauconda QB Byron Johnson did not have a bad game, in fact, his would have been the headline in any contest without Stanger on the opposite roster. He was eight-for-13 for 135 yards with one interception. That pickoff was a costly one, as Pat McGinnis ran it in for a 15-yard TD which

iced the win.

MC struck first, as Stanger threw the first of his three TD passes, to Bill Burmeister and Chris Hadlick sprinted free from the 45 for scores.

Randy Brill, Wauconda's leading rusher, scored on a four-yard run set up by a Dan Ritchie interception. Johnson found Brian Kunizar open in the end zone for a nine-yard strike.

But the Hurricanes scored eight points in the second quarter's final minute, and were ahead 21-14 at half-time.

After the two teams traded TD's, Wauconda stopped MC from inside the three-yard-line. But that led to a Marian safety.

Johnson scored on a one-yard run as Wauconda rallied. Kevin Cajda caught a

two-point conversion, cutting the lead to eight. Wauconda tried an on-side

kick with 4:15 left, but MC recovered it and regained control of the league race.

Patriots' defense quietly improving to keen force

Although not getting the fanfare of, say, the Lake Forest offense, the Stevenson defense is quietly asserting itself as a force in the North Suburban Conference football race.

"We're getting better and better both offensively and defensively," Coach Bill Mitz said.

The Patriots (4-1, 4-0 NSC) travel to Libertyville for a 1 p.m. game with the Wildcats Oct. 10.

Senior captain J. B. Gilmore is the Pats leading tackler after five games, while fellow linebacker Roger Redmond and tackle Brian Birckbichler also have

been leaders. The defense turned in another fine show in a 29-6 win over Zion-Benton. The Zee-Bees only score came on a 58-yard punt return by Coco Patton.

"Other than that, we held them to about six yards offense," Mitz said.

The Pats welcomed back the full compliment of running backs. Faraji Leary had 19 carries for 92 yards and caught an eight-yard touchdown pass. Gus Steger, a senior captain, had 99 yards in 14 carries and Jason Cato had 12 carries for 54 yards.

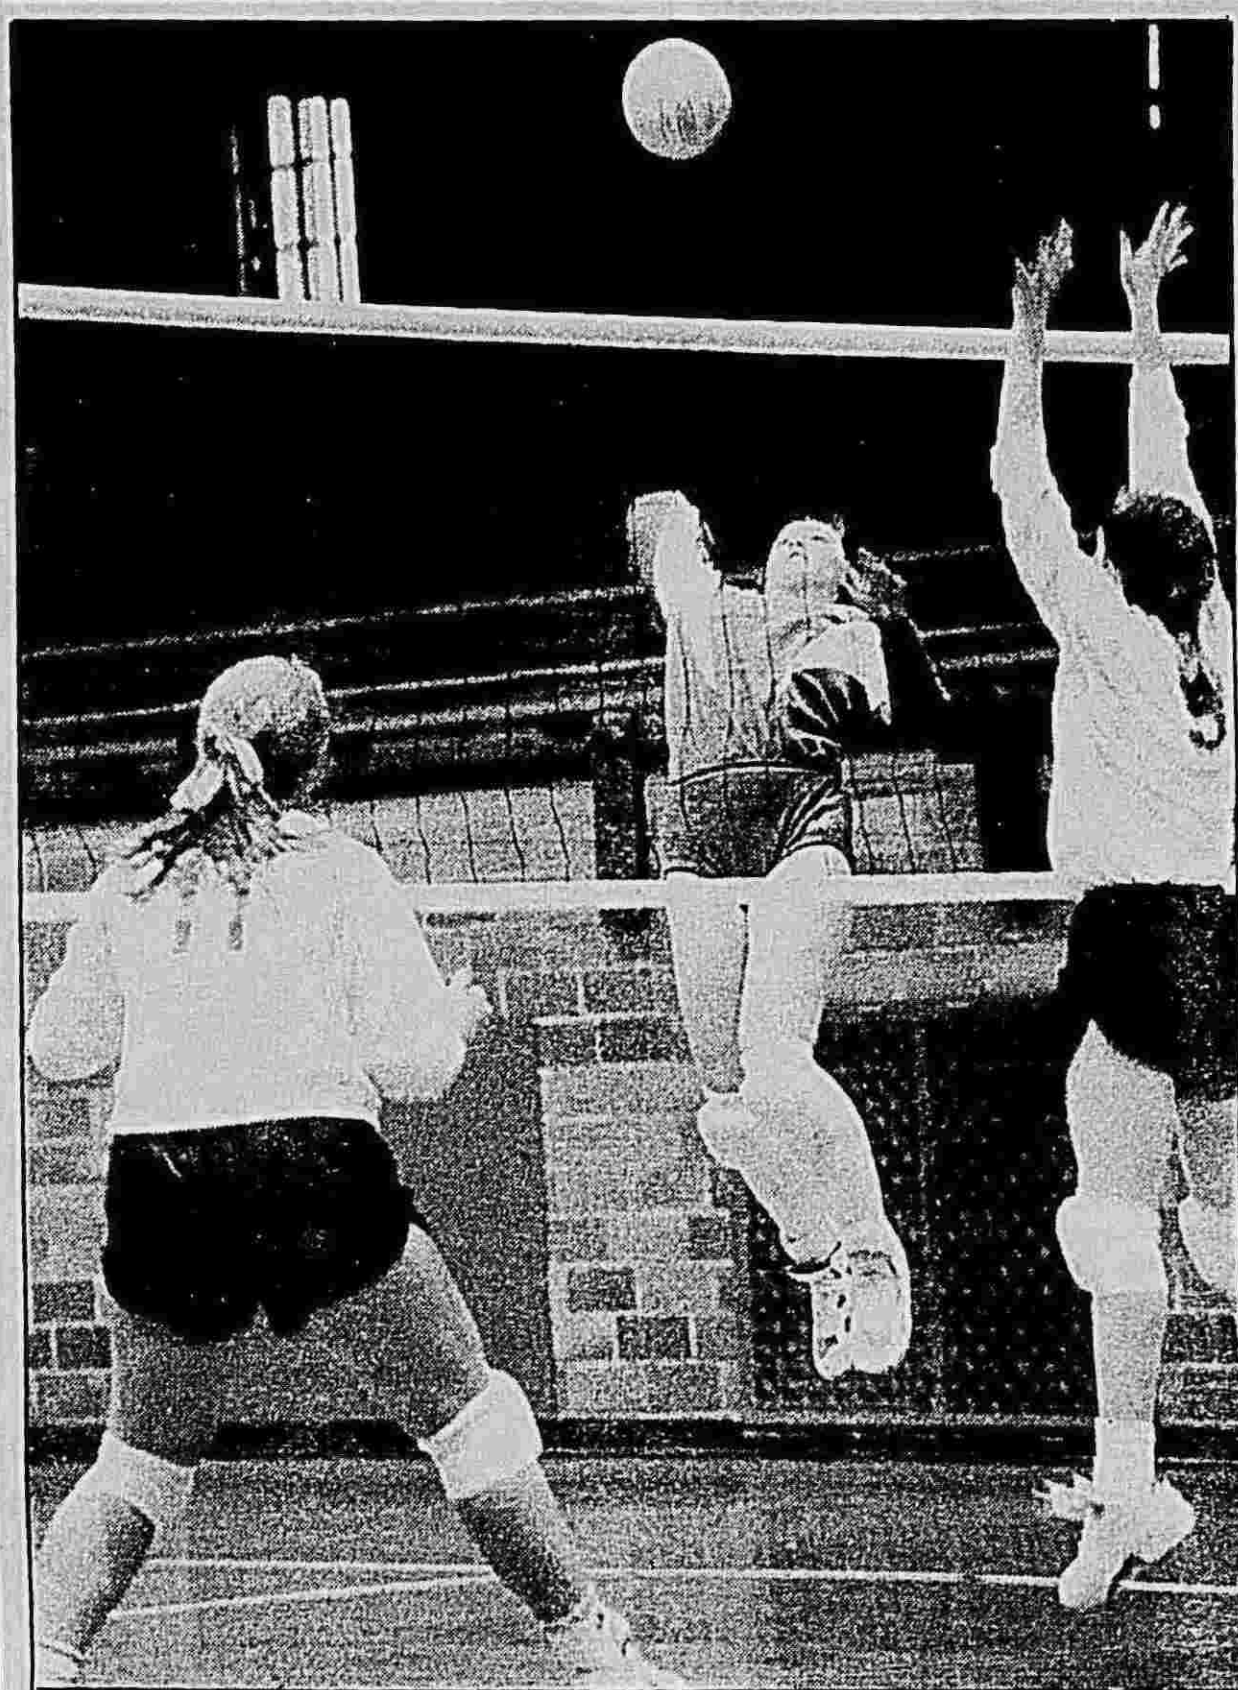

Leary, out for the Mundelein game because of disciplinary problems,

started the scoring with the eight-yard TD strike from Nate Smith. Smith was five-for-12 with 89 yards.

Nick Mortorano snared in the second TD pass catch, a 16-yarder for a 14-0 half-time lead.

Cato capped off a fourth-quarter drive with a one-yard TD run. The reserves completed the scoring with a one-yard run by Justin Lockard.

Libertyville is coming off a 41-0 shellacking at the hands of league-leading Lake Forest. The Pats must duplicate the Scouts' effort of slowing down versatile Andrew Robertson.

Going for a kill

Stevenson's Jessica Goulding sets up for a kill past two Libertyville defenders. Stevenson won North Suburban Conference showdown in two games. Stevenson is at Warren Oct. 14.—Photo by Gene Gabry.

Don a jacket to enjoy spectacular days of autumn

As you bid farewell to those lazy, hazy, crazy days of summer, don a jacket and prepare to enjoy the crisp, fresh, spectacular days of autumn. What do the falling temperatures and shorter days mean to tree leaves? According to Michelle L. Eggers, Horticulture Educator with the University of Illinois Cooperative Extension Service in Lake County,

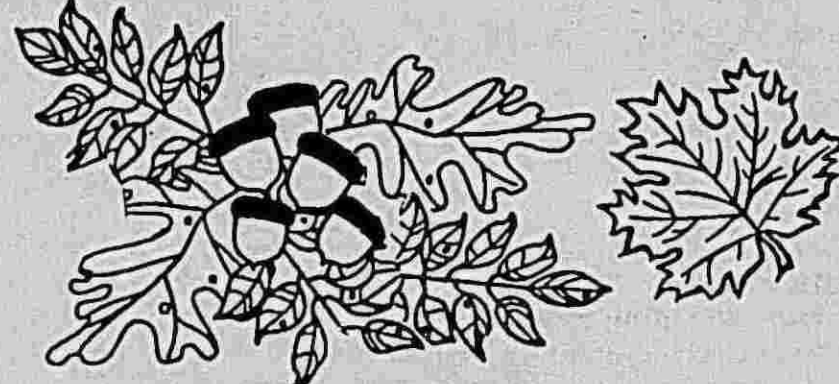

this colorful question poses no great mystery. Leaves owe their fall colors to genetic and environmental factors. Inherited traits remain constant, but the changing environment explains why some years produce a breathtaking display, and other autumns result in disappointing colors. Similar to the way one person inherits brunette

hair and another one blonde, trees turn different colors depending on inherited red, yellow, and orange pigments. Expect your best fall color when the environment provides a favorable growing season followed by clear autumn days and 40 to 45 F nights; hard frosts blacken leaves and cause them to fall early.

Green chlorophyll, which manufactures food inside the leaf, masks the yellow and orange pigments you admire each fall in the maple, ash, birch, hickory, sycamore, cottonwood, poplar, black

cherry, and alder. With the onset of cool weather and shorter days, chlorophyll breaks down quicker than replacement occurs, allowing the carotenoids and xanthophylls (yellow and orange pigments) to take center stage.

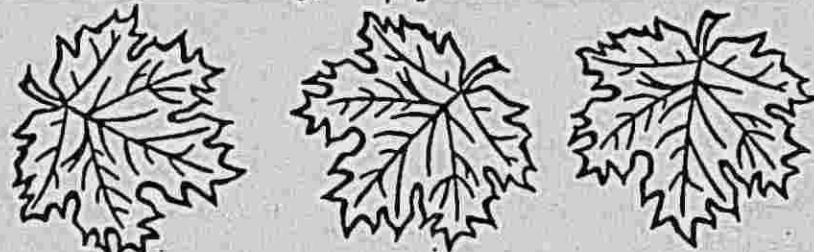

Unlike the carotenes, the red and purple colors produced by anthocyanin pigments aren't present during the summer but develop in autumn. During the growing season, a large supply of phosphates in a leaf breaks down sugars for the tree to use. These phosphates migrate into the stem when fall weather sets in,

allowing for sugar accumulation and anthocyanin production. Snap a few photos of maple, oak, dogwood, and viburnum to capture the bright autumn reds and purples.

What should we expect this year? The inherited pigments stay the

same every year, so the answer lies in the 1992 growing season. Although we experienced a dry June, the rest of the season was adequately moist. If this fall produces some clear days and cool evenings without an early frost, prepare yourself for some attractive autumn leaf color.

Fall Foliage

Lakeland
Newspapers

Set aside time this fall to bottle blooms for spring

What do cannas, caladiums, dahlias, gladioli, and tuberous begonias have in common? Besides producing gorgeous blooms or foliage all summer, none of them usually survive Lake County winters says Michelle L. Eggers, Horticulture Educator with the University of Illinois Cooperative Extension Service. If you want to see these same beauties in your garden next year, set aside some time this fall to ready them for winter storage.

Caladiums (elephant ears) and tuberous begonias require similar preparations. After seven or eight months of growing, these tubers need a well-deserved rest. Dig them up after the first frost to rescue the tubers, even if you grow them in containers which you bring inside. Remove the foliage, shake off any

excess dirt, and dry them in a warm, well ventilated place for several days. Store caladiums and begonias in a container filled with dry peat moss, vermiculite, or perlite in an airy, dry, frost-free (40-50 degrees F) room throughout the winter.

On to cannas, which seem to multiply readily and give you the opportunity to share with your friends. After the first frost, cut back the stalks to four inches, and dig up the rhizomes. Keep as much soil as possible around the roots, and let them dry for several days. Store your cannas in a cool, dry, well-ventilated area until you plant them next spring.

Storing dahlias requires some extra care since they tend to dry out easily. Dahlia tuberous roots connect by a thin neck to the central grow-

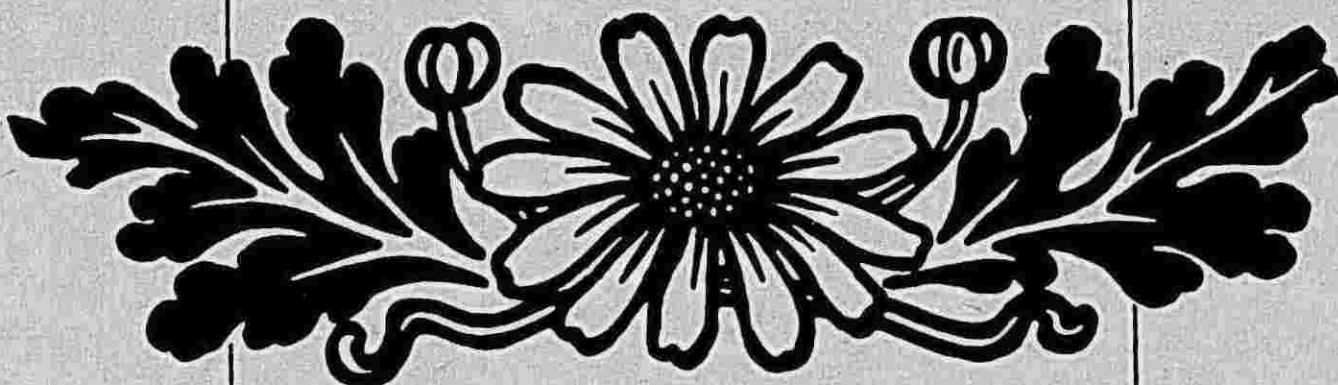

ing point. Dig them after frost with care because tuberous roots become useless when broken off at that thin stem. Cut the foliage to four inches, and remove excess dirt. Overwinter them in dry peat-moss and a cool, dry, well-ventilated room. Wait until spring when you can see the growing points before dividing dahlias.

Gladiolus foliage needs four to six weeks to cure after blooming, although most people wait until after frost to dig them up. With the late blooming season and early cool weather this year, four to six weeks after blooming may equal the first frost! Lift corms out of the soil, cut the foliage to 1 1/2 inches, and shake off the extra soil. Dry them in your garage or similar place for two weeks, then separate the old corm from the

young ones. Place gladiolus in onion sacks or other breathable containers, and place them in a cool, dry, well-ventilated room.

With any of these tender specialized structures, discard diseased, insect-riddled, or otherwise suspect bulbs, and store the remainder. Dust them

before storage with a fungicide containing Thiram according to label directions if you think diseases may pose a problem.

Watch for yellow-bellied sapsucker

Now that migrating birds fill the skies, beware of a visit from the yellow-bellied sapsucker. This member of the woodpecker family feeds on sap in trees and shrubs, creating an attractive entrance for insects and diseases.

This sapsucker enjoys winter vacations spent in the southern states and Mexico, journeying north to the Rocky Mountains and east to the Atlantic for the summer. Every spring and fall, some pass through the Lake County

area to show off their red head and throat, dull yellow belly, and black-and-white striped face.

These attractive birds drill holes in trees (usually pines) in a horizontal or checkerboard pattern, often returning to the same tree every season. The birds eat the cambium as well as the sap, but their diet also includes insects and a variety of berries. Damage may occur if they continually visit the same trees, so check out tree trunks in your landscape for the tell-tale holes.

actual drilling may cause some branches to die, but he possible result of insect and disease invasions poses a more serious threat.

Discourage further visits by putting a rubber snake or fake owl in you tree, moving the decoys occasionally to create authenticity. Hanging strips of aluminum foil from tree branches, or wrapping the affected trunks with burlap during the migratory season may also deter their visits.

Fall equipment stow away: taking proper precautions

An often overlooked autumn task is taking all the proper precautions to make sure lawn mowers, weed trimmers, and other motorized equipment will work well when called upon next season. Once that lawn mower has made its last swipe, some simple actions can insure that it will start easily and run well in the spring. Even if you forget to do these things until December, it still will improve your start-up next year if you will perform the following steps.

First, equipment should be thoroughly cleaned. Those little clumps of grass in, around, and under the mower will be like cement in the spring. Clean them off now. Next, check blades, lines, etc. to see if they need sharpening or replacing. Don't wait until you are ready to mow. You can have them set up now, when service shops are less busy and time is available.

One of the most important jobs you can do is to fill the gas tank with fuel and treat it with STA-BIL Fuel Stabilizer. Over 30 equipment manufac-

turers including Echo, Coleman Powermate, Snapper, Walker Mowers, Winco and others recommend this procedure. Running engines dry will help reduce deposit formation caused by fuel deterioration, but treating fuel with STA-BIL not only prevents deposits, it also allows fuel to protect metal surfaces from rust and corrosion that can occur when engines are run dry. So STA-BIL treatment is a better way to go.

Incidentally, repair

shops report that the number one cause of spring starting problems is deposits from deteriorated fuel. Ever wonder why lawn mower spark plugs need replacing so often? Hardened, aged fuel deposits—that's why.

While you are at it, it is a good idea to treat all gas used for snowblowers and snowmobiles with stabilizer. Fuel can sit in gas cans and tanks for months before being used. Since most fuel deteriorates in two months, treating it in the tank or gas can with

STA-BIL can save a lot of starting problems. You can probably throw away that can of ether (starting fluid).

The final concern for storage of equipment is where to store. The best place is in a well ventilated building. The garage is fine because it is aired out frequently by opening

and closing doors. If a shed is used, it should be aired out every month or so by simply opening the door for an hour or two.

The equipment should be covered even if left inside a shed or garage. This will help maintain a constant temperature to prevent water from condensing out of the air onto and

into the engine. If the equipment must be stored outside, put at least two layers of covering around it, one to insulate and one to protect from rain.

These simple procedures can save a lot of trouble next year and keep your winter equipment ready to start when that big storm blows in.

Give house plants room to grow

Don't forget to provide your indoor house plants with room to grow, says the American Assn. of Nurserymen (AAN). When a plant's roots begin to fill the container and grow out of the openings in the bottom of the pot, the plant should be repotted.

Whether you choose clay, plastic or ceramic containers, look for a pot one size larger than the pot you are currently using.

Repotting your plants into an overly large container is as bad as keeping them in an overly small one. In a pot that is too large, there will be too much soil. The soil, in turn, will retain more water than the plant's roots can absorb and the result will be root rot.

To get your repotted plant off to the best start, AAN suggests you:

- Place a layer of gravel or other drainage material in the bottom of the pot underneath the soil.
- Use one of the commercial potting soils. They provide house plants with fertilizers, water retention properties and enhanced drainage.
- Scoop the new soil to the sides of the pot to make a place for the root-ball of your plant. Place your plant in the middle of the new container. Fill in and around your plant with soil, but be sure not to add soil above the original soil line.
- Firm the soil lightly and water the plant until you see excess water draining out of the pot.

Post Office changes prompt retirement of postal workers

Antioch Postmaster Jerry Parrish and three other post office employees accepted a retirement incentive offered by the U.S. Postal Service and retired from service on Oct. 3.

Other Antioch postal employees retiring with Parrish included Carrier Larry Dullinger and Postal Clerks Carol Buchta and Jean Irving.

Until a new Postmaster can be chosen, Antioch Postal Officer Jerry Bohmann has been named Officer in Charge of the Antioch Post Office.

According to Parrish, who is a 30 year postal veteran and has been Antioch's Postmaster since 1988, Postmaster General Marvin Runyon announced a restructuring of the Postal Service that is intended to eliminate next year's projected deficit of \$2 billion.

This restructuring should also hold postal rates steady at least through 1994, said Parrish.

"This plan includes reducing the number of

postal employees and managers nationwide by at least 30,000," said Parrish.

The overall restructuring plan will primarily affect national, regional and divisional offices, although there also may be some changes at local post offices around the country.

"The plan is intended to improve and protect service quality and increase customer satisfaction during restructuring and beyond,"

said Parrish. "Plans will include new independent measurement systems for more types of mail, a satisfaction index for business customers, new, higher service goals for 1993 and future years, and improvements in retail service."

For any problems or complaints about your mail service, Officer in Charge Bohmann urges customer to call him at 395-0097.

Local resident wins award

Jon-Christopher Parkman, the son of Mr. Dean Parkman of Lindenhurst, received the Freshman Scholar/Athlete Award during the opening convocation ceremonies at Lake Forest College, Lake Forest.

The Freshman Scholar

Athlete Award honors the member of the freshman class who maintained the highest academic record as a varsity athlete.

Parkman, who is a mathematics major, is a graduate of Antioch Community High School.

Club in action

Antioch Junior Women's Club members Sue Lengvenis and Carolyn Jester helped fill boxes with needed food for Hurricane Andrew victims in Homestead, Fla. The women's Club sprang into action to send clothing and non-perishable food items to the disaster region through the Antioch United Methodist Church. The relief effort was organized by volunteers from the various Antioch clubs and organizations.

More For Less Is Best. That's Common Sense.

No charge with a \$100 minimum balance.
Common Sense Checking.

In today's world, where every hard-earned dollar counts, a little common sense goes a long way. That's why we offer Common Sense Checking. As long as you maintain a \$100 minimum balance you can eliminate checking fees forever. Common Sense Checking can help you save in other ways too. In addition to your first order of personalized checks at no charge and no-fee, unlimited checkwriting, you'll receive all these other valuable extras:

- Earn Interest on Your Entire Checking Balance with \$1,000 min. requirement.

- Accidental Death Insurance
- Nationwide Discount Book for savings on travel, lodging, entertainment, dining and more
- Credit Card Protection
- Key Ring and Lost Key Return Service
- Emergency Cash Advance
- Subscription to Sojourns Travel Magazine

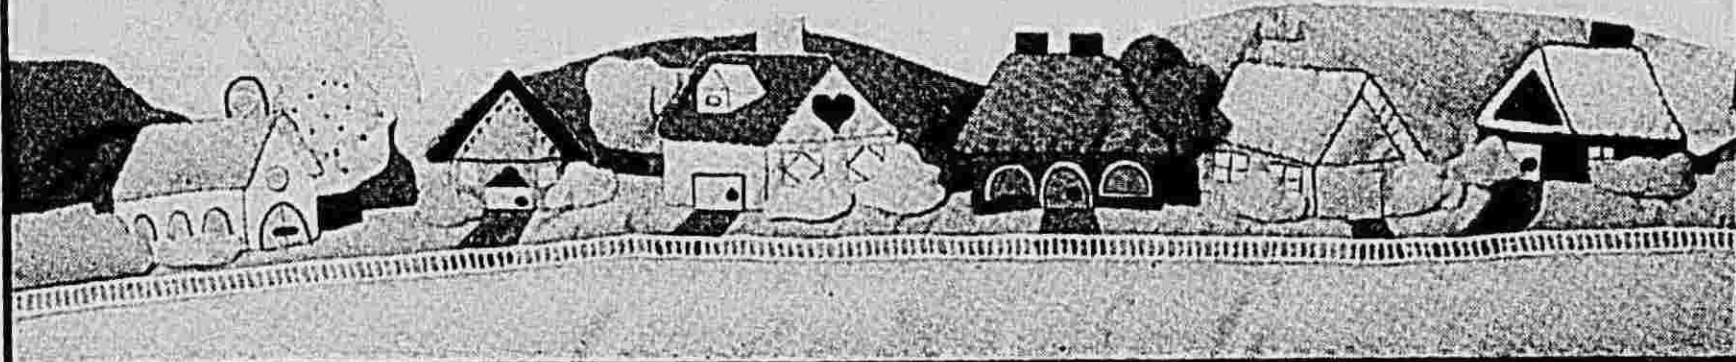

It's not often someone offers you more for less. If the idea appeals to you, come on in and let's talk Common Sense.

Antioch's Morrison wins track crown at Speedway

Mike Frost of Zion won his sixth 25-lap sprint car feature of the season to highlight the finale of Toft Auto Racing's Wilmot Speedway in Wilmot, Wis.

In special sprint races which were held as part of the Carl Nelson-Snap-On Tools Season Championship Night, Frank Filsko of Des Plaines, won the eight-lap feature challenge with track champion Dave Moulis of Johnsburg, making it a clean sweep of sprint main events by taking the checkered in the Miller Sprint Dash.

Kenosha's Allen Winker, the 1991 Wilmot modified champion, won his fourth 20-lap main in that division, but it was North Cape's Lenny Ostrowski Jr. who finished runnerup to Winker taking his first-ever track title for the modifieds.

Dave Holden of Zion won the curfew-shortened final race of the '92 campaign as the automobile service center owner won his first feature ever in the sportsman.

Salem's Glen Vernezz took the lead at the drop of the white flag and pulled ahead to his first-ever feature win in the eight-lap non-stop mini-modified main. Roy Morrison of Antioch, who finished third in the main, won the track title.

Moulis put his Gulf Coast Graphics/Hogue Racing Engines/Fox Lake Harbor/Auto Connection Maxim Chassis into the lead from his pole position in the Miller Dash which

was lined up based on time trial points. Hillerud, who started outside row one, was staying with Moulis until he got caught high on the cushion in turn two and pulled out. Moulis cruised to the victory with Filsko second, Frost third, Dale Peterson fourth and Roe fifth. "The sponsors, my crew, my family and the fans have all been great all year," said Moulis, who set a track record in qualifying with a :13.79 clocking, breaking his own mark of :13.873 set July 25. "It was a pleasant surprise to see Chuck Merrill of Maxim Chassis in the pits and I have to thank him as well."

Joe Graumenz took the early lead in the modified main with Winker putting his Palco Auto Parts/Dave's American Muffler and Brake Shop/Winker Edge Chassis in front using the inside in turn two on lap three. Ostrowski ducked inside Winker on lap four as the two went wheel to wheel until a red flag came out on lap five when Larry Vandervere snapped a drive shaft on the backstretch resulting to a foot and ankle injury which required his being transported to an area hospital.

Holden put his Dave's American Muffler and Brake Shop/Defillipo Masonry/Winker Engineering/Corkscrew Lounge Lumina into the lead at the start of the sportsman main and held it throughout four yellow flags which hampered the race progress and ultimately resulted in a yellow/checkered flag due to the curfew. Cautions came on laps six, seven and eight with Holden each time able to keep track champion Dennis Kratz behind him.

The Annual Toft Auto Racing's Wilmot Speedway Awards Banquet will be held on Saturday, Oct. 24 at Maravella's Restaurant in Fox Lake. Cocktails are at 6 p.m. with a sit-down prime rib dinner served at 7 p.m., awards to begin at 8 p.m. followed by music and entertainment by Tiny Anderson and Prime Time Entertainment. Tickets are \$18 each and must be purchased in advance by sending a check or money order to Toft Auto Racing, P.O. Box 786, Antioch, IL 60002.

Athlete of the Week

Congratulations to Charles Miles for being selected the first Antioch Community High School Athlete of the Week for the 1992-93 school year. Miles was a medalist in both the golf matches against McHenry (39) and Carmel (42). The First Chicago Bank of Antioch will make a donation to the high school scholarship fund in Miles' name. Pictured with Miles are ACHS Golf Coach Roger Alm and First Chicago President Carl McWherter.

NOTICE TO VACATE STREET

A public hearing will be held at 7:00 P.M., on October 19 1992, at the Antioch Village Hall, located at 874 Main Street, Antioch, Illinois, for the purpose of vacating a certain street, or part thereof, legally described as follows:

THE WEST 69 FEET OF THE EAST 170 FEET (EXCEPT THE SOUTH 1 FOOT THEREOF) OF LOT 80 IN COUNTY CLERK'S SUBDIVISION OF UNSUBDIVIDED LANDS IN SECTIONS 7, 8, 17 AND 18, TOWNSHIP 46 NORTH, RANGE 10, EAST OF THE THIRD PRINCIPAL MERIDIAN, IN LAKE COUNTY, ILLINOIS.

Said Vacation Of Street, or part thereof, and Notice are made pursuant to Chapter 24, Section 11-91-1, IL Revised Statutes, 1991. Said street to be vacated is immediately adjacent to the easterly portion of the supermarket known as Piggly Wiggly, which street address is 460 Orchard Street, Antioch, Illinois. The vacation of the street is for the purpose of selling to the owner of the shopping center, where the Piggly Wiggly is located, a piece of the vacated street approximately 40 feet in width and 250 feet in length to be used to construct an addition to the Piggly Wiggly Supermarket.

All persons desiring to appear and be heard thereon for or against may appear at said Hearing and be heard.

Celebrate National Children's Day this weekend

Come join "The Children's Project" in a celebration of National Children's Day at Lakehurst Mall on Oct. 11 at 1 p.m. The program includes entertainment and a special clown act.

The event has set five goals for National Children's Day:

1. to let people know that there is a National Children's Day set up by

Congress at the urging of many concerned groups and individuals.

2. To educate people on the status of children.

3. To promote play as a means of connecting children and adults.

4. To set goals for next year and compare them with last year.

5. To promote programs and services that enable

children to become healthy, responsible, contributing adults.

"The Children's Project," a national not-for-profit organization is committed to the health and well-being of children. It intends to alter cultural beliefs and

actions concerning children so that children become a major priority in the world. It envisions a global environment in which individuals and organizations produce extraordinary benefits for children and humanity.

Divorce Support Group

The YWCA Divorce Support Group will meet every Monday, 7 to 9 p.m., in the Doctors' Conference Room on the second floor at Saint Therese. For more information, call (708)662-4247.

PUBLIC NOTICE INVITATION TO BID

Warren Township Highway Department 17801 West Washington Street Gurnee IL, 60031 will receive sealed bids for a single general construction contract for the alterations to the Highway Department Maintenance Facility. Bids shall be received on or before 10:00 A.M., October 20, 1992 and at that time shall be publicly opened and read aloud.

The work shall include the removal and replacement of the metal roofing system, installation of infra-red heating system and miscellaneous interior alterations.

Proposed form of contract documents, including plans and specifications are available at Warren Township Administrative Offices, in care of Frank G. Thomas, Highway Commissioner or at the office of J. Michael DeLapp and Associates, Architects, 266 W. Lake Shore Dr., Barrington Illinois 60010 upon receipt of a twenty-five dollar (\$25.00) non-refundable deposit made payable to J. Michael DeLapp and Associates. The bid set consists of three (3) sets of drawings and one (1) project manual.

The contractor shall be required to comply with the Illinois Department of Labor rate schedule regarding payment of prevailing wages for this project.

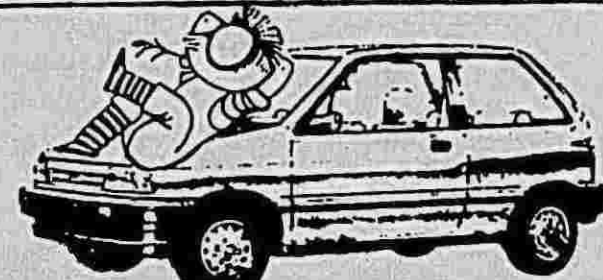

A performance and payment bond for the full contact amount will be required by the successful bidder. A certified check or bank draft, payable to the treasurer, Warren Township Road District or a satisfactory bid bond executed by the bidder and acceptable sureties in amount equal to five percent (5%) of the bid shall be submitted with each bid.

Warren Township Highway Department reserves the right to reject any or all bids or to waive informalities in the bidding. No bid shall be withdrawn for a period of sixty (60) days subsequent to the opening of bids without the consent of the Warren Township Highway Department.

with training to attend to them. I'm sure that if they had to make budget cuts, they could have found something less important to cut. Nurses are a must at our school and we need more angry parents to speak out to our school board.

Connection Is Intercepted

I am so sick of TCI, it's not funny. It is 12:03 p.m. and the Bears' game just started and there goes the cable off. When are these people going to get their act together, or when can we get another cable service in Round Lake. It's not fair that we are being held captive by one cable service that doesn't care whether it's on or off. All they say is that they're working on it. I suggest that all you people who are having as many problems as we are, should not pay this or next month's bill or until service gets better. If everyone does it, TCI should get off their butts and do something about the service.

How About Competition?

Isn't about time for some cable competition in this town. How can professional sports enthusiasts enjoy sports if they get unprofessional service from their cable company.

I Miss TCI

I, for one, miss having TCI of Illinois. I would like to say that the people at US Cable are a bunch of buffoons. My husband and I just moved to Lindenhurst from a community where I had TCI. We were more than happy with TCI. When we moved here, we were treated most rudely by US Cable. I have written countless letters to US Cable to carry the same channels that TCI did. They have not had the courtesy to respond.

Quit Begging

I have a suggestion for "Got a Penny?" Why don't you get a tin can and stand out in front of a department store with all of the other little beggars wanting for my hard earned money. You're lucky enough to go CLC, let alone the college of your dreams. I'm 30 years old and still trying to get through college because of money. Better yet, you could get a job.

I Understand

I'm calling about "Got a Penny?" I understand what this

18 year old person is going through. If this person wants to get a post office box, I'll be happy to send whatever extra money I have at the end of the week, whether it be a penny or a dollar. I think that anybody in Lake County should help her out because a penny may not be much to you, but it could be a lot to her.

Nothing To Do

I'm an 18 year old student who lives in Antioch. There is nothing for teenagers or young adults to do in Lake County. Why doesn't someone begin some club or place with video games where we can go? The closest place there is now is in Elgin. The reason why there are a lot of kids hanging out in Antioch is because there is nothing for them to do.

Sunday Hours Are Great

I'm from Millburn. The Sunday hours at the Lake Villa Library are great. People who complain about the library don't know what they're talking about. This library is a bargain.

Hold Children Hostage

Remember what happened to the Wauconda School District about four or five years ago? They ran up a

million dollar deficit after the town voted down five referendums in a row. Seventy percent of that fund was used for teacher and administrator salary and benefits. The ethical thing for the district to do was to lay off teachers and administrators, and demand salary concessions. Fat chance. What they did, is what the Chicago School Board is trying to do now — hold our children hostage. Wauconda threatened to cut all the sports, cancel homecoming and do away with prom. The school district did get the referendum passed with this type of extortion tactic and highly suspect absentee voter campaign.

Why Not Fly Flag?

I'm a veteran. It grieves me to see some of our schools not flying our American flag on their flag pole. How are we going to teach our students patriotism if they can't even get the American flag up on the school flag pole? Specifically, I noticed that Mechanics Grove School in Mundelein is lacking the American flag. Children are out there playing, which is nice. But when I was a child, I always looked at the American flag on the school grounds. It meant something to me. And being in the service, it meant a little bit more. It would be nice to encourage the public schools to put the American flag on their flag poles and, occasionally, to have their students look at it and to tell them what it stands for.

OFFICIAL PUBLICATION

NOTICE OF PROPOSED CONSTITUTIONAL AMENDMENTS

Pursuant to law public notice is hereby given that the following proposed amendments to the Illinois Constitution will be submitted to the Electors of the State of Illinois for adoption or rejection at the General Election to be held on November 3, 1992.

PROPOSED AMENDMENT TO ADD SECTION 8.1 TO ARTICLE I

(Crime Victim's Rights)

(Proposed changes in constitutional provisions are indicated by underscoring all new matter and by crossing with a line all matter which is to be deleted. Since this proposal is to add a new section, all the text is underscored.)

ARTICLE I BILL OF RIGHTS

SECTION 8.1. CRIME VICTIM'S RIGHTS

- (a) Crime victims, as defined by law, shall have the following rights as provided by law:
- (1) The right to be treated with fairness and respect for their dignity and privacy throughout the criminal justice process.
 - (2) The right to notification of court proceedings.
 - (3) The right to communicate with the prosecution.
 - (4) The right to make a statement to the court at sentencing.
 - (5) The right to information about the conviction, sentence, imprisonment, and release of the accused.
 - (6) The right to timely disposition of the case following the arrest of the accused.
 - (7) The right to be reasonably protected from the accused throughout the criminal justice process.
 - (8) The right to be present at the trial and all other court proceedings on the same basis as the accused, unless the victim is to testify and the court determines that the victim's testimony would be materially affected if the victim hears other testimony at the trial.
 - (9) The right to have present at all court proceedings, subject to the rules of evidence, an advocate or other support person of the victim's choice.
 - (10) The right to restitution.
- (b) The General Assembly may provide by law for the enforcement of this Section.
- (c) The General Assembly may provide for an assessment against convicted defendants to pay for crime victims' rights.
- (d) Nothing in this Section or in any law enacted under this Section shall be construed as creating a basis for vacating a conviction or a ground for appellate relief in any criminal case.

SCHEDULE

This constitutional amendment takes effect upon its approval by the electors of this State.

FORM OF BALLOT

This proposed amendment to Article I will appear upon the ballot in the following form:

PROPOSED AMENDMENT TO ADD SECTION 8.1 TO ARTICLE I

(Crime Victim's Rights)

EXPLANATION OF PROPOSED AMENDMENT

ARTICLE I of the 1970 Illinois Constitution is known as the "Bill of Rights". Currently, the Bill of Rights specifically guarantees the rights of accused persons in criminal prosecutions, but it does not provide any specific rights for the victims of crimes. This amendment will add Section 8.1 to the Bill of Rights to guarantee that victims of crimes have the right:

1. To fair treatment;
2. To be informed of court proceedings;
3. To confer with the prosecution;
4. To make a statement to the court at sentencing;
5. To receive information about the conviction, sentence, imprisonment and release of the accused;
6. To a timely disposition of the case following the arrest of the accused;
7. To be reasonably protected from the accused;
8. To be present at all court proceedings on the same basis as the accused, unless the victim's presence would materially affect the victim's testimony at trial;
9. To have an advocate or other support person present at all court proceedings;
10. To receive restitution.

The proposition shall appear in the following ballot form.

For the proposed amendment to add Section 8.1 to Article I of the Constitution	YES
	NO

PROPOSED AMENDMENT TO SECTION 1 OF ARTICLE X

(Fundamental Right - Free Schools)

(Proposed changes in the existing constitutional provision are indicated by underscoring all new matter and by crossing with a line all matter which is to be deleted.)

ARTICLE X EDUCATION

SECTION 1. FUNDAMENTAL RIGHT GOAL - FREE SCHOOLS

A fundamental right goal of the People of the State is the educational development of all persons to the limits of their capacities.

It is the paramount duty of the State to ~~shall~~ provide for a ~~an~~ thorough and efficient system of high quality public education institutions and services and to guarantee equality of educational opportunity as a fundamental right of each citizen. Education in public schools through the secondary level shall be free. The State has the preponderant financial responsibility for financing the system of public education.

There may be such other free education as the General Assembly provides by law.

~~The State has the primary responsibility for financing the system of public education.~~

SCHEDULE

This constitutional amendment takes effect upon its approval by the electors of this State.

FORM OF BALLOT

The proposed amendment to Article X will appear upon the ballot in the following form:

PROPOSED AMENDMENT TO SECTION 1 TO ARTICLE X

(Education)

EXPLANATION OF PROPOSED AMENDMENT

The proposed education amendment contains the following provisions:

1. The educational development of all persons to the limits of their capacities is a fundamental "right" instead of "goal."
2. It is the "paramount duty" of the State to:
 - (a) Provide a thorough and efficient system of high quality public education, and
 - (b) guarantee equality of educational opportunity as a fundamental right.
3. The State has the "preponderant financial responsibility" for financing public education.

The proposition shall appear in the following ballot form.

For the proposed amendment to Section 1 of Article X - Education - of the Constitution	YES
	NO

OFFICE OF THE SECRETARY OF STATE CAPITOL BUILDING • SPRINGFIELD, ILLINOIS

I, GEORGE H. RYAN, Secretary of State of the State of Illinois, do hereby certify that the foregoing is a true copy of the proposals and the forms in which the proposals will appear upon the ballot at the November 3, 1992 General Election pursuant to House Joint Resolution Constitutional Amendment 28 and Senate Joint Resolution Constitutional Amendment 130, the originals of which are on file in this office.

IN WITNESS WHEREOF, I hereunto set my hand and affix the Great Seal of the State of Illinois. Done in the City of Springfield, this 6th day of July, A. D. 1992

GEORGE H. RYAN
Secretary of State

PUBLIC NOTICE

The following parcels of property, acquired through the Tax Sale Certificate Program, are being offered for sale by the County of Lake.

Written bids should be submitted to the County of Lake, Tax Extension Department, Room 601, 18 N. County St., Waukegan, Illinois, 60085.

Bids received will be retained for 30 days after the initial bid. After completion of the 30 day period, the County has the right to accept the highest bid or to reject it if the amount is insufficient or if the sale would not be in the best interest of Lake County Taxpayers.

Winterize vehicles now for safe driving

Mechanical failure—an inconvenience any time it occurs—can be deadly in the winter. Preventive maintenance is a must. Besides, a well maintained vehicle is more enjoyable to drive, will last longer and could command a higher resale price.

Some of the following tips can be performed by any do-it-yourselfer; others require the skilled hands of an auto technician.

First things first. Read your owner's manual and follow the manufacturer's recommended service schedules.

• **Engine performance**—Get engine driveability problems (hard starts, rough idling, stalling, diminished power, etc.) corrected at a good repair shop. Cold weather makes existing problems worse. Replace dirty filters—air, fuel, PCV, etc.

• **Fuel**—Put a bottle of fuel de-icer in your tank once a month to help keep moisture from freezing in the fuel line. Note that a gas tank which is kept filled helps keep moisture from forming.

• **Oil**—Change your oil and oil filter as specified in your manual—more often (every 3,000 miles) if your driving is mostly stop-and-go or consists of frequent short trips.

• **Cooling systems**—The cooling system should be completely flushed and refilled about every 24 months. The level, condition and concentration of the coolant should be checked periodically. (A 50/50 mix of antifreeze and water is usually recommended).

• **Do-it-yourselfers**, never remove the radiator cap until the engine has thoroughly cooled!

The tightness and condition of drive belts, clamps and hoses should be checked by a pro.

• **Windshield wipers**—Replace old blades. If your climate is harsh, purchase rubber-clad (winter) blades to fight ice build-up. Stock up on windshield washer solvent—you'll be surprised how much you use. Carry an ice scraper.

• **Heater/defroster**—The heater and defroster must be in good working condition for passenger

comfort and driver visibility.

• **Battery**—The only accurate way to detect a weak battery is with professional equipment. Routine care: Scrape away corrosion from posts and cable connections; clean all surfaces; re-tighten all connections. If battery caps are removable, check fluid level monthly.

Avoid contact with corrosive deposits and battery acid. Wear eye protection and rubber gloves.

• **Lights**—Inspect all lights and bulbs; replace burned out bulbs; periodically clean road grime from all lenses.

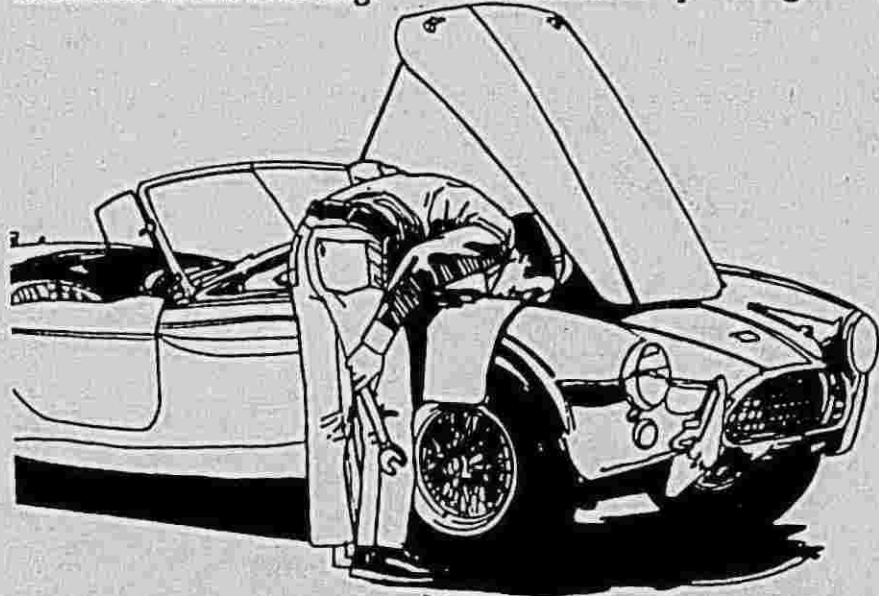

To prevent scratching, never use a dry rag.

• **Exhaust system**—Your vehicle should be placed on a lift and the exhaust system examined for leaks. The trunk and floor boards should be inspected for small holes. Exhaust fumes can be deadly.

• **Tires**—Worn tires will be of little use in winter weather. Examine tires for remaining tread life, uneven wearing and cupping; check the sidewalls for cuts and nicks. Check tire pressures once a month. Let the tires "cool down" before checking the pressure. Rotate as recommended.

Don't forget your spare, and be sure the jack is in good condition.

• **Emergency equipment**—Carry emergency gear: gloves, boots, blankets, flares, a small shovel, sand or kitty litter, tire chains and a flash light. Put a few "high-energy" snacks in your glove box.

Carl McWherter, President, First Chicago/Antioch

"Our Home Equity Loan Can Be Your Own Little Tax Revolt."

A First Chicago Home Equity Loan or Line can be a very effective way to lower your tax bill, while you borrow the money you need for any good reason. Because in most cases, you can write off 100% of your yearly interest on your income taxes (always ask your tax advisor to be sure).

Our Home Equity Credit is one of the least expensive ways to borrow, too. With our Equity Credit Line, your rate

\$0

No Points.
No Closing Costs.
No Application Fees.
Equity Credit Lines.

is tied to today's low Prime Rate.* And thanks to that nice write-off, the actual after-tax cost of your rate can be lower still—currently 5.18% if you're in the 31% tax bracket.

To keep a good thing going, right now you'll pay no points, closing costs or application fees. So you can see we make the battle very easy to start, easy to fight, and easy to win. Call 708-395-3030.

Move Up To First

FIRST CHICAGO ANTIOCH

The First National Bank of Chicago, 425 Lake St. (1 block west of Main St.), Mon.-Thurs. 7:30 am-6 pm, Fri. 7:30 am-7 pm, Sat. 7:30 am-2 pm.

*The annual percentage rate (APR) on First Chicago's Equity Credit Line varies monthly and is based on the Prime Rate as published in the "Money Rates" section of *The Wall Street Journal*. The APR is .75% to 1.50% over the Prime Rate depending on how much you borrow. For example, based on the Prime Rate of 6.0% on 8/31/92, the APR would either be 6.75% or 7.5%. Maximum APR: 21%. There is a \$35 annual fee. Property insurance required. © 1992 First Chicago Corp. First Chicago banks are Members FDIC.
